

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. **SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. My guest carries so much of the presence of the Glory of God, of the Spirit of God. This is going to be hard for you to believe, she's driving along one day and a stranger, someone she doesn't even know, jumps into her car. She stopped to leave her children off. Jumps into her car and says, "You're beautiful." Now what would you do? I'll tell you what she did. She didn't do anything. The Glory of God, the fire of God jumped off of her on this man. He starts sweating profusely, starts shaking and then she leads him to Jesus. Do you want to know about that fire? That Glory is for you. You know, I travel all the time like you, but I have never had someone sit next to me like Alice Cresswell. Tell me about this man that got stuck next to you on a plane. There was nowhere else for him to go.

**ALISS:** What do you mean stuck next to me?

**SID:** He's thinking, how can I exit.

**ALISS:** He was pinned in because he was by the window because I'm in the middle. There's another guy to my right.

**SID:** That's even worse.

**ALISS:** So I'm just sitting there minding my own business. We're just about to take off and as I'm looking out through the window I notice the guy to my left by the window is starting to look a little bit red in the face. And then I notice he's got beads of sweat begin to appear on his forehead and start to trickle down the side of his face.

**SID:** Now if that happened to me I'd think the person was sick.

**ALISS:** Well to be honest I just thought, well maybe he's scared of flying, and I was actually starting to think maybe I ought to offer to pray and say, is there a problem with flying. But before I had a chance to even think about what I was going to say he just turned to me and he said, "What's that? What is that?" And I was like, "What's what?" And he said, "There is so much fire coming out of you," he said, "so much power and so much heat." He said, "You are making me sweat." I said, "That would be the Spirit of Jesus, the Holy Spirit that you can you feel." Now he told me that he was into new age stuff. He had been into Buddhism. He said he knew the spirit realm very well, but he never felt anything like this kind of level of power or fire from anybody. So I just went on to tell him that Jesus is the access point to the spirit realm. Jesus said, "I am the door." And I told him a bit more about Jesus and how he died on the cross. And as I'm telling him this I get a pain in the base of my spine. So I just thought, maybe I'm picking up on something with this guy. So I just said to him, "Have you got a problem with your spine?" And he said, "Yes." He said, "For 14 years," he said, "I've been in constant pain." He said, "What happened was," he said, "14 years ago I was in a bar, got involved in a fight and I was

actually, my back was broken, like severe.” Breaking his back. He had surgery and sciatica. It was pressing on his sciatic nerve. He had been on liquid morphine for 14 years, but still had all this pain in his body. So I said, “You know the Spirit of Jesus you could feel coming out of me, the Holy Spirit, would you like a little bit of that power, just a little bit to go into your body and heal you?” And he was like, “Don’t mind if I do.” So I’m just sitting there and I just put my finger on his shoulder like this and I said, “I release the spirit of the power of Jesus, the healing power of Jesus now. In Jesus’ name be healed.” All the bones go back together. He had metal rods in his back. I said, “Metal come out, all pain go in Jesus’ name.” Then I said to him, “What are you feeling?” Because I always like to ask. It’s always a scary part, but I do ask what is the person feeling. And he’s like, “Nothing.” So I said, “What do you mean nothing?”

**SID:** You must be feeling all sorts of things.

**ALISS:** Yes. And I expect him to be healed, you see. So I’m like, “What do you mean you feel nothing?” And he says, “No, you don’t understand. For 14 years, I have been in constant pain. Now I feel nothing.”

**SID:** Wow. Now Alice has a bed and breakfast and a boutique, and tell me about someone, a man that came into your boutique and was, he’s looking for a gift or something.

**ALISS:** I noticed this guy, as he walked through the shop he had quite a pronounced limp, and I just got chatting to him, and I said, “What’s the trouble?” And he said, “Well 30 years ago, I was involved in a major car accident, this car wreck.” He said, “It nearly killed me.” He said, “It was terrible.” He said, “Three of my vertebrae” in his back were crushed. They thought he was going to die. He’s actually lost, he said, he lost four inches in height because his back was crushed. And he broke all his jaw and he actually lost all his teeth. They had to reconstruct his jaw. The top part of his mouth they had to put a new one in. He had bruising on his brain and he had epileptic fits now. He had pain in his body all down his legs, sciatic nerve and everything. And he would wake up very often in the morning with blood in his mouth and with, just his arms and legs were numb.

**SID:** Sounds like an awful life.

**ALISS:** I mean, terrible. They told him he was going to be in a wheelchair very soon and his hands were shaking like this ever since the accident. So I said, “Well Jesus can heal you. Can I pray for you?” And he didn’t know anything about Jesus, but he was amazing. He said, “Yeah, have a go.” I don’t know if he believed or not that it was going to work. But I started to pray and the power of God just came in such a mighty way. His knees started to buckle and he started to fall over. My husband Rob, across the other side of the shop, saw what was happening and he just raced across the shop and managed to catch him in time, and we helped him into a seat. And he’s sitting there, and you know, he couldn’t even speak because just the power of God was so strongly upon him. And he was crying, and he was crying, and he was crying. I was like, “Are you okay?” He said, “The pain is gone. The pain is gone.” And as he’s sitting there he’s trembling and he’s crying, and he can hardly speak, and he’s like “The pain is gone.” He sat for a while and I said, “Come on, just jump up.” And he said, “Last night I went to the movies. It took me 20 minute to get up from my seat.” He said, “I can’t just jump up.” I said, “Jump up in the name of Jesus because the name of

Jesus is so, so powerful.” He literally jumps up out of his seat and he’s still crying, and he’s like, “I’ve grown! I’ve grown. I’m taller.” Because he was four inches short, he said. He said, “I feel taller.” We prayed for his jaw and it went numb, and he said he feels it moving around, and his hands stopped shaking. They were just perfectly still. And he stayed in the shop for maybe another couple of hours. He was so overwhelmed and he prayed to God, and he said, “God, thank you for healing me. Please come into my life. Come and fill me with your Holy Spirit.”

**SID:** You know, when we come back, I want you to put yourself in this situation. You’re driving a car. You’re by yourself and someone you don’t know jumps into your car, and this person has evil intentions. That’s what happened to Alice. But what happened to this person, we’ll talk about him when we come back.

**SID:** I just can’t imagine this. You’re just driving along and were you stopped for a light or a stop sign, and this man opens your car door and jumps in. Were you stopped?

**ALISS:** Well what happened was I was actually taking my daughter to work and she jumped out in the car park, the parking lot, she jumps out, closes the passenger door and I’m just reversing my car when this random man I’ve never seen in my life before opens the passenger seat and jumps in, and closes it behind him. And he looks at me, and he says, “You are beautiful.” And I thought, well that doesn’t happen every day. I was stunned. I was just so shocked. I was not expecting that. And I’m just sitting there, and so basically I just looked at him and I didn’t even say a word, but I just turned to him when I looked at him, and without a saying anything, he just starts to, actually starts to tremble in my car. And then before I knew it he starts crying and he says, “I’m so sorry. I’m really sorry. I’m so sorry. I’m so sorry.” He keeps apologizing. He says, “I got into your car with bad motives in my heart, impure motives in my heart,” and he’s saying, “I’m sorry, I’m sorry, I’m really bad, I’m really bad, please help me, please help me. I need God, I need God, I need God.” I look at him and I’m like, I said, “I’m a Christian minister.” And he’s like, “I didn’t know that.” It was just the atmosphere, I guess, because I didn’t have any Christian music on. I wasn’t speaking in tongues. I was just sitting there, you know. And all; I could think is that it was just, it was the presence of Jesus, the Holy Spirit just coming, emulating from me that he just got into the atmosphere and he starts confessing his sin. So I said, “Do you really want to know God?” He says, “Yes, I really want to know God. I’ve been wanting to for so long. Can you help me with that?” And I said yes. So I just told him about Jesus and we grabbed hands, and he’s given his life to Jesus. He’s crying. He’s saying, “Lord, please forgive me for my sin.” Twenty minutes later, we’re still there. My daughter is knocking on the window because she had seen that I was still there, and she says, “Mommy, are you okay?” And I was like, “Yeah, yeah. He’s just giving his life to Jesus.” She says, “Oh that’s fine.” And she goes back into work.

**SID:** Now it sounds like you don't have, she doesn't have ordinary days. I know her secret. I want you to find out her secret. Why? So you're not going to have ordinary days. You, just as a young girl, you started a very special relationship with Holy Spirit. Tell me what your relationship with Holy Spirit is now.

**ALISS:** Well we're very close, really close. You know, the Holy Spirit is a person. He's God and but he's also my best friend and he talks to me, and we have fun together.

**SID:** Now when he talks to you, is it inner thoughts or is it an audible voice?

**ALISS:** Oh all sorts of ways.

**SID:** Really?

**ALISS:** And he's, it's like it changes. There's so much to God. He's so many facets to God, and sometimes he will show me things. Like first thing in the morning as soon as I wake up, I just talk to him and he's like he's waiting for me, and even while I'm sleeping.

**SID:** Are you excited to talk to him first thing in the morning?

**ALISS:** Oh yeah, I love him. It's like being in love. It just feels like being in love.

**SID:** Is he as much in love with you as you are with him?

**ALISS:** Yes. Yes. And he just tells me that he loves me and I say, well I love you, too. And sometimes I really feel his presence, you know, especially when I'm talking to him and I'm like, "O Holy Spirit, I love you so much." And I really feel like the manifest presence of Jesus just coming in the room wherever I am. It doesn't matter where I am.

**SID:** Okay. How can I know him? How can my friends watching now know him like you do?

**ALISS:** Well spend time with him and really cultivate the relationship. Like with any relationship you got to cultivate it. And so I talk to him all the time, like wherever I am I'm just chatting to him or I'm singing, or he's singing to me, but also being obedient. If he says to you like, not to do something or not to say something, instantly, try and be obedient and not to do that or if he says do this and do that. And I just find that it just cultivates that relationship and he loves that.

**SID:** Something that you talk about, the average person is very, almost afraid of. You talk about, you had a dream about demons. I mean, people, polite people don't even believe in them let alone talk about them. What happened in your dream?

**ALISS:** Well this was a while ago. And I was having a few dreams actually and it seemed to be recurring dreams where I would be dreaming, like these scary looking monsters would be chasing me and it would be in houses and there would be lots of stairs, and I was trying to run away from these scary looking creatures and trying to escape out the windows or whatever. And

after a while having these dreams, I thought, I think that's kind of a spiritual thing going on. So next time I said, "Lord, can you help me in my dreams." So the next dream I had, in my dream, instead of running away, I was actually, I stood my ground. And then the dream after that I was facing these demonic looking creatures, and then the next dream I'm actually chasing them and I've got this big sword, and I'm coming at them, and I'm chasing them through these dark places, and they're screaming. And then I'm lopping their heads off and everything.

**SID:** They're very afraid of you.

**ALISS:** Yes. Well it's Jesus they're afraid of actually, but yes, he's in me.

**SID:** Okay. So how does this play out in your life?

**ALISS:** Well just what I realized from the dreams was the Lord was teaching me that in everyday life that we have authority over the demonic. Jesus says he gives us all authority.

**SID:** You say get used to casting out demons.

**ALISS:** Yes.

**SID:** What do you mean by that?

**ALISS:** It's just part of everyday life, like you don't have to go into a special place to help somebody get free. But yeah, demons, they often will sort of pop out of people just when you go near them because of the presence of Jesus that you carry when you follow Jesus.

**SID:** Okay. Well your gifts, it seems as though they're, you're not static. They keep growing and growing. You even have been able to predict exact dates that something happens. I'll have her share that when we come back.

*We now return to **It's Supernatural**.*

**SID:** Now I'm excited about your book because people will know longer have normal days. They're going to be supernatural days. You tell me you're so excited when you wake up in the morning and you get to talk to your friend the Holy Spirit.

**ALISS:** Yes.

**SID:** But this is happening to people all over the world. Tell me about a woman who started reading your book.

**ALISS:** Yes. This is a woman, she did not know anything about Jesus. She had been in bed virtually the whole time for ten years, apparently, and she was suffering from a condition called MA, which is like chronic fatigue, in pain, lots of tiredness. And a friend of hers gave her my book, “The Normal Supernatural Christian Life” and she goes to bed that night. She starts to read it. It has a lot of different chapters, a lot of different things, the Holy Spirit, healing. She gets to the chapter on demons and as she’s reading the chapter on demons, some demons begin to manifest. Something starts to happen and she’s like, she’s thinking, I’ve got to keep reading to find out what to do about these demons. Anyway, they start manifesting and she reads what to do. So she says, you know, “In Jesus name.” She didn’t even know Jesus at that point. But she says, “In Jesus’ name leave me now.” She read what to do. And as she said that, in the middle of the night these demons left her and she realized she was completely well, so she—

**SID:** Ten years in bed? Wow.

**ALISS:** Yes. So then she actually, she gets up that morning. She hardly slept because she had been reading my book all night. She then comes into our shop the next morning, I just happen to be in there, and she starts telling what had just happened. And she said, “For these ten years I’ve hardly been into the city center because I [can’t] get there.” It was only two miles away from where she lived. But she said, she told me what had just happened to her, “I want to give my life to Jesus. What do I need to do?” So I just told her about Jesus and she gave her life to Jesus. Amazing.

**SID:** You don’t believe in normal things, do you?

**ALISS:** No. That would be boring.

**SID:** Okay. But guess what? You don’t stay constant when you know God. You go from Glory, that’s being in the presence of God, to Glory, being in more presence of God, to Glory, being even in more presence of God. You even are starting to tell people exact dates that prophetic things are going to happen. Give me an example.

**ALISS:** Yes. It’s powerful. When you prophesy to somebody often you can give a date or a length of time and it will happen as you speak it out. I met this lady who I had never seen before and I really felt like the Lord wanted me to speak to her and prophesy to her. Now what happens very often with me is I don’t know what I’m going to say until actually I open my mouth. And even I just felt like I needed to prophesy.

**SID:** And you know what? There are a lot of people like that that are watching us, but you’re not opening your mouth.

**ALISS:** I know.

**SID:** And that’s why the prophetic isn’t coming out. There is a faith dimension, but go ahead.

**ALISS:** Yes. It's really scary. I'm scared every time, but I just think, well, I'm going to give it a go. So I went up to her and I said, "Excuse me," I said, "I've got a message for you from God. Do you want to hear it?" That's what I said. I don't always say that, but I said it to her that day. Now at that point I still didn't have a message. So she says to me, "Yeah, okay. Tell me what it is." She knew nothing about God, but as I start to open my mouth it comes out, and I said, "You've been going through a terrible time for about two years. You can't even sleep at night. You're in such a bad way. You've got all this anxiety. You don't know what's going to happen." But I said, "You've been crying out and you said, God, if you're real I need a miracle." And so I said to her, "I've come to tell you that God is real. He's heard your cries and you're going to have a miracle." I said, "But what he wants you to know is when you give your life to him completely within two weeks everything is going to turn around for you." Now as I'm saying this, she's crying. So I said, she says, "Everything you said is true. I'm on tranquilizers. I'm about to lose my home. The whole family is against me." She was going through such a terrible time. She really had been crying out to God. So anyhow, I tell her about Jesus. She gives her life to Jesus and within two weeks everything completely transformed just like I prophesied to her and it was just incredible what God did in her life.

**SID:** God has given you another paradigm for revival. You used to pray, pray, pray, God send revival, God, send revival. God, are you there? Send revival. But God has shown you it's a little different. Explain.

**ALISS:** Yes. After praying, and it's not wrong to pray for revival, but I realized that actually Jesus has already been and just for me to start revival everywhere I go, because he lives on the inside of me. I've got the whole of the Kingdom of Heaven on the inside of me. So I can start revival everywhere I go. That's what I realized. And as soon as I came to that realization then revival did begin to happen, and it's not just in a shop or in a café, but literally everywhere I go.

**SID:** That's wonderful that you can do it. But can everyone watching us now do this?

**ALISS:** Yes, definitely. And that is why I love to tell people that this is for everyone. If I can live like this then so can you because this really is for everybody everywhere. Jesus died for everybody and you can have the Kingdom of Heaven on the inside of you. You can have the Holy Spirit on the inside of you and release it. It's just stepping out on faith and boldness, and courage. And can I release that to your audience?

**SID:** Please. That was the next thing I was going to say. You must be prophetic.

**ALISS:** I just felt the Holy Spirit tell me that people watching this show are going to be activated right now. So I want to release that supernatural faith. That's one thing the Lord Jesus wants you to do is to release supernatural faith and to activate people in the miraculous in healings and in the whole supernatural realm of Heaven. So I release that for you now and I want to give you some homework if that's okay, that I would ask you to step out in faith. In fact right now, I ask the Holy Spirit that you would come into that person's room, for all of those watching that something is going to happen tangible right now wherever you are, whether it's a healing. I release that now for you, healing in Jesus' name or whether some kind of manifestation of the Holy Spirit that you really sense the presence of Jesus right now and that he's going to tell you

something, and then you need to step out in faith and go activate the whole miraculous realm in your life that you would do it today, let's say by the end of tomorrow, in the name of Jesus.

**SID:** And if Jesus is not yet your Lord, what are you waiting for? Tell him you're sorry for every wrong thing you've done. Believe the blood of Jesus washes you clean and now ask Jesus to live inside and say with your mouth, Jesus, you are my Lord. I'm listening.

**SID:** Next week on ***It's Supernatural***. My guest had a dream about a close family member and she has a passion for you not to dismiss your dreams as pizza dreams, but start understanding that they're messages from God and she has a supernatural gift to equip you to understand the language of dreams. Anyone interested?
