

**SID:** He should have been a vegetable or dead. In fact, my guest's heart stopped. Medical records say he had cardiac arrest for one hour and 45 minutes. He died and went to Heaven. Today, he's called The Miracle Man, having been supernaturally healed of 29 conditions.

*Can ancient secrets of the supernatural be rediscovered? Do angels exist? Is there life after death? Are healing miracles real? Can you get supernatural help from another dimension? Has the future been written in advance? **Sid Roth has spent 30 years researching the strange world of the supernatural. Join Sid on this edition of It's Supernatural.***

**SID:** Hello. **Sid Roth here.** Welcome to my world where it's naturally supernatural. But this, it's ridiculous. **Dean and Marilyn Braxton**, Dean, you are saying that your heart stopped beating for one hour and 45 minutes, and you're talking to me like a sane man right now.

**DEAN:** Yes I am. Yes I am.

**SID:** Okay. Let's kind of take you back a bit. May 4, 2006, you're minding your own business. What type of work do you do?

**DEAN:** Well at that time I was what they call a supervisor for the Juvenile Justice Department up there near Seattle, King County, and I supervised two specialty courts. One was called drug court and one was called treatment court, and I worked in the juvenile justice system. So that's what I was doing at the time.

**SID:** Okay. What happened to you that day?

**DEAN:** Well that day I woke up early in the morning and I had a pain on my right side. I already knew it was kidney stones because I had them in the past, about four years earlier, and I went on to work anyway because I figured when I get to work I could work through it. It would pass. I've had that happen before. But going to work I found out this time it was not getting any better. It seemed to get really worse. I decided to let the people know at work that I needed to go home. I figured I would go ahead and pass them at home when I got home. But it seemed to get worse. I finally decided to go to the emergency room or the local hospital. Went there, told the people there that I believe kidney stones. That day, for some reason, can't tell you why, there was no one else in that emergency room. I looked at that as a miracle in itself. They rushed me back in the back room, gave me some medication and then called my wife.

**SID:** Now Marilyn, you've been in the health field. You're a health professional for some 34 years.

**MARILYN:** Correct.

**SID:** So you understand what's happening. You get out to the hospital and they make a decision to, what did they do, blast the kidney stones.

**MARILYN:** Yes. They take a machine and just blast those kidney stones, break them up so he can pass them.

**SID:** So he has the procedure. They're blasted. But then you find out he has an infection. What does that mean?

**MARILYN:** That means that along with the kidney stones that infection is really bad and it's built up around the kidney stones too, and thereby he had to be on several different antibiotics and things.

**SID:** Did you realize how serious this was, that it was life threatening?

**MARILYN:** I didn't know how serious it was, not at all, because he ended up with the procedure being done and spent 13 days in the hospital, and nine of those days was in the intensive care unit.

**SID:** Tell me about the time that you walked out and the doctor, the surgeon calls you on the cell phone. What did he say?

**MARILYN:** Well I walked out and I then decided I was gonna go home and bring some things and stay overnight with him. And when I was no longer more than two blocks down the street in my car, the doctor calls me on the phone and he says, "Marilyn, your husband's heart stopped and right now as we speak they're doing CPR on him, cardio pulmonary resuscitation.

**SID:** I'm gonna take you back to that moment.

**MARILYN:** Yes.

**SID:** He hangs up. What do you do? Now you know how serious it is.

**MARILYN:** Yes. Now I know how serious it is. And you know what, Sid? I believe it just was an act of God and I just had faith. I continued to go home. I didn't turn the car around and go back home. But I called my son and daughter, both of them were away in college, and I called up friends and just started asking everyone to pray. Just pray. And when I got to my house a young lady came over and picked me up, a real good friend of ours, and we got back to the hospital. I wasn't able to see Dean for a long while because they were still working on him.

**SID:** Now when he came back, by the way, you know what all of this is right here.

**MARILYN:** Oh yes. Those are medical records and transcripts.

**SID:** How many conditions did he have when he came back to life? Something like 29, it says on my notes.

**MARILYN:** Twenty-nine, yes.

**SID:** And here is the medical verification of this. What I want to know is what happened to you when you died? We all want to know that. What happened?

**DEAN:** Well Sid, because you know I accepted Jesus Christ the Messiah into my life, I'm born again I went to be where the Father and Jesus is.

**SID:** No, no, no. You're there, dead, dead. They're trying to get you back to life. What is your first memory?

**DEAN:** My first memory is moving as fast as I can to be where Jesus and the Father is. People ask me sometimes how fast that is, and I always bring them back to what the Bible says. "To be out of the body is to be in the presence of the Father" or be in the presence of Christ. I was moving so fast that before you could blink I was there. That's how fast. That's my first memory. Also what was passing me by as I was moving was the prayers that people were praying for me and others. I say this, if you were praying that day your prayers passed me by at that moment.

**SID:** Just out of curiosity, do you have a greater appreciation for prayer having seen, could you picture looking at people's prayers just zoom, going right up like that?

**DEAN:** Oh yes. And you got to remember how fast I was moving.

**SID:** That's pretty fast.

**DEAN:** As you were just blinking right there I was in the presence of the Lord and yet the prayers that people were praying for me and others, and I always put that in there because I want people to know that it was just not prayers that were for me, but I saw prayers that were coming from this planet from other people pass me by like I was standing still.

**SID:** Just out of curiosity, obviously your wife and your family were praying for you, did you know it at the time? Did you see it at the time?

**DEAN:** Well I knew they were praying for me because those prayers that were going by me, I literally knew what those prayers were. You know, I literally knew what they were praying. You know, my wife was praying that I would not only be healed, but that I would come back and be alive, that I wouldn't die. That was her prayers. You know, that was my children's prayers. That was the prayers of the family members, you know. But there were also prayers that were going pass me for people that were praying for their loved ones and they were praying that their loved ones, the same thing, that healing take place or a situation would change. But the prayers that really got me that were going by me was the ones that were praying for the loved ones to come to know Jesus as the Messiah, as the Lord and Savior.

**SID:** You know, one of the things that his book did for me is I understand how things operate from Heaven to Earth and what God expects us to be doing here so much better as a result of reading the book. Don't go away. We're gonna find out some amazing experiences. For instance, he was shocked who was not in Heaven and who was in Heaven. Don't go away. We'll be right back.

*We'll be right back to It's Supernatural.*

\*\*\*

*We now return to It's Supernatural.*

**SID:** Hello. **Sid Roth here with Dean Braxton.** And Dean, you're dead, dead, dead for an hour and 45 minutes. You instantly leave your body because you know the Lord and you find yourself in Heaven. Who was the first person you saw in Heaven?

**DEAN:** Well when I first got there I was at the feet of Jesus and I can remember looking at him and saying these things to him, Sid, I said, "You did this for me?" And then all I could say was, "Thank you, thank you, thank you, thank you, thank you." And at that moment I came to really understand that the only reason I was there is what because of what Jesus Christ had done. It wasn't because of what I had done, but what he had done. And then I came to realize even the works I did in life, even the works I'm doing right now is him working through me. So I couldn't even take credit for those things. And all I could say is, "Thank you, thank you, thank you, thank you." I tell people everything about me. My body wasn't there. It was my soul and my spirit. That's what was there. Everything about me was praising him. And I tell people if I didn't open up my mouth and praise him everything else would have kept on praising him. I could not stop thanking him.

**SID:** What did his eyes look like?

**DEAN:** Oh his eyes, you know, they're just like what we read in the Bible, the fiery red and different colors. But what got me about his eyes is I literally saw the love for me, like I was the only creation of his that he loved, knowing that he loved everyone else, knowing that he loves you and everyone else on this planet. But I came to understand that in his eyes when he looks at me he loves me like I'm the only creation that he loves. People got to really understand that. Sometimes we don't understand the deepness of his love for us.

**SID:** It's a different type of love.

**DEAN:** It's a different type, yes, yes. It was created just for me. The love for you is created just for you. So I can't take his love away that he has for you away from you and you can't take his love he has for me away from me. His love that he has for you, understand this, Sid, is created literally for you.

**SID:** Tell me about when you would just look at a part of his body, like his feet.

**DEAN:** Oh when I looked at his feet, when I'm talking about this love that's created just for me, if I didn't see another part of him and his feet, just like it said in Revelation. If you read it, it talks about his feet looking like brass, it's really the glow off of it that looks like brass. You got the nail prints still there. But that's what didn't get me about his feet. What got me about his feet is that his feet loved me. And what I mean by that, if I didn't look at any other part of him, if I didn't see any other thing but his feet I would experience the fullness of his love for me through his feet. Same thing happened with his hands. Same thing happened with his entire body. Any part of his body I looked at, his hair, the crown on his head, everything that I looked at literally

screamed out how much he loved me like I was the only thing in all creation he loved, knowing that love is there for everyone else, but that creative love that he had created just for me was coming through him in such a way. It seemed like I was literally turning into that love as he was looking at me. Someone asked me one time, they said, “Did you need any food?” No. As I was receiving that love I was being fulfilled in every manner you could imagine, even in the sense of saying, no, I wasn’t hungry. I didn’t need anything. That would satisfy me much more than I could ever explain to you.

**SID:** Now you saw some loved ones that had died and gone to Heaven.

**DEAN:** Yes.

**SID:** Who was the first loved one you saw?

**DEAN:** The first one I saw was my Grandmother Mary and I have to tell you, before this happened to me I didn’t think that that would be that important to the Lord that you would really see your family members there. But when I got there Jesus was standing to the left of me about 10 or 11 o’clock to the left of me, and pass him to the other side was my Grandmother Mary. Not only my Grandmother Mary was there, but other family members that had accepted Jesus Christ the Messiah as Lord and Savior, they were there. And it was something. It wasn’t just a one-side view, but generation after generation, after generation, after generation of those that had accepted Jesus Christ and the Lord and Savior that helped to make this man who I am on this planet right now, they were there to great me in Heaven. I mean, I tell people you will have the biggest family reunion you would ever think of.

**SID:** Now what did you grandmother say to you?

**DEAN:** My grandmother said something to me. She said really two things to me. One thing she wanted me to know and Jesus said the same thing, that this was not my home and that I’m just passing through. That’s what one of the things that Jesus Christ really wants me to get across to people as I talk to them. You’re just passing through this. You are not staying on this planet. The other thing Grandma said to me, which really impacted me really greatly, when Jesus was telling me leave, she said to me, she said, “Bring as many of us back with you as you can.” And I came back with the understanding of how important family is to God. And it seems like you should have known that beforehand. But see, I had accepted Jesus Christ as Lord and Savior. I was the first one in my family. The rest of my family, my immediate family of three brothers and a dad, and a mother, they didn’t come to know Jesus Christ when I came to know Jesus Christ. Ten years later, my mom accepted Jesus Christ. And so it was only me and her that were what we would call Christians at the time. The rest don’t know. And here I am. I had separated myself, not only in the sense of spiritually or physically, but I also moved up to Seattle and they all lived in California, and I had very little to do with them. And here’s my grandmother saying to me, “Bring as many of us back with you as you can.” And I have a renewed understanding of going back and making sure my family members know about Jesus Christ.

**SID:** How important is family to God?

**DEAN:** Oh it's very important, even to the point that we don't look at it that way sometimes. But that's why the devil is attacking the family and tearing up the family. I think if you look at even the Jewish families, and I'm gonna bring this in here because I think it relates so closely to Jewish families, and how keeping that bloodline, as the Jewish people try to keep that bloodline here, because they understood how important family was to God. We sometimes have gotten away from that. Still, God is saying the same thing to everyone that comes to know him as Lord and Savior, "Your family is important to me and so much, that I literally want you to go back to your family and make sure they know who I am." I really believe that each and every one of us that are born again, that if we go back just to our family and reach out to them we'll be ministering and evangelizing more people than we'll ever come to understand.

**SID:** Have you reached more of your family since you've been back?

**DEAN:** Oh yes I have. I have reached out to my brothers. My dad came to know Jesus Christ about a year and half ago. You know, he's 78 years old now, and so, good father. But he made that commitment. He says he's a believer now. Do you know how much joy that brings me?

**SID:** But how much joy does it bring the Lord?

**DEAN:** How much joy does it bring the Lord? I was there when people got born again. I was there when people asked Jesus Christ the Messiah to be their Lord.

**SID:** What happens in Heaven when you see someone born again on earth?

**DEAN:** When I was there what happened was literally their name is shouted from one end of Heaven to the other.

**SID:** Oh, I didn't ask you the most important question. The shock he had of who wasn't in Heaven and the shock he had of who was there. We'll be right back after this word.

*We'll be right back to It's Supernatural.*

\*\*\*

*We now return to It's Supernatural.*

**SID:** Hello. **Sid Roth here with Dean Braxton.** And this is so fascinating. You see, Dean died. His heart literally stopped for one hour and 45 minutes, and he went to Heaven. And one of the things you said is you were shocked on who was there and who wasn't there.

**DEAN:** Yes.

**SID:** You had your own opinion, but God had a different one.

**DEAN:** God had a different opinion. You know, because when I got there I looked and I saw many people that I thought would not make it there. And then I looked around and I said but

there's people that I thought would make it here that is not here. And I came to understand a lot of those people that were not there that I thought were there were people that, we would call them pastors, leaders in churches, are in ministries. But they weren't there. And you know, when I came back I really pondered on that. Why Lord weren't these men or these women there that you would think that would be there? And here are people that I would have thought, no they didn't make it into Heaven, and yet they were there. I came to understand because of what happened to me with one of my own family members. My Aunt Barbara, she was there. Aunt Barbara was a lady that I would have told you even to this day if I didn't have this experience in my life, she didn't make it there. She did not go there. She went to Hell. That's what I would have told you because of the lifestyle that she lived that I saw in front of me. And the last two years of her life I was not around her, and so I didn't see the last two years of her life. So I was basing it on everything up to that point.

**SID:** But you said you were looking for men of God, pastors that weren't there. Why wouldn't a pastor that's preaching the Gospel, why wouldn't he be there?

**DEAN:** It's the same thing I was gonna say about Aunt Barbara, just to let you know, Sid. It's a heart thing. It really is a heart thing. God knew my Aunt Barbara's heart. She must have accepted Jesus Christ as Lord and Savior or the Messiah as Lord and Savior, because that's the only way you got in, is by knowing him. These men or these women of God that we would think that know Jesus Christ, he knows their hearts. They are not fooling him. He knows exactly what they're thinking. He knows why they're doing it. He knows the modus behind it. See, everything in Heaven, modus is to get people to know Jesus Christ as Lord and Savior on this planet. Remember I told you earlier there was even this strategy piece.

**SID:** I know. I'm fascinated by that. Tell me. In other words, he literally saw Jesus strategizing on how to win souls. Describe one thing you saw about the strategy.

**DEAN:** Well you got to understand that the strategy or the prompting of the strategy comes from us praying on this planet. We don't understand that sometimes, that even Jesus Christ said that we're to pray that more laborers go into the field. Well we sometimes pass that by. But when he said that, that's a reality because God is gonna move off of our prayers that are from the heart. And literally, these prayers would go to the Father. He would communicate to Jesus. Jesus had around him a number of what I call beings, being everything that God had created. Some of them have been redeemed, some we would call angels. But they were there and he would communicate with them about plans that he had on how to get someone on this planet moved in a direction to accept him as Lord and Savior. I could remember him looking at them, and when he would look at them, they literally would bow before him, not take their eyes off him, and back out and go and do their assignment. Now I came to understand he wasn't looking at them so much as what the strategy should be, because they were obeying him. They were not back-talking or coming up with a different plan. What he was looking at is this planet. He was seeing down here who would fulfill their piece of the part of the strategy on this planet. The closest I could come to in the example would be like Saul, when he was talking to Saul and he told Saul to go wait and then Ananias, he told Ananias to go and talk to Saul. Remember Ananias when he first talked to him said, "Wait a minute. Do you know who this is?" Many people on this planet when the Lord is telling them to do something they balk at it or they reject it. And he said,

“Okay, I can’t count on them. I got to find somebody else.” And he goes and tries to find someone else. That’s what the strategy is all about.

**SID:** Do you know what that reminds me, Kathryn Kuhlman, she shared the story. She had the greatest miracle ministry of her generation. She shares the story that God selected many men for that miracle ministry and they all turned God down. Now I’m sure He didn’t say, “I want to give you a miracle ministry” and the man didn’t say, “Well I don’t want it.” But just step by step, because God leads you. All these men turned God down. So Kathryn said, “I was the bottom of the barrel, but I said yes.”

**DEAN:** Yes.

**SID:** Tell me something you saw about strategy, where they were strategizing for a particular part of the world.

**DEAN:** Well you know, one of the places I saw when I was there, you could see where the prayers were coming from. You could literally see prayers coming from this planet into Heaven, and literally I could say this area has got this much of a percentage of prayers, maybe one in ten. You had anywhere from maybe a one to a ten coming from this planet. Where one of the areas I saw a lot of prayers coming from was what we call the Far East, you know, around the Asian countries.

**SID:** Is that where so many Muslims are having dreams and visions of Jesus?

**DEAN:** Oh yes.

**SID:** That’s all part of the strategy?

**DEAN:** Yes. That’s all part of the strategy. He is reaching out to that part because of the prayers coming from that area. And the sense that I saw him look at these beings, and part of these beings were Peter and James. He looked at their group and there literally several of those angels, we would call, left their group to head down to that part of our planet.

**SID:** Tell me about worship.

**DEAN:** Oh worship. You know, there’s so much. Everything there worshipped the Lord. I came to understand what true worship is, and that is doing the will of the Father. Any time you’re doing the will of the Father you’re worshipping Him. When I was there, there was a time that I saw before what I call pray before the throne of God, and every creation of God literally was sending up prayers or praise to the Father in such a way they were individual. It wasn’t like a group of praise. It would be like you’re praising the Lord individually, I’m praising the Lord individually, and it did not clash.

**SID:** What is the biggest impact that happened to you as a result of going to Heaven?

**DEAN:** The biggest impact was seeing the love that the Father has for us. When during that praise time I literally saw Him singing back to every creation. I even sing now when we're praising Him and giving Him glory that he's literally singing back to us. That's what I believe that when we say "The glory of God is here", I really believe it's Him singing to us. That's what we're experiencing. That changed me because I came to understand how much the Father really loves us. You know how the Bible says, "For God so loved the world He gave His only begotten son." Yes. That's reality. He loves us that much.

**SID:** Okay. I have all these pages here of conditions you were healed of. Your wife tells me that the hospital calls you The Miracle Man. You were healed of 29 different conditions. When you came back who was the first person that saw you and what was their reaction, quickly?

**DEAN:** Well the first person that saw me was a friend of mine. He had been working at the hospital. As a matter of fact, he worked on the breathing machines, and he was one of those that helped taking a tube out my mouth. His name was Anthony Jordan. I looked at him and I said, "You know. You know I have seen Jesus. You don't have to hope I've seen Jesus. You don't have to wish I've seen Jesus. You know I've seen Jesus." And he's a big man, and tears were just coming down from his face. I said, "You go tell your church", because he had been a pastor of a church, also. I said, "You go tell your wife, Monique. You go tell. We don't have to hope. There is a Jesus."

**SID:** Love your family. Love God. You can't love God if sin is separating you from God. The only way you can remove sin is to believe that Jesus died in your place because he loved you for your sin. This is God's moment, God's moment for you to get right with God. Make Jesus your Lord. Tell him you're sorry for your sins. Ask him to live inside of you now.
