**SID:** My guest has seen America's future different than most people think.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. I want you to experience the presence of God that is in this studio right now. And I'm going to tell you something. You have probably never seen what you're about ready to see, ever, ever. I'll tell you why. My guest prophesied for one hour the future of America, and he has never shared this on television before, and there's a reason. And we'll get into that. But I want you to recognize that my guest Shane Warren hears from God. And the best way to know is to find out what he has prophesied in the past that has been so accurate to the decimal point. Shane, you told me, before 9/11, what happened?

**SHANE:** I was pastoring a small church in a small town, and the Sunday before 9/11, while I was preaching, in the middle of my preaching, Sid, all of a sudden something came on me. I began to weep and I could literally smell the fragrance of death in the air. Let me qualify that for you. Early days, as a child, I had been a witness to an accident, a car accident, in which a family had burned alive in this car accident, and I was close to it, and there was a smell that that smell gave us. That was the smell that I began to smell in the atmosphere. I called my church to prayer. I said, something drastic is about to happen. I don't know what this means, but God says, "The number of 12 is order." But God said, "The number of 11 is confusion." And there is something tied to 11 and there's something tied to the smell of death. And I said, I don't know what this means, but I need us to all pray. A very somber air came upon our church.

**SID:** By the way of course, September 11th, that's where you got the 11 from. And also, I didn't mention to you, he was touched by God as a young man. And he knows without being told, people's names, addresses, even the very dreams they have. So go ahead.

**SHANE:** Well I had this experience, and I knew this was from the Lord. I had no idea what it was about. I became very burdened about it. To my own horror, a few days later I get a phone call from one of my board members that morning, 9/11. He said, "Pastor, are you up?" And I said, "Yeah, I'm up." He said, "Do you have your television on?" I said, "No, sir." He said, "You need to turn your television on. Everything you just said is coming to pass right now." And he said, "There has been a bombing in New York of the Twin Towers." I turned on the television and I was just shocked, as the rest of the world was, as we watched those towers collapse that day. So that was one of the events that God showed me beforehand, even to the point that people called and wanted to know how I knew those events. And I just had to tell them, it came from God.

**SID:** Okay. In 2007, before the great recession that we had in the United States, the Spirit of God came on you, and what did you say?

**SHANE:** I was preaching in my church in Louisiana. And as I began to share, all of a sudden the spirit of prophecy came on me. And the Lord began to speak through me about a recession and telling the people to shore up all of their investments, that there was nothing that was going to be safeguarded from this. That they needed to make sure they got their investments in line, that there is something great was about to come upon the economic system of America, and we were going to begin to struggle. And in the midst of that, God began to speak to me how He's going to bless the church. And in the midst of that for those who would listen to the Word of the Lord. And then God began to speak to me about prophetic winds that were blowing, and the things that would happen in America. And then of course at the end of 2007-2008, the great recession hit. But what was amazing, God was giving me specific details of the stock market. And the Lord spoke to me and said that America had depended and had been worshiping a bull like the children of Israel, who had been brought out of bondage and were brought out into the wilderness to worship God. And Aaron had built this golden calf, that so America was worshiping a bull, and it was the bull market. And God said in this prophesy, "I'm about to grind that bull up."

**SID:** And that was at a time when you could buy real estate anywhere and make money. You could buy stocks anywhere and make money. All of these amazing companies were going off the charts. So for Shane to say that now, it wouldn't take a lot of talent. But before it happened I would imagine some people didn't even believe what you prophesied.

**SHANE:** Oh yeah. I had people, as I told you before, I received great persecution for it. I was told that I was a false prophet. Some of those prophesies made YouTube and of course got responses that I was a false prophet, didn't know what I was talking about. And I never claimed to be a prophet. I don't necessarily want those kind of titles. I just know when the Spirit of God comes upon me and begins to speak through me.

**SID:** As far as America goes, you saw some things that we'll talk about on this show, that you told me you have never shared publicly on television before. You're going to find out the future of America. You're going to find out specifics. You're going to find out what the wise will be investing in to be able to help all the needs that are shortly going to come on America. You are going to find out the future of true believers in the Messiah. The blessings of God are going to so overtake them that it's going to just knock the breath out of you. Don't go away. We'll be right back.

*We now return to **It's Supernatural**.*

**SID:** Hello. Sid Roth here with Shane Warren. Shane thinks he just has a normal service. And he begins to hear from God, and begins to prophesy things he had never heard before about the future of America, for one hour. He is a known man that hears from God. And I want you, this is

the first time he has shared this throughout the world on television. Now you explained to me you've been studying the history of nations, and there is what you call a 400-year cycle.

**SHANE:** There are numerous cycles in the Word of God, Sid. You know, you have 400, 490 years and seven-year cycles, things of that nature. But specifically is when God spoke to Abraham and told Abraham, before the children of Israel went into bondage, that they would be there for 400 years in Egypt. And He said they would be there, and then He said, "Because the iniquity of the Amorites has not yet come to the full." In other words, it would take 400 years for the iniquity to build up to the place that provoked God's judgment.

**SID:** A lot of people don't understand this. It's almost like God has much more mercy than any human you ever met. And it's because He has so much mercy, you think you'd get away with sin. Well what is going on is like a big barrel, and the sins are being poured into it. And there comes a tipping point. That's what you're talking about.

**SHANE:** We're at the tipping point. In fact, it could be that America has went beyond the tipping point at this phase. I hope not and I pray not. But still, that 400 years, there is some sort of prophetic cycle there. Most people focus on America only being 230-some-odd years old. But the truth of the matter is the first compact in America was signed in 1620. So the 400-year cycle for America is going to come at the year 2020. Every single major student of church growth, church history is telling you that in America we're on a slippery slope, an incredible drastic decline within the church and spiritual—

**SID:** So what happens in a 400-year cycle to a country?

**SHANE:** The judgment of God is poured out.

**SID:** Okay. What is the major reason that the judgment of God is poured out on a nation, historically, at that 400-year cycle?

**SHANE:** Well one of the primary sins that is always evident at that 400 years is sexual immorality. If you study every single major nation throughout the history of the world, they all reach points of drastic decline and even destruction whenever the immorality had come to the full. And it manifested itself in every single form of perversion that you can imagine. And that is happening right now in America.

**SID:** The classic example I think of from the Bible is Sodom and Gomorra.

**SHANE:** Absolutely. Sodom and Gomorra. And America in many ways, in fact in my opinion, has went way beyond Sodom and Gomorra.

**SID:** Now tell me about what God has shown you about the four winds.

**SHANE:** The Book of Revelation says there's four angels that stand on the four corners of the earth. These angels have control of four winds. These are not natural winds. These are spiritual winds, but they manifest themselves in natural ways. Throughout world history, you study

history, you'll find out there are four winds that always have shaped nations, controlled the course of world history. One is the wind of war, another one is the wind of economy, another one is the wind of religion, and the wind of politics. And these four winds are blowing. And God began to show me these four winds are blowing all over the world at the same time, and they're escalating, Sid, and they're creating for us the perfect storm. And the reason I say the perfect storm is because God prophesied this storm is going to come to pass. So we know this is going to happen. The scripture is clear that it's going to happen. Unfortunately, this is not a popular message right now in America.

**SID:** Is this happening right now?

**SHANE:** Absolutely. Look at the wars and the rumors of wars that are taking place all over the globe. The Middle East, the wind of war is blowing. The wind of war, terrorism has encompassed the entire globe. Every nation has been affected by the wind of war. What about the wind of economics. You know, somebody who would have to be totally ignorant to world events would say the wind of economics isn't blowing. It's not only blowing, it is storming around the world. Entire nations' economies are collapsing. Entire governments are on the verge of bankruptcy. Just yesterday I read a report that 46 of our states in the union had \$160 billion shortfall last year in their budgets. America is on the brink of bankruptcy, and they're sharing with us a bunch of lies. It's not true. We're in trouble.

**SID:** Okay. God showed you seven attacks from the scriptures in previous nations. Pick two of them.

**SHANE:** Oh one of the mighty attacks upon nations, you know, in the Book of Revelation there's a mention of a seven-headed dragon. This seven-headed dragon, these seven heads represent seven empires of world history. We can mark that with history. But what's interesting, each one of these heads, each one of these empires have a spirit that's behind them. These spirits are now working all in conjunction at the same time as the spirit of the Antichrist in the earth right now. One of those great spirits is the spirit of Greece. The spirit of Greece was the changing of laws to restrict religious freedom. The byword in the Grecian culture was, we need to be understanding and tolerant. "Tolerant" was the word of the day.

**SID:** My goodness. There's nothing new under the sun. It's the same spirits.

**SHANE:** Absolutely. There's nothing new. And through tolerance they changed laws that literally restricted people from worshipping God. What's interesting, in Greece, every perversion was acceptable. Every religion was acceptable. Every philosophy was acceptable except for one. And that was the religion of Christianity and the naming of the name Jesus Christ.

**SID:** Very briefly, one more.

**SHANE:** Babylon is the spirit of confusion. And confusion comes upon nations. You know, I heard from my own mouth, with my own ears from the mouth of politicians that they said they never saw this economic collapse really coming. They don't understand why we're in the state that we're in. They're absolutely baffled that nothing they're doing is working. Entitlements

doesn't work. Stimulus money doesn't work. Bail outs doesn't work. Nothing is working. The reason it isn't is because the spirit of confusion is upon the land.

**SID:** I need you to listen very, very well about the future of America, about your future when we come back. Don't go away.

*We now return to **It's Supernatural***

**SID:** Hello. Sid Roth with Shane Warren. And Shane had a vision of the future of America. Shane, tell me, let's start out about the vision of the storm.

**SHANE:** Approximately a year or so ago I was setting on the couch. I thought I had fallen asleep, when in reality I was in a vision, an open vision. I have a large screen television in my living room. I was setting on the couch watching television. And again, I thought I was dreaming. As I watched there was a weather broadcast that was on television. And there was a news anchor who said, "The most amazing thing is going on right now. It's tragic. It's tragic." And they were building this news broadcast around this event. He said, "Normally hurricanes hit on the coastal lines." He said, "But there is a hurricane that seems to be spreading down or coming across the heartland of America." At that point he showed a satellite image of America. And I was horrified as I watched a storm covering from the northern border to the southern border, from east to west as this massive storm with the eye right over the center of America, a hurricane coming across the center of America.

**SID:** How can that be?

**SHANE:** Well this is how I believed it happened. Immediately it came back to this anchor. The anchor said, "We have somebody on the ground in the eye of the storm. We're going to go to him now." They pitched it to a news reporter, this news reporter in the eye of the storm as you would see it in a hurricane. The wind is blowing violently and they're being tossed to and fro. He said, "This is the most amazing thing. I don't understand it. This is not a natural storm." That was his words. He said, "This isn't normal." He said, "Look at what it's raining." And he reached down on the ground and he's picking up and he holds in his hand a fist of \$1 bills. He said, "This isn't natural. It's raining dollar bills." And the anchor and this correspondent went back and forth about the meaning of these dollar bills. He said, "I don't understand. It's almost like they're worthless. They're worthless." It was raining dollars. About that time it came back to the anchor, he said, "Ladies and gentleman, another tragedy has hit America." He said, "Right in the heartland on America on the New Madrid fault a major earthquake has just hit." And immediately pictures of devastation begin to pop up all over America, the heartland of America, along the New Madrid fault, as earthquakes cause entire cities to crumble. And while I was

setting there I heard a booming voice in behind my ear that said, "They have divided my land. Now I will divide their land."

**SID:** And Leviticus says that Israel is God's land. It actually says, "This is my land."

**SHANE:** And the Word of God goes to prophesy, in Joel I believe it is, that if we divide His land that God will divide our land. I never realized the prophetic implications of that. But I knew immediately in my dream or in this vision that he was speaking about Israel, and specifically Jerusalem, and all that's going on right now. Which tells me that this dream that I've had and all of these issues that are going on with Israel and Jerusalem that's taking place right now, Sid, it tells me that this dream that I had is about to unfold, because I heard that. And I saw the incredible changes in the prices of currency. I saw silver, not gold, but I saw silver begin to drastically increase in value. Not gold, but silver. Which to me is against my natural thinking. I don't really, I'm not an economist. I'm a preacher.

**SID:** Well I can tell you this. Twenty years ago I had a dream. I've only had a few dreams in my life in which God has come to me and spoken very, very, not symbolically, very clearly. And He told me the same thing, and that's one reason I'm really listening to what Shane is telling us. Go ahead.

**SHANE:** I saw with that riots begin to break out. Major cities all over America broke out in riots. People were rioting in the streets. And on the sign is, "Give us our entitlements". And it was literally war. I mean, it looked like civil war within our borders. But it was all over the issue of the devaluing of money. And then, Sid, immediately I was called up and I was setting in a room with world leaders. I can tell you that China was there. Iran was there. Russia was there. And here's what's amazing. Putin was there. And he just got reelected.

**SID:** So this is going to be soon.

**SHANE:** In my opinion, this is very soon.

**SID:** Or it might be taking place now, what you're about ready to share.

**SHANE:** I believe it's unfolding in the background. And I believe that the governments, world governments, including America knows it's getting there.

**SID:** What was going on with this meeting?

**SHANE:** In this meeting these world leaders were talking about how to devalue the currency of America by buying oil on another currency, with another currency, and somehow or other that would drive down the value of the American dollar. And when this happened I realized this storm, as I'm setting here watching this, I woke up. And I realized I wasn't in a dream. I was still setting up on the couch. I was looking at the television and I realized this was an open vision that God was showing me the storm that's about to come to America. And for you listeners that are watching right now, I'm telling you, you need to get ready and turn toward God. We are on troubling days.

**SID:** Okay. What is the hope that you also were shown by God?

**SHANE:** Churches became cities of refuge.

**SID:** In other words, the government wasn't helping people with need. Churches were helping people with need.

**SHANE:** All of a sudden the body of Christ stood up like a mighty sleeping giant in the earth and began to, I feel the anointing on me right now as I'm talking to you.

**SID:** Me, too.

**SHANE:** Began to minister. And people were coming to them. And I saw signs and wonders, and miracles being poured out all over America. I saw America being shaken as the world couldn't go to the government any more. They had to come back to the church for help.

**SID:** What kind of glory did you see going on in the church?

**SHANE:** I saw literally like cities of refuge. Entire cities became cities of refuge where the scripture talks about, "There was rain in one city and no rain in another city." I saw that. People were plunging into these cities because there was life there. There was glory there. The presence of God was there. There was peace there, and they were running to that, and revival was taking place.

**SID:** What is, based on everything you've seen, the future of America? Are our best days ahead of us or are we in judgment right now?

**SHANE:** I believe that we have a two-sided coin taking place. That on one hand, judgment is beginning. That God has had His fill of immorality. That God has had His fill of complacency.

**SID:** And what's the other side?

**SHANE:** The other side is this glorious outpouring. Always when judgment comes, it's always unto mercy. But Sid, I must clarify, I believe that we're running out of time.

**SID:** Time is running short. Time. Look, you don't know when your end is going to come. But you only have this moment. And many of you are saying, I've got plenty of time. Well when this shaking occurs, and it's starting right now, you're going to be saying, I thought I had more time. You don't. You don't know when your end will come. Get right with God. Repent of your sins. Believe the blood of Jesus has washed it clean, and make Jesus really your Lord. Really.
