SID: My guest not only teaches on the glory, but shows you how to walk in God's glory 24/7. This will activate every one of God's promises in your life.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. And if you detect an excitement in my voice, you're right. This is a historic show. Why is it historic? Not only are we in our new studio, but we have our old television equipment for the very first time and we have a studio audience. You know, it's been my heart's desire that this be such interactive television that in your home, in the studio audience miracles are going to erupt like popcorn. That is natural. I don't like the artificial form of Christianity. I like the good old fashioned form, signs, wonders demonstrate the Kingdom is real and early opportunity to present the king. It's so simple you need help to get confused. Well my guest, well you can laugh at that. That's a good line. My guest does exactly what the Bible says. Here's what the Bible says, Romans 11:11, "Salvation has come to the gentile to provoke the Jew to jealousy." Well Apostol Maldonado, you provoke me to jealousy? And why do you provoke me to jealousy? For starters, God shows up one day and speaks to him in an audible voice, and God told him to teach his people the supernatural. And then if that wasn't enough, he gets on fire. This generation has never heard of the fire of God. Tell me the time the fire of God hit.

GUILLERMO: I just came back from Spain, and before I came out into the stage, I hear the Holy Spirit say to me, "There's three waves that my presence that will come into the service." So he said, "The first wave will be creating miracles, the second wave will be deliverance and the third wave will be fire." So I understand when we get the definition of the Glory of God is God, the manifested presence of God or one aspect of the presence of God. And the moment the fire felt you see hundreds of people being touched, delivered, especially the young people, you see them cry out, saying, "I repent of my sin. I will seek your face." I mean, you're talking about Spain.

SID: How many young people would you say?

GUILLERMO: You're talking about 800 young people.

SID: Did you hear that, 800. And did you also hear, I mean, you think it's tough in the United States. Try going to Spain. This is Spain. In other words, I don't believe it's because you're so persuasive. I believe they had an encounter with the fire of God.

GUILLERMO: Yeah, because, Sid, I think we live in a generation that they don't see the need for the presence, for the supernatural. For example, we have options in America, in the western countries. We got many options and when we go to God it will be third option that we have, unfortunately. But when you go to Africa, I went to Africa and I was praying there, and the Lord

said, "My presence will come to heal cancer." There were so many people with cancer. This lady came three hours from the place that I was ministering and God instantly healed her. She came in a wheelchair. But the point is she said, "I didn't have any other option to come here." So in America we have so many crutches.

SID: You know what I love about what God has anointed you to do? He's anointed you to teach the supernatural. He sees so many people praying for other people that He's equipped that have the most amazing miracles. For instance, let's go to a roll-in, but where not you, but someone you mentored. In fact, his whole congregation does what he does. Someone he mentored that had scoliosis from birth. Let's go.

[begin video]

GUILLERMO: Pastor Christina came to get healing for parts of her stomach. She fell on the ground. She felt a fire got on her stomach. The mentor that prayed for her told her, "Put your legs together. God is doing something in your legs." When she put her legs together, her left foot stretched. What the mentor didn't know is that all her life she had scoliosis. She couldn't walk straight. She couldn't bend over. God stretched her leg and gave her that miracle. Tell me what happened.

PASTOR CHRISTINA: I felt it stretching. I came over because on Friday I was in the ER all day, because I was having pain. Then she was praying for that and I felt fire. Then out of nowhere she goes, "Christina, stretch out your legs, stretch out your legs." And when I went like this it was like this, because I wobbled, because my hip was higher than the other, because it was scoliosis. I feel my knee just like stretch, and it was the same length. I saw it moving.

[end video]

SID: I absolutely love the miraculous. What would happen if Apostol Maldonado spoke a word and the Glory, the manifest presence of God is so thick in the atmosphere you could put your hand into it. Let's take a look right now of someone that had spent 25 years blind in an eye. The Word came forth, "Someone blind is getting their vision back," and after 25 years. Let's take a look at what happened.

[begin video]

GUILLERMO: What's wrong with your eyes?

WOMAN: Well I was diagnosed with posterior vitreous detachment. My eye detached from the back of my eye and I would see a permanent floater. When you called us up to come, as soon as I come up, I could see clearly before you started praying.

[music] [applause, cheers]

GUILLERMO: Oh my God!

SID: Are you ready to be stretched? I mean, are you tired of being stuck? Are you tired of going through the motions, same ole, same ole, predictable? Are you ready for an encounter with the Living God? My guest, Apostol Guillermo Maldonado, has been supernaturally equipped to teach you to do every single thing you read in the Bible it's yours. Tell me about in Mexico there was a pastor that you mentored. He started a large congregation with all sorts of miracles and then there was a young man that the one you mentored who was kidnapped. Tell me about him.

GUILLERMO: Actually, this pastor is an architect. He came to me when he had 300, and now seven years later, there's over 11,000 people.

SID: Did you get that, 11,000. Now by the way, I think that's normal.

GUILLERMO: Yeah, that's normal. And people think how many concerts he did, how many entered. What's the entertainment he had? It's the power of God in him: miracles, signs and wonders.

SID: You mean there wasn't choreographed music and dancing, and a big set behind him?

GUILLERMO: It was the power of God. See, there's so many replacements in the church, Sid, and I think entertainment has replaced the power. We want to be entertained. We don't want the power, because power exposes the people, the heart of the people. So this pastor came to me. I trained him, I equipped him. And then he equipped more mentors and leaders. So one of his disciples, Crisencio, he was kidnapped and these people took him into bar and they said, "We're gonna kill you. You pay the bills and after you pay the bills we're gonna kill you." So he just prayed and then he said what my pastor had taught me. So he went to pray into the bathroom. And as he praised the Lord, "Please deliver me." He was shaking, and the moment he was praying, he appeared in the street walking.

SID: This was in his mind. He wasn't really there.

GUILLERMO: Not in his mind, physically. He was translated from the bathroom to the street.

SID: Wait, that only happens in the Bible.

GUILLERMO: In the Book of Acts.

SID: I know. But you're telling me that happens now?

GUILLERMO: It's happening now.

SID: I think it's only beginning.

GUILLERMO: It's documented.

SID: Okay. So he finds himself in the street.

GUILLERMO: He ran into his house and he was celebrating.

SID: I would celebrate, too. I mean, he's about ready to be murdered. He went in the bathroom, he prays and he ends up in the street. What did the kidnappers say?

GUILLERMO: They disappeared. I mean, his spirit went home. The thing is, this is what happened with him. Now he went back, started praying for people. Miracles, death, blind people started, because of the miracle, there was such an impact in him, seeing himself in the street after he was praying, because I know the Lord spared his life.

SID: Tell me a few days later he prayed for a relative and what happened?

GUILLERMO: There are so many miracles. He prayed for a relative that was a wheelchair. I mean, there's so many miracles that that young person did, and it was crazy.

SID: Okay. Give us a couple of keys for walking in God's glory. In fact, let's start out, what is God's glory?

GUILLERMO: God's glory is the manifested presence of God. If you put the real very small, I mean, the essence of God's glory is the manifested presence of God.

SID: Give me an example from the Old Testament.

GUILLERMO: The Old Testament, the Hebrew word is the word "kabah" and the kabah has more than 25 meanings. So there are so many aspects. And one of the meanings is the word "wealth, riches". When you're talking about kabah you're talking about riches. However, you see in the Scripture also the word "shekhinah", which is kabah is the essence of who God is and all His might. You're talking about recognition, you're talking about power, you're talking about majesty, authority of who God is. Now when you go to the shekhinah is the visible manifested presence, when God comes from that invisible realm and comes to this physical manifestation. So that's what we can define the Glory of God. So God decides who or how He will manifest in certain places. And always people ask me, God is everywhere. Yes, God is everywhere, but He does not manifest everywhere, because for God to manifest in one place or in a person, because He manifests in a person, He needs two things: to be worshipped in spirit and in truth, and He needs to be revealed. When God is not revealed He will not manifest.

SID: Help me. I'm not sure I understand what you mean, He's not revealed.

GUILLERMO: In other words, the Glory of God is not something that you just study. It has to be revealed.

SID: So revelation.

GUILLERMO: Revelation. The Holy Spirit has to give it to you by your spirit. You receive it and then you will understand it. You will know it. So when you come into the revelation of the Glory of God, it's not something that you study because many people study the Bible, but they're dead. I mean, they don't have the revelation. They need the spirit. This is what happens, Sid, when we got the presence without the Word, you will have people walking into air, and when you have the Word without the presence, you will have people dry and dead. So we need both. We need the Word and we need the presence. So sometimes we aren't satisfied with only one message. When we come to church we look into hear a message, but so many people want to see a message. How? How do you do it? Through revelation. You tell the people, reveal God. Where God is revealed, where God is worshipped in spirit and in truth He will manifest Himself. Every time, for example, I taught the church on God the provider. And if you have revelation you must have manifestation. That is the difference between having information and revelation.

SID: We have a generation of information, not revelation.

GUILLERMO: There you go. There are so many people talking deep, but there's no movement. What do you mean? When you have revelation, revelation stimulates, activates and produces movement. The Glory of God is not based on a personality. It's based on truth.

SID: Now you have had revelation with the fire of God, because God spoke to him and said he would be known when he speaks. People will actually experience the fire of God. He has revelation over certain diseases. He has revelation over cancer. Cancer disappears when the Glory shows up and the Word is spoken. He has revelation over heart problems of all kind. When he speaks in the Glory you come in from the parts room of Heaven and get ready to function properly. Don't go away we'll be right back.

SID: Hello. Sid Roth with Apostol Maldonado. And you know, I've been out to your congregation and I'll tell you who impresses me, the young kids. Your young kids are normal. I

wish all young kids would be normal. Tell me about, now I'm not from Miami, so tell me about that young person that went to the Dolphin Mall in Miami.

GUILLERMO: They usually do that every week. It's not just one event. This is what this generation needs to understand, Sid. That we need to cross the line from just having the supernatural, just like one event and do the transition into being normal, into be a way of life, lifestyle. So my young people, thousands and thousands of young people that we have at church, we send them up. So usually they go to the malls and one of these days they stayed there until two a.m. in the morning. They get a hold of a microphone of these worldly people singing and dancing in the mall, and then he said, "Can I use my microphone?" So one of my young people took the microphone and then he started giving words of knowledge.

SID: Words of knowledge are from God, and God says, someone with ex-condition is going to be, like right now, someone with a bad hip is being healed at this moment. That is a word of knowledge, not from me, but from the Spirit of God. So these young people are speaking words of knowledge. I've been in malls, I've done stuff like that and I've gotten kicked out. How did he stay until two in the morning? What was his secret?

GUILLERMO: They spoke to the manager and the manager got saved, and got healed. So they stayed there, people waited on line until two a.m. in the morning, and they prophesied and ministered to people, and most of all they understand that the supernatural has one goal, which is winning the people for Jesus.

SID: Now in the Glory anything you proclaim happens. But this is ridiculous. If you know about Miami, how many murders they have per square inch, based on that small population, you proclaimed in the Glory what would happen in Miami. What did you proclaim?

GUILLERMO: I proclaimed, we got a big event. We got 14,000 people in the American Alliance Arena. We got 8,000 pastors from 55 countries. So I proclaimed that not one single murder would be in that particular month, the month of October.

SID: Did you get that? For the entire month.

GUILLERMO: Now Sid, I was led by the Spirit to do it.

SID: I understand, but you realize that without God you're in big trouble.

GUILLERMO: Yeah. So I declared and we believed, and the month of November, the report came back and it was exactly what we proclaimed.

SID: By the way, I have the news article right here. One month, no murders in Miami. You tell me God is not a powerful God.

GUILLERMO: Now I think, Sid, there is something that people did not know, but most of the famous preachers, before, they didn't go to Miami because it was called the graveyard of pastors. So after we came, we had been there for 15. As you know, our church has grown 15,000 people.

But that was not the point. The point is that we broke the curse over the city. So there's many churches that got to certain numbers and something happened to the pastor. But now you see hundreds of churches now growing into thousands.

SID: Right now I believe that if you pray for people to have the fire of God and be healed, and be normal, you're going to be normal. Would you do that right now?

GUILLERMO: I will do it. If you're watching me now, first of you all, you need to understand why you need the fire. There are so many people saying, why do I need the fire? To shake? What's the purpose? The purpose for you to have the fire, first of all, we all need to have an encounter with God. You know, when we're talking about encounter, we're talking about, first of all, for your faith to be founded in the power. Number two, for you to be transformed and changed. And number three, I believe the most important is to be a carrier of the presence of God. It's not just receiving your miracles, but you can become a worshiper. You can become a carrier. You can become a prayer.

SID: It's time to pray.

GUILLERMO: Father, in the name of Jesus, right now I thank you. I give you praise and I give you honor. Those people that are watching, that are hungry and thirsty for your presence, thirsty for the fire, right now I release the fire. Wherever you are in your home now, if you feel sad, if you feel God will not fill you beyond your contentment, you have to desire, you have to want it. And now I release it in Jesus' name the fire of the Holy Spirit be ignited, be ignited with the presence and the fire of God in Jesus' name. Amen and amen.

SID: I had a revelation this morning, and I love, you were talking about the difference between information and revelation. I had a revelation this morning. I was reading in the Torah, in Deuteronomy, the 18th chapter, and it was talking about when Moses went to Mt. Sinai to get the 10 commandments, and the Jewish people saw the flames of fire and heard the shofar blast, they got afraid. And they said, "We don't want to hear God's voice," number one, and "we don't want the fire." They said that specifically. Romans 11:11 says, "Salvation is come to the gentile to provoke the Jew to jealousy." Well when a non-Jewish believer in Jesus is filled with the fire of God, hears the words of God, you will cause the Glory of the former reign and the Glory of the latter reign on the gentiles, the Jews, the gentiles will come together to form the greatest explosion of God's manifestation and presence. And right now, you need to make Jesus your Messiah and Lord. Don't wait another second.
