

SID: Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. Most of the prophetic people I know are saying we are coming into a season of breakthrough and I agree with them. But my guests have found there are blockages to breakthrough and they're so simple, but this generation doesn't understand them. He wants to teach them to you, so why? So you'll have a breakthrough.

Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. Join Sid for this edition *of It's Supernatural*.

SID: No, you're not seeing double. These are twin brothers, twin prophets, Hakeem and Naim Collins. And when you're young kids, your grandmother takes you to church and both of you saw the same thing. What did you guys see?

HAKEEM: We both saw an angel of the Lord standing behind our pastor. Now the pastor is a Baptist pastor, he's blind. Now the strange thing about this is that he's blind, but at a young age, God begins to open up our spiritual eyes and begin to see this angel behind him. Not only that, but God begins to also save us on the same day. We begin to give our life to Jesus on the same day. How ironic is that God will make us twins, but also on the same day, we have Jesus.

SID: You guys do everything together. A man that was a friend of mine that's now in Heaven, his name is Bob Jones, he was a senior prophet, and he taught you how to activate the gifts that you have. Was that very important at that time in your life?

HAKEEM: It was very important, one, because we were young.

SID: You're an old man now.

HAKEEM: Yes. Well we didn't have anyone to actually groom us in the prophetic. They didn't actually help us and tell us what this was, or what was a prophet.

SID: Sure.

HAKEEM: Again, our upbringing wasn't from a Christian family home. But we needed someone to really guide us, and so Bob Jones was instrumental in helping activating and bringing us to another level of how to hear Abba's voice and to engage the heavenly realm.

SID: Now Naim, your gift operates strange, different than your brother's.

NAIM: Yes.

SID: You have all of your spiritual senses activated. Give me an example what that means.

NAIM: Yes sir. Bob Jones was very instrumental, especially in activating the prophetic. Because I know most times people think prophets or prophecy and they always think thus saith the Lord, you're speaking through visions or dreams. But when he activated my brother and I in the prophetic, it was just in the seer realm. And most times we think seer realm is just visual. But he activated something. Something exploded in the both of us and one of the areas that God had activated through Bob Jones was the ability to smell in the spirit. And so one time I was in a meeting, Sid, and I was praying for people. I called them to the altar and was praying for people and all of a sudden, my sense of smell was activated. It was opened up to another level that I've never experienced before, and it was like Jesus was now walking me how to walk a person through deliverance. And so I come across this lady and I smelled this very foul, pungent smell. It was almost smelled, almost like rotten eggs or some sewage smell.

SID: I'm glad I don't have that gift.

NAIM: And so it was like having this conversation between my senses, my actual senses and saying, somebody might have died in here. But what the Holy Spirit was revealing to me was that there was something in her that was dying, that she was dying from a terminal illness. And then as I was praying to the Lord, he revealed that it was cancer. But this particular cancer wasn't just a regular cancer. It was a bloodline cancer. It was something in the bloodline. It was something generational. And so I had to pray for her, and as I was praying for her, I couldn't break it. I couldn't break through. I tried to prophesy, it didn't break through. So the Holy Spirit said, "There is something generational, there is something in her family that was a door that opened up for cancer to be in that entire generation." And so what she received was an inheritance of cancer, generational, that needed to be broken. And so at the moment I had to then ask her, "Listen, I need you to begin to stand in the gap for whoever opened up the door in your family for this cancer that wreaked havoc." And so the Lord began to reveal, it was her grandmother. And her grandmother went through some abuse and there was abuse, and there was some strife there from that abusive relationship. Then once she repented and stood in the gap for her grandmother and prayed for the abuse, prayed for the unforgiveness, prayed for the strife, all of a sudden that sense of smell of the rotten eggs or that sewer smell broke and literally that's when I began to smell the presence of the Lord.

SID: You know, I was kidding. I have to tell you, I was kidding with him a minute ago. I said I wish I didn't have that gift. But when I found out how it operated, God, strike that, I want that gift. Okay. And Hakeem, your gift operates different. You see words on top of people.

HAKEEM: Yes.

SID: I think that is an amazing gift. I'll tell you what, when we come back, you hit on it already, but there are blockages to the season of blessing that we're in, where all promises are going to come to pass. We want to get rid of those blockages. We'll be right back.

SID: And so Naim was telling me just during that break that he then got a further report on that woman with cancer. What did you find out?

NAIM: Yes. Later on, Sid, I got an email from the relative of the lady that I prayed for in the meeting. She said, "You didn't know actually that she was dealing with stage 4 cancer, and what you sensed by the Holy Spirit was on point." And she said, "I just wanted to let you know to confirm that when she went back to the doctor, the doctor had confirmed that she was totally healed." They could not find it. It wasn't in remission. In fact, she went to a second opinion because the first doctor, she wanted to make sure that this report was sure and it was accurate. And so she went to two other opinions and they confirmed that cancer was totally eradicated and destroyed out of her life.

SID: Wow. Now Hakeem, people look at both of you, and you look happy and everything. But you went through a season where your prayers were being blocked and you couldn't figure out what was going on. So you went into prayer and fasting, and what did God show you?

HAKEEM: Well one of the things that God showed me was that there are spiritual blockages. There are spiritual hindrances that keep us from really moving towards our prophetic destiny. And so one of the patterns that I found was that whenever I get a prophetic word or a prophesy, or there's a dream that God has placed in my heart, or there is a vision that I know that God has given me, usually right after that prophecy or after that dream, or after that vision what happens is there will be this sudden attack. The enemy will always, when there is a true prophecy or there is a true word, or something that you're believing God, what happens is right after that word is released, there is an onslaught of attacks that is released. So I found myself in this cycle. I found myself in this pattern where I was finding myself like I couldn't get ahead. I found myself three steps forward, and then next, I'm like six steps back. And so what God began to show me in the season of fasting and prayer is that there are enemies against your prophecy, there are enemies against your destiny. And so God reminded me of Paul when he charged his son Timothy, he said he had to remind him of the prophecy that was spoken over him, and he says, "Wage a good warfare." In other words, we have to use our prophecy as a weapon against the enemy.

SID: How do you do that? How do you do exactly what he said? Use our prophecy as a weapon, I like that, against our enemy.

HAKEEM: Well it's the Word of God. We know that the Word of God is a sure word of prophecy. Even if you never receive a prophecy or a Word, but you can believe God at his Word and you can use it as a sword and as a weapon against what the enemy is saying. So if the enemy says you will never fulfill your destiny, you have to now reverse it. There is a power of reversal in your mouth. We have to use our prophecy as a weapon and say, this is what God said, I believe what God said and it shall happen. The Bible says, "What we shall decree with him, it shall be established."

SID: Okay, here's what I want you to do right now. I want you to decree whatever God shows you for blessing over the people that are watching.

HAKEEM: Sure. We know that the decree is an official order by those who have legal authority. And I prophesy right now over those who are watching right now. My brother talked about the curse and he talked about the woman that had the cancer. But I decree and declare right now those who are sick mentally, those who are sick, physically sick, those who are financially and hindered, I prophesy and decree and declare that this is a season of breakthrough. I decree and declare that you shall arise from that sick bed. You shall take up your bed and walk. I decree that the Glory, the healing Glory of God's power is being released right now. I decree and declare that you will no longer stay stuck. I decree and declare, and I command that you are made whole by the power and the Word that is spoken right now. I decree and declare that even I see this woman right now that's been praying for her son who is in jail and the Lord is saying, today, he is going to be released. He said, I am vindicating, I'm releasing. I see the cell opening right now. I hear the Lord saying, "In this season that that jail cell is opening and I'm releasing my angels right now that is releasing your loved one." I decree and declare that this will no longer be a season of setback. This will no longer be a season of delay. You will accelerate, I prophesy, I command that you will arise and be great in your generation.

NAIM: I even will say that even the Lord says that even where the Word where the King is there is power. And so as we decree and we establish that even over your life whatever situation that you're in, whatever situation that looks like it is hopeless, we now decree and we just turn around everything. We prophesy that this is the season of your turnaround. We prophesy this is the season of your comeback. We remove every block, we remove every hurdle, we speak to every mountain, we decree that it be removed now in the name of Jesus. We decree and declare that we will overrule and override, and we veto every demonic legislation against your life, against your family, and we break every generational curse that has been spoken over your life, and we release it now in Jesus's mighty name.

SID: Now, I'm going to tell you, the presence of God is so awesome on this set right now. All things are possible. When we come back there's something that so few believers understand that is totally hindering the blessings of God and the destiny of God in your life. We'll be right back.

SID: Okay. So Naim, what's the word "Naim" mean, by the way?

NAIM: My name Naim, it's the ruler name in Arabic. It means peacemaker. It means one who is tranquil, one who is stable.

SID: Hakeem, is he a peacemaker and tranquil except when he fights with you?

HAKEEM: Yes, he is.

SID: Let me ask you this because so few understand this, and that is soul ties. Hakeem, what is a soul tie? Give me some examples.

HAKEEM: Well a soul tie is basically a mutual bonding or knitting, or tie of the soul. It has to be two parties that are coming together in agreement. And so a soul tie can also be something financial. You can have a financial soul tie. Soul ties are established verbally, contractually.

SID: So I think in terms when I hear that someone had an intimate relationship before they were married and they say, well I guess it's over, but that can be affecting them even today.

HAKEEM: Exactly. You know, a sexual encounter can establish a soul tie. And so but biblically when we think about a covenant, a legal soul tie is established by a man and a woman in marriage. But there are those who have been in past relationships who may have moved on to a new relationship and they're feeling the effects or the trauma from that past one, even though they have a new one. And so sometimes we have to break and sever those pasts or even present soul ties and soul agreements because they had impacted our lives now. There are those who are now in new relationships that are affected by hurt, abuse, verbal abuse, all those things that have happened because of what is established in the past.

SID: It just keeps rolling on and on.

HAKEEM: It's a cycle.

SID: Unless you know how to break that cycle you're in trouble. You know another thing the Bible talks specifically about how bad a sexual sin outside of marriage is. And do you know why it's so bad? Because you become one with that partner and every demon they have has legal access to enter you. I mean, that's why it's not that God is trying to hurt you, he's trying to help you by letting you know this.

HAKEEM: Yes.

SID: Now tell me about a blockage involving financial risk.

HAKEEM: Well that's where I got a revelation from the Lord because I found in my own finances, I worked in banking for some time, for seven times. So me working in banking I felt like I had an anointing of Joseph.

SID: You didn't go to prison.

NAIM: Right. I didn't see the manifestation, so I'm like, well God, I just got a new job, I get paid well, but I was finding some patterns. There was these, I felt like there was holes in my pocket. It was like I was sowing, I was tithing, I was doing the best that I can. I was obeying the Word of God, but naturally and financially I was hitting a wall. And so the Lord gave me a vision. When I went into a season of fasting, the Lord literally gave me a vision, and in this vision I saw a web. This web had all the jobs, the names of the jobs, the previous jobs that I had, the names were on this web, every name. And so they were stuck. And so as I was praying and God showed me this web then I literally saw these papers that were coming down from Heaven and on them were contracts and they had "Debt" on them, and my signature was on these contracts that were coming down. They were invoices, debt. I had to break and sever those old contracts that I had with human resources, those jobs that went in bankruptcy, the jobs that merged. The jobs that had financial or legal issues were impacting my finances. Even though I was moved on to a new employment, but spiritually, it was impacting me. So I had to sever and cut those webs, those cords, those soul agreements because my signature was on those documents when that job went into bankruptcy. And so I was finding holes in my finances. Once I got that revelation, God began to now show me how to break it, sever the soul agreement. I repented. I stood in the gap and right after that I saw instantaneously miracles, financially. My credit score went up 160 points. I saw checks that were coming in the mail out of nowhere. There were even jobs that I applied for five and six years ago, they were calling me, emailing me. This was a time where I believe that God would give me the revelation to break the soul agreement so that I can prosper. And so even those that are watching right now, I just sense that you felt like you were in a financial dilemma. You felt like you've been stuck, you've been tithing, you've been giving.

SID: By the way, I just heard there are people watching that everything they invest in goes sour, everything.

NAIM: Everything.

SID: Pray for them, too.

NAIM: Even your investments, even if you got stocks and you got bonds, things that you have saved, and you got CDs or you have money market accounts, or you have even an inheritance, anyone who wants to rob you of the inheritance and the blessing that God desires for you to walk in. And I break right now every illegal soul tie, every illegal

agreement that has been established, every old job that merged or went out of business, that went in bankruptcy that are impacting you, I break its agreement. I break its influence. I break its power. I decree and declare that that this will be the season when you find prophetic breakthrough, financial breakthrough. You're going to begin to see supernatural wealth being released in your life. You're going to begin to see things happen because of those old paths, relationships that has affected you. I break you from the past. I break you from the hurt. I break you from the trauma. I break you free. Today, this is your day of liberty. This is the day you're being set free. This is the day you're accelerating. This is the day I declare and decree that you should [move into] a season of breakthrough. Receive it today.

SID: Real quick before we go off the air, you told me something that God showed you about the blessings connected with Israel and the embassy. Explain.

HAKEEM: Yes. God gave me a vision in prayer concerning America and its relationship with Israel. And one of the things that God showed me that there was going to be, the embassy was going to definitely move back to Jerusalem, and I saw that transfer taking place. Once that begins to take place, we're going to begin to see one of the greatest revivals and one of the greatest awakenings, not only for America, for the world. I believe that there is a tipping point and God is raising up millennials. He's raising up young people. He's raising up the young generation. There is a tidal wave of God's Glory that's about to be released right now. And even as I'm talking to Sid, but even those that are watching right now, you're a millennial, you're even the oldest season generation, get ready. There is a merging that's coming together. There is an explosion, there is a tidal wave of God's Glory that's about to be released. I'm telling you, there is a prophetic breakthrough. The blessings of the Lord will make it rich and has no sorrow. I break every sorrow. I break every trauma. Get ready. This is your season where you're about to experience the miracle Glory. Some of you have been waiting on God, but God says the wait and delay is over. I break every curse. I break every soul agreement. This is your time. Get ready for prophetic breakthrough.

NAIM: And I even will say that those that are watching, I say the son and daughter of the Lord said that this will be the season of prophetic breakthrough. The Lord says this will be the season that you're not just going to be anointed, but the Lord said, "But my Glory is about to converge." And you're about to see the presence of God like you've never known. Get ready for there is a global awakening that's going to start in your house and there's going to be a supernatural current of God's power, his thrust, his presence. You're about to see the supernatural. Creative miracles are about to be your portion, creative miracles. You're going to see limbs grown. You're going to see eyes begin to grow. You're going to see things change around about you. Get ready because God says this Glory is coming upon you, not for this age, but ages to come. Get ready and receive it now in Jesus's mighty name.

SID: And I have got one word for you: Breakthrough!
