

**SID:** Hello. Sid Roth here. Welcome. Welcome to my world where it's naturally supernatural. Have you ever heard of Stage 4 cancer? My guest had Stage 5 cancer. That means the cancer has spread throughout the whole body, days to live, nothing can be done for him. Instantly healed. He has such authority. You think that's something, he has such authority in the Messiah of Israel that he went to Taiwan to reach people with the Good News. He was warned not to. Why? There were swarms of killer mosquitoes. One bite, you're gone. I mean, this guy has chutzpah. That's a Hebrew word, it means nerve. This guy has nerve. He said, "God told me go. I'm going." So what happened to the killer mosquitoes? They all died.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. **SID:** In 1984, the devil tried to kill you again. He succeeded. He did kill him. He was in a car accident and you were with your wife and your eight children.

**HENRY:** Eight children.

**SID:** Eight children and you literally died for 30 minutes.

**HENRY:** Right.

**SID:** Everyone should have died, but you were the only one that did.

**HENRY:** Only one.

**SID:** And what was it like when you awoke?

**HENRY:** When I came back I could see, I mean, I was blind, I could feel my eyes blinking. I could hear perfectly, but I couldn't feel a thing from here down. And I could feel blood running. I thought my eyes were bleeding. I didn't realize I had no feelings from here down until I heard someone running and I heard a man on a two-way radio, and they said, "Shall we dispatch an ambulance." And this man said, "Can you hold on that. The woman and the eight children are fine, but we don't know about the man."

**SID:** What was your, by the way, what was your wife and your daughter, how were they praying for you when that happened?

**HENRY:** My wife didn't know I was dead. She saw me force the sliding door open on the van and get out when the thing stopped turning upside down, flipped in the air and landed on the wheels. She was taking care of the four babies out of the back hatch of the van that had blown open, windshield was blown open, and she thought I was alright because she saw me getting out. I don't remember getting out of the van. I was dead. I was already dead. But the four older children were looking at my body when they gave up trying to do CPR, two times. Each time the hole in my head, blood blew in their face. They plugged the hole in my head, blood blew out of

my nose in their face. They gave up. Four strangers, they're trained very well in CPR. He said, "I'm not trying anymore. I'm sorry," he said to my children. That's when they let me lay there and my four children were looking at me. My wife thought I was alright. She was taking care of the little ones on the other side of the van, on a blanket, praying for them that they didn't go into shock or whatever. And then about 30-minutes later after they were trying to do CPR on me, my 15-year-old daughter, the oldest of our daughters in that van, pointed at my dead body and said, "Devil, that's my dad, you can't have him. I rebuke you in the name of Jesus!" I was all the way in the Milky Way at that point and I instantly was back in my body.

**SID:** Are you serious?

**HENRY:** I am as serious as holding this cup.

**SID:** I understand they knew how to plead the blood. How did they pray?

**HENRY:** Every one of our children, we taught them from babies, if they had the slightest injury, the first thing we did was pray for them. So their faith was built up and they saw many healings in our children, raising children. Children will teach you a lot of faith. You know that.

**SID:** I understand they were pleading the blood.

**HENRY:** My wife was pleading the blood when that van went out of control and flipped, and I heard her crying the blood of Jesus when I left my body. The van was still in motion when I left my body.

**SID:** What happened to the hole in your head?

**HENRY:** The hole in my head, after the fire came to me, went out my toes.

**SID:** What fire, the fire of God?

**HENRY:** Well I heard the man say, "The woman and the eight children are fine, but we don't know about the man." The instant I heard that, because I couldn't see, all I could do was hear, faith exploded down inside of me and I said, "Father in Heaven," only in my mind, couldn't open my mouth, didn't know where it was. I said, "Father in Heaven, whatever is missing on me, you can put it back on. I'm not going to the hospital. I'm going to my daughter's wedding." And that's when the fire hit me in each temple and slowly moved down. And as it hit me about right here my vision came in. I saw a lady holding my face with her hands, brown hair, long brown hair, white blouse and I could see arms of a man holding my chest down there, saying, "Don't move, your neck is probably broken. You might die on us again."

**SID:** You know when we come back, what happens when a doctor tells you the cancer has metastasized throughout your whole body, you have eleven days to live. But this man, this cantankerous man was so sure that God would heal him he refused to believe that. Meshuga? No. He had his sanity. He had the Bible sanity, the knowledge of God. I want you to have it. We'll be right back.

*We now return to **It's Supernatural**.*

**SID:** Henry has this cancer that started in his colon, spreads throughout his whole body, Stage 5 cancer, eleven days to live, but you refused to die.

**HENRY:** I told the doctor, "I am not sick, I'm healed."

**SID:** What did the doctor say about you?

**HENRY:** The doctor said, "My God, man, are you out of your mind?"

**SID:** He called you a living dead man?

**HENRY:** Yes. "I can tell by looking into your eyes your electrolytes are gone, the color." I was 97 pounds. I weigh a hundred almost 70 now.

**SID:** The eleventh day, you go to a service that has some students of someone else we've interviewed, Heidi Baker.

**HENRY:** Yes.

**SID:** Why did you go there?

**HENRY:** I was there to speak. I had been scheduled the year before to speak to 75 pastors.

**SID:** Yeah, but you're dying. You're a walking dead man.

**HENRY:** They drove me to the church.

**SID:** If you're going to go out.

**HENRY:** Yeah, I wouldn't get behind a wheel. My spirit was trying to leave my body. I wouldn't let it.

**SID:** You expect me to interview him with this stuff going on? Okay. You get to the service. These young kids, I assume they laid hands on you. What did they do?

**HENRY:** After I preached.

**SID:** You preached?

**HENRY:** Oh yeah, I preached to those 75 pastors.

**SID:** Okay.

**HENRY:** Leaning on the podium. They brought it down to the ground floor from up on the stage. They carried me up there. Found out later it was angels that carried me up there from down in the pastor's office, in the basement. And it was to be kind of in a sense the last sermon I ever preached, was what the devil was telling me. And I said no way. The Word of God cannot lie. Jesus said by his stripes we were healed. I refused to give my life for cancer when Jesus gave his life for me to be healed.

**SID:** All right. After you preached the students prayed for you and what happened?

**HENRY:** I thought somebody was poking their boney elbows right above my kneecap. I had my hands up like this and I said, "Lord, get them off my kneecaps. My body is so sensitive and I don't have the strength for that." Next thing I know, I feel my hands on my face and my boney elbows are right above my kneecap. I open my eyes and I go back and I lean back because I thought, oh no, if I lean forward like that I'll start hemorrhaging. I can't stop it. Blood will be everywhere. Blood was flowing out of my bowels and my urine like water except when I was prayer walking. The Anointing was on me, I wouldn't hemorrhage. Hallelujah. So that's how I survived, brother. Then I realized, wait a minute, there's no pain. There's no sensation of hemorrhaging and I just very gently started touching myself down under my ribs, which I couldn't push before at all.

**SID:** What would happen?

**HENRY:** The pain would have been so bad I would have passed out. My body, the trunk of my body was so tender and so sensitive. And I realized there's no pain. And I'm pushing further and further all around. And I jump up and I throw my fist in the air and I said, "I'm healed! It's over! The cancer is gone!"

**SID:** Did you go back to that doctor that said you're a walking dead man?

**HENRY:** Oh that doctor is crazy. That doctor knows, every time I get into the state of Ohio, that doctor, my cell phone rings, "Henry, you're back in Ohio, aren't you." I said, "How do you know? Do you see it on the website?" "No, I feel it. You're back in my state again." That doctor has done missions now to India and to Africa, revolutionized the doctor's life.

**SID:** You know, that's why I combine the supernatural with evangelism. Do you know that's the way Jesus did it. It wasn't because everyone wanted to hear him speak because he was the best speaker in the world, which he was, but that wasn't why people came to him. They came to him for the miracles. Okay. You go to Taiwan. How in the world, and you're warned there are these killer mosquitoes. How in the world did you go there?

**HENRY:** I was already scheduled there.

**SID:** Oh, of course.

**HENRY:** Spoke up north, the Dungeness plague was down south. My scheduler said, "I've cancelled you for down south." I said, "What for?" He said, "The Dungeness plague is going. Hundreds of people are dying every day. One mosquito bites you, you're dead. You go into high fever, pain they cannot control. Within four days you're dead." I said, "What did you cancel me for?" He says, "I don't want you dying. I don't want to call your family and tell them you're dead." I said, "I refuse to give my life for a stinking mosquito when Jesus gave his life for me."

**SID:** So you had a vision and tell me what that vision was.

**HENRY:** That vision, we were right at the place where the most people were dying. I said, "Take me where the most are dying." They chartered a bus. The night before I spoke to five different churches, they chartered a bus the next morning. We went to the place where the worst plague was. Got out of that bus, looking over that area and I'm crying out to the Lord, and I have a vision of one little dragonfly coming across in front of me. My daddy taught us from a child, do not hurt dragonflies. They eat the mosquitoes. They're your friends. Instantly, I knew, I knew beyond a shadow of a doubt. That's it, Lord, send clouds of dragonflies, send them all over the south here and eat up this plague.

**SID:** So what happened to all the mosquitoes, the killer mosquitoes?

**HENRY:** A lady right behind me of the 53 screamed, "Oh no, did she get bit by a mosquito?" They had so much mosquito spray on them they were almost soaked with it. I turn around to touch her on the top of the head to pray for her and come against that bite, and she's shaking her head no. She can't speak English. She's only Japanese or Chinese. And she pointed out. I look and dark clouds of dragonflies, millions of dragonflies are right above us.

**SID:** You have learned to war and contend what God has promised you.

**HENRY:** Absolutely.

**SID:** Your son had a prophecy that he'd be a great man of God, and he's born dead. How did you war to save him?

**HENRY:** I remember the prophecy given one year ahead. She said, "From this day next year, you will have a son and he will be mightily used of God." Here we delivered six of our children at home. We call them faith babies. Mama tossed them, I caught them. The moment his head is birthed I know he's dead because he's black and not breathing. And I get him turned around because the cord was around his neck four times. Get the cord from around his neck, this little dead body. She hadn't felt any motion for three days and nights. I hold up this little dead body and I look up, and I said, "Father," my two oldest daughters were right behind me and saw this, and my wife. I said, "It's a boy and you said that you're going to give us a boy today and he'd be a mighty use of you. To do that, you've got to put the breath of life in him and you've got to do it now." All four of us heard the sound [gasp]. As his mouth opened, breath came in. He turned purple then pink. He's six-foot-four today, a missionary in Mozambique, Africa.

**SID:** Okay. When we come back I have read about people being translated in the Bible, from one city to another. I have had guests that have been translated. But Henry tells me not only was he translated, but six of his friends at the same time to another place. Be right back.

**SID:** Now Henry has so much amazing, never-revealed information. For instance, for six hours he was in Heaven. We have to continue this show. All you have to do to see the continued show is to log onto SidRoth.org, that's S-I-D-R-O-T-H-O-R-G. Now Henry, I'm on the edge of my seat, not quite, but I'm trying to get there. Anyway, I'm on the edge of my seat. Six people from different places all translated at the same time to another country? Tell me about that.

**HENRY:** We were called the Spirit-Filled Strike Force, Holy Ghost Commandos. All right. Two of them were former Green Berets in Vietnam, very disciplined men. And God would tell us specific strikes all over the earth at different strategic places. And one morning in Portland, Oregon there, in 1988, October 1988, the Lord woke me up, 4:30 in the morning. He said, "Get out of your bed on your knees." I'm in my pajamas. The moment, the instant my knees hit the floor, I was walking the streets of Rome, fully dressed, and I come to the old—

**SID:** I have to ask you a question because it hasn't really happened for me, that I'm aware of.

**HENRY:** Go ahead.

**SID:** Did you have any feeling from 4:30 in the morning to being walking the streets of Rome? Did you feel yourself going somewhere?

**HENRY:** Didn't feel myself passing through the atmosphere. It was like, boom, boom, I'm there.

**SID:** Okay. Go ahead.

**HENRY:** Fully addressed, not in pajamas. Thank you, Lord. And I come to this place where in the '50s they had the big iron doors in the streets, sidewalks that they'd load the merchandise into the stores. And I reached down and grabbed these big iron doors, lift them up and a chain comes across to hold them kind of angled, and I turn back, and this is when I know the six commandos are with me. That's the first I saw them. We were all praying.

**SID:** Excuse me, were they in different countries?

**HENRY:** They were from Vienna, Austria, Bangkok, Thailand, North Pole, Alaska, Fairbanks, Alaska, Sacramento, California.

**SID:** God doesn't make it easy.

**HENRY:** No. God brought them different timeframes from all over the world to put me and put us on the streets of Rome.

**SID:** Okay. Why did he do that?

**HENRY:** He did it because to go down there, he put us down there because he told me, "This is where the Apostle Paul died and where they killed him. This is where the Apostolic anointing was bound for centuries. I want it loosed."

**SID:** How was it, what did you do to loose it?

**HENRY:** As we're going down this ancient stair, stone staircase under the streets of Rome, their prayers in the commandos, whoever had the leading of the Spirit, lead, the other six, backing them in everything they did, in agreement. The power of oneness, the power of agreement, this is key. This is secret, secret to power being released. They were in agreement when they prayed. I felt like a giant funnel was on my head and their prayers were pouring into my head like liquid power. And when I got to the bottom and looked, realized I'm in the entrance to a massive catacomb. And as I step into it, I look to the left and here is a massive angel sitting with his elbows on his knees, blackish grey, just like this, eyes blinking. And the second I stepped into that room, he come up and said, "You shouldn't be here." And then I hear the same thing on the right and I turn, and there's another one. And I said, "We are here by Divine command of the Lord Jesus Christ. The Apostolic mantle that you have bound these many centuries is now loosed to the church, saith the Lord Jesus Christ." And they stood up and said, "We'll be going then." And their wings spread. They had to have been 30 feet tall. They could have taken my head like a bottle cap off a water bottle and popped my head off. But the boldness and the power was on me. And I said, "And you will not for the Word of God says in Jude, Verse 6, 'You are to be bound with chains until the everlasting day of the Lord, great chains.'" And massive chains come through that catacomb, coming down spiraling. The links, I couldn't reach to touch the end of one link, spiraling, knocking their arms and their wings down, wrapping around their ankles, clear up under their necks until all they could do was stand looking up. And then instantly I was back on my knees in pajamas.

**SID:** I was going to ask.

**HENRY:** In Portland, Oregon.

**SID:** I'll tell you what, there is so much more that Henry has to share. I mean, this is never revealed information, even on the Glory, that will shock you. We have to continue this show. How many hours were you in Heaven?

**HENRY:** Six.

**SID:** Six. I want to find out about Heaven. All you have to do to see the rest of this program is log on to SidRoth.org, S-I-D-R-O-T-H-O-R-G. Do it right away.

**SID:** Next week on ***It's Supernatural.***

**Dennis Clark:** Hello, I'm Dr. Dennis Clark. My guest has gone to heaven many times. She has a very unique understanding of how the spirit world operates. Can you imagine seeing into the invisible world and seeing the real cause of trouble. When life is pounding you to point of giving up, you can hardly imagine how much victory is yours.
