

All right, Sid Roth here, welcome to my world, where it's naturally, supernatural. When my guest from Australia first started in healing, about every fifth person was healed. After seven years, often, every person is healed. He wants to teach you how to have the same results. We call it, raw Outback power. Next, on ***It's Supernatural***.

Is there a supernatural dimension? A world beyond the one we know? Can we tap into ancient secrets of the supernatural? Can our dreams contain messages from heaven? Is God ready to bring a tsunami wave of healing onto Planet Earth today? Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid, for this edition of, It's Supernatural.

SID: I'm here with John Mellor from Australia, I've seen him on the Internet, and... he was praying for me last night, and I'll tell you, that is a tangible power that's comin' outta you. Tell me, just kinda whet our appetite, tell me one recent miracle.

JOHN: Well just last week, I was doing a healing seminar, and when I do seminars I do, I do, demonstration. And a man there, for five years, struggled on a walking stick, his legs were numb, he, he worked in an iron foundry, a six-hundred pound lump of metal hit him in the side. It tore all the muscles and nerves, and he was on, he had a, had a machine that pumped painkillers, morphine, into him, that could not even begin to dull the pain. And for five years he struggled, like an old man, he's a young man, and then I called him up to demonstrate healing, laid hands on him in Jesus, the power of God touched 'im, he fell down, and then he got up,

John: How do you feel mate?

Young Man: There's no more pain!

JOHN: And he ran.

Young Man: I'm healed! Praise God!

JOHN: In fact, he—

SID: I'll tell you John, I felt that raw Outback power, but go ahead

JOHN: And he ran out the door and I called out, "Watch out for the bears!" 'Cause it's out in the country.

SID: You say, every believer should be able to walk in that raw Outback power. But, This is ridiculous. How old is your grandson?

JOHN: Well, I've got one grandson, I've got quite a few grandchildren, he's nine now.

SID: Tell me about the nine-year-old.

JOHN: Okay.

SID: And, by the way, if the nine-year-old can do this, guess what?

JOHN: Okay, I've got one grandson, Beau Mellor, he's a, he's had a healing ministry for 18 months. And it happened I came to my son's church and I was ministering, and he sat there, in the front row, watching his granddad do all the miracles.

Woman: I can hear. I can hear!

JOHN: And after I left, he decided to hold healing meetings. And I hadn't laid hands on him, but in his heart he said, he wants to be like me. And so he began to round up the neighborhood children, began to preach the gospel, lay hands, well they're getting healed. And so, he prays for people at his school, he prays for adults, he prays for children.

Beau: "No one comes to the Father except through Me."

JOHN: And they told him, the school, you gotta stop praying for these children, this is not a Christian school, and my grandson said, "They have a right to hear the Word of God."

SID: Now, that's his, that's his grandson. Tell me about, how old was your father when he started in ministry?

JOHN: Okay, well my dad was 69, he was a drunken alcoholic, aggressive man, anti-Christ, he had an amazing encounter with Christ, he got born again, filled with the Spirit, and he began his first healing ministry going out, knocking on doors, he first began to ask all the neighbors who hated him to forgive him. He started a Bible study, he rounded up all the unsaved neighbors, and he had them in his home, here's someone that they hated, he asked them to forgive him, he began ministering to them, he began his ministry at 69, and in those days, I didn't believe in healing, and he began to mentor me in healing.

SID: You know,

Audience Member: Wow!

SID: You told me, before we went on the air, that your father was one angry man.

JOHN: Very angry.

SID: Yeah. He, he would say horrible things to you as you grew up. He would literally, and unbeknownst to him, he was cursing you, cursing you.

JOHN: All the time.

SID: And he was an alcoholic, and then your mom had severe mental problems.

JOHN: Yeah.

SID: And you had to live in homes, and you were in a motorcycle gang.

JOHN: Yeah.

SID: And you got into a horrific accident, and two bikers saw your accident, that were strong, they were part of a Christian bike club.

JOHN: Yeah.

SID: They follow you to the hospital, what happened?

JOHN: Well what happened is, they came to the casualty, the casualty is sewing me up, and one of them said, he said, "You know, God loves you, and has a plan for your life." And I got home out of the hospital, I couldn't stop thinking that Jesus loves me, and has a plan for my life. So I'm, I'm lyin' in bed one night, and I had a lot of depression and mental torment, and on one night I just cried out, I said, "Jesus, if you are real, set me free. "Help me, forgive me." And this presence came in the room... I fell asleep, I woke up in the morning, I felt this amazing peace. I looked out the window, I could see how green the leaves were, I could see the, I could hear the birds singing, I thought, "What's this strange sensation?" Then I realized, it must have been my prayer, Jesus must have come to me, and since that day my life has never, ever, ever been the same.

SID: That's our guy! I pray that he become your guy! Because he already is, you just have to know that. Now, you were preaching to everything living, but you didn't know a thing about miracles. So you go to a people group, and as I understand it, you don't even know the language, the Aboriginals.

JOHN: Yes.

SID: And how many people came to your first meeting?

JOHN: Well what happened is I, is I worked as a missionary amongst the tribal Aboriginal people of the Northern Territory. I was based in a town of Katherine, and I had an outreach at a place called Binjari, this Aboriginal reservational community. And I had one old lady, and I had three or four children, that's all I had. For five months. And my church was just a field, I sat on a log, they sat on the ground, I shared simple Bible stories, and I shared about Jesus, and then, then I became so desperate, I began to fast and pray 10 days a month, from the first to the tenth. But, thing is, I wasn't praying for healing for them, I was praying for them to find Christ. But after five months, one day I was there preaching, preaching out in the grass there, and I heard, I had a, and this old lady always limped, and I had this compassion to pray for her. You know, I'd never seen anybody healed. I laid hands on her leg and I thought nothing more of it, I wasn't really expecting God to do anything. And the next week I went there, there was a crowd. I thought, "Why are they here?" I found out the old lady was healed. And then of course they wanted me to pray for them. God healed them. And then they called me the missionary man who heals. And so my brain was confused 'cause I didn't really believe that God would do this today. And you know, despite me, despite me, God moved.

SID: You also bumped into witchdoctors, demon-possessed dogs.

JOHN: Aw, yeah.

SID: Demon-possessed dogs?

JOHN: Yeah, well see, out there, amongst the Aboriginal community, they had the Gadachi men or witchdoctors, and they put, try and put curses on us. In fact, I would go to have meetings in these remote areas, and the witchdoctors would come out, and they'd come out and attack the people, and they'd punch them, in fact, they had these, they call them camp dogs, and the dogs are demon-possessed. And every time you'd pray for people, or mention the Blood of Jesus, they'd go rabid and wild and attack you. And so, when I had to pray for the people, I used to have a, what I called a camp dog stick, and when I was praying, I had to hit the dogs,

SID: This is not your average church!

JOHN: And so the dogs, they had their jaws around my ankles when I'm praying, and I'm bashing that, meanwhile, meanwhile, guys are coming in and punching the people in the team, gettin' the microphones and hitting them over their head. It was wild.

SID: Well I tell you what, he had to pray and fast because there is a level of reality that is dark and evil. And he was in it. And if he didn't pray and fast, I don't think I'd be talkin' to him today.

JOHN: No.

SID: But then, he goes to Scotland, and major miracles break out! And then all the secular press is actually interviewing him about the miracles, because they went there as skeptics, and they came back as believers. Be right back.

SID: Miracles started breaking out among the Aboriginal people, but then, you go to Scotland.

JOHN: Yeah.

SID: That's where you really saw it break out.

JOHN: That's right.

SID: What happened?

JOHN: What happened in Scotland is it began, I went to a small church in the slums of about 11 or 12 people.

SID: You go from the witchdoctors to the slums.

JOHN: Yes.

SID: What a ministry!

JOHN: And the place was so dangerous the police wouldn't go into this area. And the pastor had his cars torched twice. They had knives to threaten us, to beat up the people from the church.

SID: Weren't you afraid?

JOHN: I wasn't afraid.

SID: I see why God has entrusted you with this great anointing. What'd you see in Scotland?

JOHN: Well what I saw in Scotland was outstanding miracles. I began going in the street, and preaching from the street corners and the bus stops, and crying at the people to come to Jesus, and then the first small group came of about 12 people. And one lady didn't have an eardrum, from five years of age, and she was in her late fifties. She had no balance, she had chronic pain, and God amazingly healed her.

Deaf Woman: I can hear!

Crowd: Hallelujah! Glory!

JOHN: She went back to the surgeons, they examined her, God grew an eardrum.

Deaf Woman: I told you, it's a miracle.

JOHN: After half a century.

Deaf Woman: I can hear everything you're saying.

JOHN: And what happened, this lady could never swim, she couldn't go in an airplane, she couldn't even get a driver's license. After the miracle, she got a driver's license, she could go on an airplane, she could swim, do everything. A creative miracle.

SID: I would imagine that you had more people than you could contain trying to come to your meetings.

JOHN: It's amazing. People came from all around the world. Oh, and Europe. In fact, the newspapers did major stories. The biggest newspapers. It made front headlines of papers.

SID: Tell me a miracle that they wrote about that they liked.

JOHN: The first miracle, I came back to Australia, and once again a reporter came to expose me. He set up a camera, waitin' to see I was a fraud. A lady had MS, was disabled, that they helped to the front. She couldn't move her toes, she had numb legs, chronic pain. They helped her to the front, after prayer, power of God touched her and she could walk. Her toes could move, and this reporter put front headlines, major paper, "I saw a miracle."

JOHN: Secular media.

SID: And now sometimes, people pump the press to get them to do things. What did you do to get such front-page coverage?

JOHN: Pray and fast.

SID: No press agent?

JOHN: It's no press, people that ask me, "Who's your press agent?" I said, I don't have anyone but Jesus.

SID: Most people, after you pray, if nothing happened would go into unbelief.

JOHN: Yeah. And many times we see people come they might get healed the first time. First time in Scotland, the lady came from Belfast in a wheelchair disabled, couldn't walk for nine years. She came to three meetings. Each meetin' I said, "You come next time, we'll keep believing for you." The fourth meeting, she just, she got out of the wheelchair and walked. Still healed today.

SID: One time, you asked God, "How are all these great miracles happening?" And you had a vision.

JOHN: Yeah well I, one time in Scotland we just saw the pastor went from having, like a handful of people, to a church overflowing. People couldn't get in the door. Miracles go out, newspapers coming, and reporting the miracle, different newspapers. And what happened was that, one time I was, they brought a lady, she couldn't walk, they carried her in, her hands were like claws. Her feet were clawed up, she had chronic pain, nerve pain, arthritic, she was from about eight years disabled. And they had to carry her in and they sat her on a chair. And as I laid hands on her, I just touched her hands, same as a rosebud would open when the sun comes up, you know, her hand just unfurled. Her legs unfurled. And she walked normally, totally healed. And so, and so the next day, I was sitting in the church, I told the pastor, "I'm tired. Just have a normal service." I'm sitting there, you know, asking God, "God, how did that happen last night? "Are you...? What happened?" You know, I don't really ask God, "How did that happen?" And you know, I don't always get visions, but then God showed me such a clear vision of the night before, I'm standing there, they bring the lady up, they carried her up, hands all look like claws, her feet are clawed up. And then I saw in the vision, as I reached over and touched her, then, I saw Jesus next to me, and as my hands reached out, his hand moved with mine. I thought...

He's... It's so real, it's so real. We don't always see the spirit world, but if we knew how close he is. And, you know, we are the hands.

SID: Okay, okay but wait, people look at you and they say, "Okay, he's got it." What do you say to them?

JOHN: Well you know what? I don't have it. But I have Jesus. I don't have it. And you know what? And the people who know me would know, "That can't be John Mellor!"

SID: —

JOHN: It's gotta be, it's Jesus. You know what, it's by, I found this Sid, one thing I learned amongst Aborigines, it's simple, child-like faith, it's so simple it's difficult. People often over-analyze. People out there, I wanna tell you, you often, you often over-analyze everything, it's so simple, it's easy. It's so, so simple. The Bible says, "Lay hands on the sick." That's it. "Lay hands on the sick, they shall recover." It's not complex, Sid, it's simple.

SID: You know what, when we come back, and this is what I love about this guy, he makes it so simple but that's the way. Look, didn't Jesus say, "Become like a little child"? We'll be right back, he's gonna pray for us.

*We now return to **It's Supernatural.***

SID: So, John, if I was to say to you, what is the biggest reason for miracles? Answer that.

JOHN: Well the biggest reason for miracles is very simple, it's that Jesus is alive. Jesus risen from the dead. The same Lord that walked this planet 2,000 years ago, he is here, he is alive, he never changes, man changes, but he does not change. The same miracles, from Genesis to Revelation, the same power of God has not changed. People change, but he never changes. That's why miracles are the same today.

SID: I want you to prove it. I want you to pray for people, as God directs, even pray for an impartation.

JOHN: Yeah.

SID: Of the anointing God's put upon you, go ahead.

JOHN: Okay. Right now, I wanna pray for you right now, the power of the Lord is present to heal.
