

**SID:** Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. What do you do when you're healed of an incurable, painful, debilitating disease and then years later it comes back with a vengeance, far worse? In this hopeless, dark pit, my guest cried out to God. He answered and said things that amazed her. She was healed and now wants to let the whole world know what God told her. Do you want to hear?

*Is there a supernatural dimension? A world beyond the one we know? Is there life after death? Are there hidden forces of darkness trying to block God's blessings for your life? Do angels exist, providing us with supernatural protection, disarming our enemies? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Is God ready to bring a tsunami wave of healing onto planet Earth today? Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** Mary, you had a form of muscular dystrophy you were born with. What was it called?

**MARY:** Charcot-Marie-Tooth.

**SID:** What is the prognosis for this disease?

**MARY:** It is an incurable disease. It affects your extremities, your arms and your legs, and eventually the nerves stop sending messages to the muscles. You begin drawing up and atrophying and lose use of certain muscle groups.

**SID:** At age 12, you developed scoliosis and it says here that your spine had a curvature of 33 degrees.

**MARY:** Yes. One shoulder blade scapula developed more than the other. My back was very distorted and I had a burning sensation that if I lifted anything, I would usually have to go lie down for an hour because the pain was so great, I had to wait 'til it would pass before I could function again.

**SID:** At age 19, jumping real quickly, you had a healing. How did you get that?

**MARY:** At age 14, I went to a David Wilkerson Crusade and the Holy Spirit said, "Go down front." I said, "I'm saved. You know I'm saved." He said, "I want those in your high school to know your mind." I went down front and filled out a card and they disciplined me through the mail through the book of John. By reading the book of John, the Holy Spirit highlighted Scriptures that Jesus healed them all. I got ahold of that I am one of them "all." I came across a Scripture and Jesus cast out the devil and they were healed.

I looked down at my body as a child and went, "This is a devil." I searched Scriptures at age 14. I began trying to read all through the Bible, came across James 4:7. "Therefore, submit unto God. Resist the devil and he will flee from you." Over five years I stood on that Scripture. My mother took me anywhere she thought they would lay hands on me and pray for me, and over five years every bit of the disease left my body.

**SID:** I believe they did an analysis of your spine and the curvature. What did the doctor say about that? By the way, there is surgery that perhaps you could be corrected, but you didn't have surgery. What did the doctor say?

**MARY:** Duke Medical Children's Hospital x-rayed me every few months during these five years when I am standing on Scriptures, believing for my healing. They would line them all up and they would just shake their heads because every time I went in, the degree got less and less and less.

**SID:** Okay, 16 years go by, fast forward, five children, married. You had a little incident, a home church. You went there and they literally embarrassed you.

**MARY:** Publicly.

**SID:** Publicly humiliated you. You were wounded. Six months later, the disease hit you with a vengeance, far worse.

**MARY:** My husband and I walked a few blocks from our house, went through a park. We're coming out of the park and in one step, I got paralyzed below both knees. Rich was walking down the road and I began calling his name. "Rich! Rich!" He turns around and he's like, "Come on!" I go, "Come here!" He comes back and he goes, "what are you doing?" I said, "I can't walk." He goes, "What do you mean, you can't walk?" I said, "I cannot move either leg." He had to go home and get the vehicle and he had to carry me and put me in it. Those began the darkest days of my life. But I made a mistake in that moment.

**SID:** What did you do?

**MARY:** In my heart, I said, "The disease has returned." I made an agreement in my heart with this disease and I should have resisted it.

**SID:** These symptoms can come back through the same demonic forces that brought them in the first place and if you can resist it at that moment, you don't have to put up with it. That's the easiest time to resist it.

**MARY:** God gave me a key on that. He said, "If you will take John 10:10 and divide the rest of your life by that one Scripture, you will no longer deal with this stuff." John 10:10 says, "The thief comes to steal, kill, and destroy, and Jesus came to give life and life more abundantly." He said, "If it's coming to steal, kill, or destroy from you, anything, your thoughts, physical body, stop agreeing with it. If it's bringing life, that's where your agreement is. That where you let your mind go. That's what you focus on. But you have to resist when it's coming to steal, kill, and destroy."

**SID:** You know what? She grabbed hold of that Scripture, but at that time she was in such a deep, dark pit that you really wanted to die.

**MARY:** I did. Now, cluster migraines have set in. I'm in bed over 16 days a month. That is how many. I would have four days of migraines, maybe two days out. Five days of migraine, and it was this vicious cycle day after day. I didn't know if I could get out of bed. The pain is so great that I told God, "My husband's good-looking. He's very kind. Somebody else can come in here and take care of these children 'cause I am failing at this." I began hating myself. I began despising myself and I cried out to God, "Please let me die."

**SID:** We're going to be right back, but she also cried out a question. "Why, God? Why me?" Be right back.

*We now return to **It's Supernatural**.*

**SID:** Mary, in this hopeless pit, as she just said she was reaching out to God and she found John 10:10. Then God gave you further revelation on that.

**MARY:** I said, "God, why is this happening to me?" He said, "Why do you think this is me?" I said, "What are you talking about?" He said, "Look around Heaven. I have no storehouses of sickness to give anyone." I said, "Well, how did this disease come back?" He said, "Your heart got injured in that church, and instead of running into me for healing you turned inward." But I became a very, very private person. God said, "By turning inward, it created a landing strip in your heart because you didn't get it healed and the enemy was able to land disease."

**SID:** Then you read a Scripture, which was about the Pool of Siloam and this man God healed. Tell me what —

**MARY:** That changed everything.

**SID:** Tell me what God showed you from that Scripture. First explain what happened in the Scripture, then tell us what happened.

**MARY:** Okay. When the disease hit, I began shrinking because I couldn't walk. My bones went into osteopenia. I shrunk two inches. My whole body began to atrophy. My husband said, "Mary, we're going to put an addition on the home. We're going to get you an indoor swimming pool because the few muscles you have left, we need you to use them because when your body begins shriveling, you're just losing." I carried my Bible out there and I thought, "I'm going to have time with God before I get in." I just let it fall open on my lap and my eyes fell to John 5. I read the first couple verses and Jesus comes along and He says to the man, "Do you want to be made well?" The man says to Him, "Well, when the angels come and stir the water, somebody always gets in there first."

Jesus ends up healing the man, but it was my conversation after I read that passage that changed everything. The Holy Spirit said to me, "What do you think of that story?" I said, "Well, it's a nice story." He said, "You don't believe it." I said, "Well, I've never heard any pastor preach on this. I've never heard anyone talk about healing angels." Holy Spirit said to me, "If that man was not getting healed, he would have gone somewhere else." In that moment, the face of God came into me and I looked over at that pool and I said, "I have water. I want some John 5 angels to come stir this water." For two years, I got in that pool.

I had those conversations with Holy Spirit, which became my book. It was all the keys He gave me. Through those conversations, that landing strip in my heart got healed and all my symptoms left and I became disease and pain-free.

**SID:** Well, one of your keys is being thankful. Tell me that experience about your feet and being thankful.

**MARY:** One of the conversations I had with the Holy Spirit, He said, "Thank me for your feet." I said, "Why? They don't work." I couldn't move them. I literally could not move my feet. I went into an open vision 'cause I'm looking at them, talking to the Holy Spirit, and my feet weren't there. I saw stubs at the end of my legs. Well, that'll freak you out. I pulled my leg up and I began stroking my foot. I said, "Thank you, Jesus, for my feet. Thank you for my beautiful, beautiful feet." The Holy Spirit said to me, "You cannot be despising and cursing your body parts and have healing come." He shifted my thinking in how I would begin treating myself and my body parts that weren't working.

**SID:** Tell me about laying on of hands. What did the Holy Spirit show you?

**MARY:** Well, I was in this private place. I had gotten wounded. I was still going to church with my family, but I wouldn't talk to anybody, or very few people, and I'd gotten wounded. Here I'm in this private place and I'm finding that Scripture, "Lay hands on the sick and they shall recover." I said, "Holy Spirit, I have hands. Will it work for me to lay hands on myself?" He said, "The same power that raised Christ from the dead dwells in you." Every day I would take my hand and I would say, "I command every cell in my body to line up with the word of God." I took those Scriptures and I put my name in them all through and that Scripture became alive for me, that I can lay hands on myself and be healed.

**SID:** I'll tell you what, are you ready for a little practicing what we just heard? Alright, if you are a believer in Jesus, I want everyone to put your hand, if possible, where you want healing. If you can't put your hand in that place, put your hand anywhere 'cause the word of God says to lay hands on the sick. It doesn't say where. Okay, now, I want you to lead them in prayer to be healed right now.

**MARY:** Alrighty. Father, in the name of Jesus we thank you that your word says, "Lay hands on the sick and they shall recover." Father, we all come in blood covenant agreement because of what Jesus purchased on Calvary. We lay hands on ourselves and we command every cell in our bodies to line up with the word of God. Every organ, every tissue, everything that has been trying to exalt itself above the name of Jesus must bow in Jesus' name.

**SID:** When we come back, you're going to find out something I just found out. I found it out last night. The [sound] frequency of Mary speaking or singing in supernatural languages, in tongues, heals all of your flesh. Be right back.

**SID:** For two years, Mary was in that pool believing God and developing such a relationship with Holy Spirit that the Holy Spirit is telling her one thing after another after another to manifest her healing.

**MARY:** One of the things he told me was—I would apologize to Him all the time. "I'm so sorry, God. I'm so sorry I'm not doing more for my children, for your church. I can't teach Sunday school. I can't do all these things." The Holy Spirit said to me, "I wanted you to know my love for you apart from your giftings." I said, "You love me like this?" God loves us wherever we're at. That revelation of how loved I was helped me to start loving me. I would walk and talk with Him for two years and in two years, all the symptoms, once again, and these are far worse than I'd ever known, completely disappear. I get my life back. I get use of my hands back, use of my legs back.

**SID:** This is a funny, funny story and she gets the use of her hands back, and God tells her to paint. What did you think about that?

**MARY:** I would just turn away. It was a two-year conversation.

**SID:** Let's put a picture of one of her paintings, because she finally obeyed God. She thought she had no art talent and her hands weren't even built to paint, but this is what she's doing now. Do you know when God says all things are possible, He really means it? Tell me the revelation you have on blood covenant briefly.

**MARY:** I, during those two years, got to go to a Bible study and they taught on four keys: the name of God, the word of God, Holy Spirit, and the blood. When they taught that when you are in blood covenant with God Almighty, whatever's happening to you, it's happening to God. If it has no right to God, it has no right to you. I looked down at my body and I said, "This disease has no right to my Father, and I am one with Him through the blood of Jesus, so it has no right to me." I began pleading the blood of Jesus. I would say, "I apply the blood of Jesus upon me, within me, around me, between me and all evil and the author of evil in Jesus' name. Body, you must line up with the word of God and enemy, you cannot cross the blood line."

**SID:** Mary, you learned a lot about praying in supernatural languages—

**MARY:** Yes, I did.

**SID:** ..and tongues. One day you were praying in your language.

**MARY:** And a new language broke out.

**SID:** Tell me about that new language.

**MARY:** In the pool, Holy Spirit said to me, "I want you to get some Morningstar music." I said, "Why their music?" He said, "They're on the cutting prophetic edge." I didn't even know what those words meant. I ordered a CD and when I would sing with that CD, they knew how to usher in the presence, I would get into a realm of presence like I had never known in my life. I would sing in my prayer language and this new language came about. In that language, I felt so loved, that the promises that were so alive. In our journeys for our breakthrough, we need to worship. Worship takes us before the king. It brings us into His presence. When we come into His presence, that light has to dispel the darkness that we're fighting.

**SID:** I'll tell you something. I want a quick word to someone as to what to do if the symptoms come back. Real quick.

**MARY:** Treat it as a lying symptom. Pain came back in my body. For three weeks, my left toe throbbed like it had before I was healed. I'm trying to drive the car and just different things, and I was in so much pain. Holy Spirit said, "What are you doing?" I said, "I don't know, what am I doing?" He said, "Don't agree with that. Treat it as a word of knowledge." I'm in the car. I can't look around and go, "Anybody got pain in their left foot?" He said to me, "Pray this prayer: 'Father, whoever in the body of Christ has this pain, right here, I command it to go in Jesus' name.'" I prayed it, it went, and the enemy hardly ever puts any pain on me 'cause He knows I'm going to treat it as a word of knowledge, because we reap what we sow and we can sow prayers for the very thing we want all by ourselves and reap the healing and send out healing to people we've never met.

**SID:** I don't know, that is so profound. Did you catch that? When you have a symptom, treat it as a word from God to heal someone else. It doesn't belong on you. You go out with a vengeance to see people healed of what that lying symptom is doing to you and in Jesus' name, your back, that's the word of knowledge. I don't have a backache, praise God, but your back is healed in Jesus' name.

**SID:** Next week on *It's Supernatural*.

**Joshua Mills:** In God's glory realms, there's life, increase, abundance, healing, wholeness, provision, and prosperity, and deliverance. If you're no longer content to just hear about the glory, but you wanna experience it for yourself, then I want to help you get moving, moving in God's glory realms. Join me, Joshua Mills, on the next *It's Supernatural* with Sid Roth.
