

# Breaking News!

Shalom Mishpochah (Family),

Starting **Monday, September 1, 2014**, we are moving our *Messianic Vision* radio show to the Internet. We are going off of daily broadcast radio, but we are not stopping the show! You can continue to listen to my radio program at any time of day at **SidRoth.org**. While you're there, you can also watch my TV show, *It's Supernatural!*

After broadcasting on radio since 1977, this is a major step for me, but I am convinced this is part of God's plan. I hope you will continue to connect with me through my website, **SidRoth.org**. I also encourage you to subscribe to my FREE radio podcast on iTunes. Just search for "**Sid Roth**" in the iTunes store.

If you are on Facebook, consider liking my page "**Sid Roth's It's Supernatural**" so you can receive regular updates from me.

I am excited about this next move for my *Messianic Vision* radio show. Remember, starting Monday September 1, 2014, be sure to join me at **SidRoth.org** so you never miss a show!

Shalom and Love,

*Sid Israel Roth*

P.S. Please see the reverse side for a list of ways you can continue to listen to the radio broadcast.

When I call you Mishpochah, or Family, I mean that. Family stays together. Thank you for understanding. This is God's idea, not mine.

## 3 Ways to Listen to the *Messianic Vision* Radio Broadcast

**1.** Go to [SidRoth.org/radio](http://SidRoth.org/radio) at any time of day to listen to the current week's radio show or to access hundreds of archived episodes. While you're there, be sure to watch my TV show *It's Supernatural!*

**2.** Go to the iTunes store and search on "Sid Roth" to find my free audio podcast. When you subscribe to the podcast, the new show will be delivered to your computer, phone or tablet each week. You may also want to subscribe to my free *It's Supernatural!* video podcast.

**3.** Search "Sid Roth" in the App Store and download our free *It's Supernatural! Network* app for iOS and Android devices. The app will allow you to watch our 24/7 online TV network on your phone or tablet as well as listen to our current radio programs.
