

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. But let me tell you something. My next guest is going to stretch your faith. You see, she believes, and I do, too, everyone has a cylinder of light or a portal to Heaven over themselves. And as you realize this, and as you activate this, that's how Heaven brings things from Heaven to Earth for you. She wants you to activate your cylinder of light. Be right back. I have to tell you. I am fascinated about this cylinder of light. Some people call it a portal. The Bible calls it a gateway. And Rebecca, God is showing you that every believer has this cylinder of light. And what I happen to believe is, when I'm in the cylinder of light, no weapon formed against me can prosper.

REBECCA: Amen.

SID: Is that true?

REBECCA: Amen. There's supernatural protection in this open portal that we have the opportunity in this earth realm to access.

SID: And when it says, "Thy Kingdom come, thy will be done."

REBECCA: On Earth.

SID: "On Earth as it is in Heaven," through this portal comes the things we've prayed for.

REBECCA: Absolutely. Our blessings travel through the portal, Sid. It's an amazing place to operate in and to dwell in. It's a secret place.

SID: Give me one biblical reference about someone that had that access in the Bible.

REBECCA: Oh that's easy. Elijah, he operated under an open Heaven. Jacob operated in an open Heaven

SID: The ladder?

REBECCA: The ladder.

SID: People have seen this cylinder of light over me. People have seen this over you. Do you see this over everyone?

REBECCA: Absolutely. Believers and unbelievers alike. And according to the expansion or the constriction of each individual's portal is how I minister to that either believer or unbeliever. It makes the ministry easy.

SID: I used to be a stockbroker. That's called inside information, but it's not illegal.

REBECCA: Yes.

SID: Okay. So the first time you were aware of the portal, but you didn't really know this, you were just eight years old.

REBECCA: Eight years old.

SID: What happened?

REBECCA: Well I was actually mowing the grass and I was on a riding lawnmower, and it was a bit repetitious because it was a large yard. It was my uncle's yard. And all of a sudden, the heavens opened over me and the clouds actually rolled back in pillars of magnificent revelation. And I squinted my eyes, and I caught onto the gear, and I sped up, and I stayed busy for the next 30 years.

SID: Now I'm going to tell you. You have never, ever heard of someone coming to know Jesus the way Rebecca did. She was raised Baptist and she, a little rebellious, alcohol, drugs, the whole nine yards. But one day, her mother says, "I want you to go to church." And for some reason, Rebecca said, "Okay." And she goes there, and she knows nothing. She's not saved or anything. And the young kids gravitate towards her. So the youth pastor says, "Hmm, they gravitate towards her. I'll have her as a speaker." She's not saved, remember. "I'm going to have her as a speaker for my youth meeting." So he asks her and what did you say?

REBECCA: I said, "Yes, okay, I'll do it."

SID: So tell me about it.

REBECCA: And when my head just, you know, started say, yes, and I was saying, no, and my mom, she was like, "No, don't do it!" And you know, now I think back with the knowledge that I have of the revelation of God, where was that youth pastor's discernment, because I was so lost. And but little did I know, God had a plan.

SID: How did you know what to say?

REBECCA: Well he told he, he said, "Don't worry about what to say, for the Holy Spirit will give you want to say in the hour that you need to say it." And I said, hey, that's easy.

SID: The youth pastor said this?

REBECCA: Yes.

SID: Okay. And I believe him.

REBECCA: Oh yes, I believed him. I didn't even take a Bible.

SID: All right. So she said, okay, God is going to tell me what to say because my youth pastor told me that. So she's standing up to speak for the group, no Bible, no preparation, not even saved. What happened?

REBECCA: Well they introduced me and they said a lot of good things about me, and I was like, hey, they like me better than I do. I think I like this place. And when they put me behind the pulpit and I said, "Well your youth pastor said that the Holy Spirit will tell me what to say in the hour that I need to say it," and I said, "and he's not here yet."

SID: So what did you say?

REBECCA: I just stood there and everybody looked me kind of like you are..., and I just waited, and I waited.

SID: What's everyone doing while you're waiting?

REBECCA: Well the pastor and the youth pastor, they were having a meltdown and the rest of the church thought it was quite interesting that I didn't have anything planned. So God was really setting me up for the revelatory realm, that he would give what to say in the hour that I needed to say it, because they needed to hear what I had to say.

SID: Suddenly, what happened?

REBECCA: Suddenly, there was a hot oil from above began to flow and it, and I felt it cascading down over my head, and then I could feel it running down my body. And by the time it got to my feet, you know, all these words shot out of my mouth, and it was ministering to me. But it wasn't me. It was Him.

SID: So she speaks and then she remembers she saw Billy Graham at a meeting, and Billy said, "Come." So after she finished speaking, she just copies Billy. She doesn't know what she's doing. "Come." So they all come forward to get saved and she doesn't know how to tell them. She's not even saved. What did you do?

REBECCA: Well I said, "Well God, if it worked for Billy it has to work for me. "So come from all over the building. If you don't have Jesus in your heart, come from all over the building."

SID: [unintelligible]

REBECCA: And so the children rushed to the altar. It almost frightened me because they were running towards me and their parents came, and the chaperones came, and some of the ministers.

SID: We'll just keep that secret between the two of us.

REBECCA: And so the children said, "What prayer do we say to be saved to ask Jesus into our hearts?" And I said, "I don't know, but if we'll get the pastor down here we'll all get saved."

SID: And were you saved?

REBECCA: That night.

SID: You get that? The pastor comes up, gives the altar call and she says it along with all these little kids. When we come back, you're going to find out about a six-hour open vision that totally transformed Rebecca's life and it's going to transform yours. We'll be right back.

SID: When I met Rebecca a few weeks ago she said, "So many days ago, I had a life changing open vision." And I just asked her now, "How many days ago?" And she said, 1810 days ago. Now why do you keep track of that precisely?

REBECCA: Well that was a lot of change in a day in my life. It was actually February 14, 2010, and later, God gave me revelation that is scriptural simply because God gave me a new heart that day. And since that day, I began to number the days, because truly, God gave me a heart of wisdom.

SID: Tell me what happened that day. Because it really was life changing. But as a result of that day, you operate in revelation, and we'll get into that a little more later on. But tell me what happened that day.

REBECCA: Well God introduced me to his glory. I had heard songs about the Glory of God. I was highly anointed. I pastored a church. I thought I had everything God had made available for me. But his glory is his unexplained, convincing manifestation of himself. And so that's what I was lacking. I was introduced to his glory that day. God sent me on a treasure hunt. It was Valentine's Day, and he said, "I want you to spend today with me." It was actually on a Sunday, that particular year. And he sent me on a treasure hunt that I actually went to my great-grandfather's farm, and was able to go to different places, and God revealed himself to me as revelation. And since that day, 1810 days ago, I've been under revelation. I call it ridiculous revelation.

SID: Well tell me how this works. What is revelation?

REBECCA: Revelation is the Father's explanation. So many times we've been told, no because I said so, without any explanation of why we shouldn't do the things that we shouldn't do. And so we, like Paul, end up doing the things that we shouldn't do. And the things that we should do, we never get done, because there's a lack of explanation. And revelation is simply, Sid, God's

explanation to his children. When I explain something to my children, then the chances of them falling short in that area are slim to none because they have that explanation of intimacy.

SID: Now during this open vision, you went to Heaven. What did you see in Heaven?

REBECCA: The first thing that I experienced when, on February the 14th of 2010, was love. I saw love for the first time. Even though I had been loved by my family and I have many friends, there was something within me that could not accept that love. I could feel lonely in a crowded room. I just couldn't get to the place that that love would penetrate me and saturate me, and take me into the place that God had destined for me. And when he opened the heaven over me, of course, I now know that I've always walked under an open heaven, but now I have understanding. I have revelation of an open heaven, what it is, how it looks like, how do you stay there. I thought for sure I could mess it up.

SID: When you operate under an open heaven and you have knowledge, give me an example of something that could happen.

REBECCA: Oh anything can happen. And that's one of the, that's a good point, Sid, because under an open heaven, anything can happen. Generational curses, I walk by people and generational curses are melted by the presence of God.

SID: What happened, now you said that you had a wounded heart and that God healed it during that time. When, the same thing happens when you pray for people with broken hearts, what happens?

REBECCA: They receive a brand new heart. Why not? I asked God so long to fix my heart and finally he gave me revelation, "I can't fix your heart."

SID: God can't fix your heart?

REBECCA: I said, "We're jacked up, Lord, because if you can't fix my heart—"

SID: Big trouble.

REBECCA: I don't know what's going to happen." And he gave me revelation. See, he gave me his explanation, because God can give us something, Sid, and we can mess it up if we have a broken heart. We can mess up the blessings that God has for us.

SID: So what did he tell you?

REBECCA: He said, "I can't give you, I can't fix you, I can't fix your heart." And I said, "Why God?" And he said, "Because every time I fix it, you bring up the past and you break it all over again." He said, "But I can give you a brand new one." And so I received a brand new heart on Valentine's Day, 1810 days ago.

SID: Well let me ask you this question. Most people have been wounded.

REBECCA: Yes.

SID: Maybe every one of us has been wounded. Not maybe, everyone.

REBECCA: Every one of us.

SID: Every one of you have been wounded, every one of you. So could it be so simple that you would pray a prayer?

REBECCA: Oh Sid, everyone in this, everyone listening to this broadcast, everyone that has an ear to hear what's about to be said, everyone sitting in this audience, the people that drive by this building right now can receive a brand new heart from God.

SID: Could you pray for them right now.

REBECCA: Absolutely. Right now in the name of Jesus, there is a no time nor distance in the Glory of God. And right now, hearts are being passed out from Heaven. I see hearts coming down from Heaven for God's people. The ones that have an ear to hear, hearts are being implanted right now in the hearts of God's people. They have been broken for so long. And I understand that you think that God can't fix your brokenness. God doesn't want to fix your brokenness. He wants to heal you and your brokenness today. So receive a heart from God today and begin to count your days, in Jesus' name.

SID: You know, you said that everyone has this portal, this cylinder of light that is their passageway back and forth for the things they pray for from Heaven. But you said most people's are small, but there is a way of expanding these portals.

REBECCA: Absolutely.

SID: Tell me a couple of ways.

REBECCA: Well Sid, first off, if I'm going to have a portal, it's going to want to be expanded. And a faith expansion portal loves patience, the fruits of the spirit. But you can also constrict your portal.

SID: How can you constrict it?

REBECCA: Fear, doubt and unbelief.

SID: I'll tell you what. As she started talking about expanding the portal, the presence of God, did you feel that?

REBECCA: I did.

SID: I felt something happen. And when we come back, I think it's time for you to start operating in revelation. Don't you have a few questions for God? We'll be right back.

*We now return to **It's Supernatural**.*

SID: Now Rebecca is telling me that even in rooms, she has a token, a sign from God, many times, of a rainbow. What was the last time you saw a rainbow?

REBECCA: A rainbow?

SID: Yes.

REBECCA: A rainbow manifested in my hotel room yesterday morning. I said, "God, what is this?" And he said, "Well religiously, my children have been taught that there's a treasure at the end of the rainbow." And, you know, foolishly, I've traveled after it. But when you understand that you operate under an open heaven and you have access to the throne right here and right now, the rainbow manifests in your presence because you understand that you become the treasure and God manifests himself within you.

SID: So I'm very intrigued by this gift of revelation. One of the areas God has given you revelation in is curses. Tell me a testimony involving this revelation on curses of a person.

REBECCA: Well generational curses, that's recorded in the 34th chapter of Exodus, a lot of people do not believe in curses and generational curses. But if you believe in blessings, you have to believe in curses, because it's, they're contrary to each other. I prayed with a lady one day that had a generational curse of fear. Of course, it just, the symptom was anxiety.

SID: Sure.

REBECCA: It wasn't going to say, hey, I'm a generational curse here, cast me away. But I said, "How long do you want to be like this?" And she said, "I want it stopped." And I said, "Can I pray with you?" And I lead her through a short 20-second prayer, a prayer of repentance, because repentance always means restoration, Sid. Repentance is a hundred percent restoration guarantee, and that's a pretty good return. And so—

SID: I'll take it.

REBECCA: I led her in a 20-second prayer of repentance that brought her into revelation. Repentance will always escort revelation. And so therefore, we broke a curse of fear. She left my office, and as she was traveling home, her fear was that her oldest child that was about to go off to college would be harmed, and she couldn't get to her, and she actually feared her death, that she would die, and she couldn't get to her. And so on her way home, and she's a simple Christian, and she called me back, and she said, "It was like a movie reel started playing in my head, and I

don't know what this is, but I think God has shown me that this came in on my grandmother." Well come to find out, she began to explain to me that her great-grandmother had been killed on a train track and her grandmother took on the fear of her mother being killed, and then gave it to the next generation. And then the fourth generation was actually the young woman that I was praying with. And when we broke the curse of fear, we were on the telephone, and she began to say, "There's been a wreck on my highway." She said, "It's been a bad wreck." And she said, she began to scream and she said, "It's my daughter," the same daughter we had just finished praying for 15 minutes earlier. Well long story short, Sid, the daughter had wrecked her vehicle, flipped in the woods, and only to walk away from the accident. And so literally, Sid, as we were breaking the generational curse, the daughter, the enemy had plans to steal, kill and destroy, simultaneously, as we were breaking the curse, the kid was flipping in the car, but she was untouched.

SID: You know, this is—

REBECCA: Supernatural.

SID: This is welcome to my world where it's naturally supernatural. Look into the camera and pray the Glory of God overtake those that are watching right now.

REBECCA: I pray right now in the name of Jesus that the Glory of God arise on every individual that has ever been created, that the Glory of God, according to the 60th chapter of Isaiah, would arise upon you now. And the light of God would come up upon you, that it may be seen, not only by yourself, but by everybody else that it may be witness, that it may be a tool. As it arises upon you, may it set the captives free and as it sets the captives free, may it set you free as well, in Jesus' magnificent name.

SID: And I pray that every ounce of that Glory would just, it's on someone's head right now.

REBECCA: Yes.

SID: And migraines are leaving. Back pains are leaving.

REBECCA: Yes.

SID: That Glory is healing you right.

REBECCA: Generational curses right now—

SID: Generational curses.

REBECCA: Are being melted.

SID: In Jesus' name.

SID: Next week on *It's Supernatural*. Many believers today say, God works in mysterious ways. Have you ever heard him say that? Well for believers, it's not supposed to be a mystery and some of the questions that you have been asking God, God, why am I still sick? God, why did my uncle die of cancer? God, why am I in poverty? You're about ready to get the answer.
