

Hello. Sid Roth here. Welcome to my world, where it's naturally supernatural. My guest, not only did she have cancer, but her mother died of cancer. That's why Jesse and Amy Shamp developed a supernatural compassion that led to authority over cancer. Not just cancer, but all sicknesses. They are forerunners that teach how to release miracles in the glory. Are you ready for miracles in the glory?

*Is there a supernatural dimension, a world beyond the one we know? Can we tap into ancient secrets of the supernatural? Can our dreams contain messages from heaven? Is God ready to bring a tsunami wave of healing onto planet earth today? Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: You know Jesse and we had a couple of meals with you and Amy. It's hard to believe but at 14 you overdosed in drugs and alcohol, you're rushed to the hospital. What did the doctors say about what was going on?

JESSE: Well, I came a half an hour away from death. It was a really close call. It was a miracle my father found me in time. See, I was raised in a Christian home, Sid.

SID: You told me you were running from the call of God.

JESSE: Yes. I was—

SID: Not walking, running.

JESSE: I was running. I was much like Jonah, I was running. I kept running, even after my overdose. I was in and out of jail, I was in and out of rehab. Twenty years old, Sid, I found myself in a jail cell. I told the Lord, "I surrender. Whatever you call me to do, I'm going to do it." That was the greatest decision I ever made.

SID: The judge said, "I'll tell you what. You can either go to prison or you can go this place called Teen Challenge." You're not a dummy, "I'll go to Teen Challenge."

JESSE: That's exactly right.

SID: What did that do for you?

JESSE: After I got out of Teen Challenge, I went into a season of extended fasting and prayer. I just began to seek the Lord. Day after day I would pray in the Holy Spirit. I was really challenging myself. I would go into my prayer room and I would pray one hour. The next day I'd pray two hours, then three hours, four hours.

SID: What happened to you? Tell me some of your experiences.

JESSE: The Holy Spirit visited me and it was so strong, it was so powerful. The fire of God just came on me. I remember that fire coming in my hands. It felt like the love of God. It was the overwhelming, consuming fire of God's love. I was just totally wrecked. I remember just crying

out for souls and asking God to send me to the nations. And then I began to ask the Holy Spirit, "Teach me how to worship." The Holy Spirit started teaching me about worship, and how to minister to the Lord, and how to just praise and worship the Lord. As I did, Sid, every day that I would go into my prayer room, the glory cloud would build more and more each day.

JESSE: One day in my prayer room I said, "Lord, I want all that you have." I was so hungry, and I was desperate in this season of fasting and praying and just contending. I had this vision of this white cloud that came out of heaven, and it rolled over my body. I mean, it just ... I was engulfed in this cloud. This encounter was so powerful, Sid, so intense, I told the Lord, I said, "Please make it stop. I just can't handle anymore," because I really felt like I was going to die in the presence of the Lord or be translated like Enoch.

SID: Amy, is that true? In the meantime, she's got her own life going on. They weren't married at the time, obviously. You're pretty young, you're 17. Your friends were, I guess, lovingly kidding you saying, "Calm down a little. You're going too far with God." Why were you going so far to the point where it intimidated them?

AMY: Well, I grew up in a small town, population 4,000 in Alabama. I didn't really know anything about the supernatural or miracles. But I knew that there was something more, I knew that God had more for me and I was hungry. Hunger will take you places that nothing else can. I got filled with the Spirit when I was 17 years old. My friends were just ... I was so hungry for souls I would go out and buy Bibles and give Bibles away. I was praying in the Holy Ghost and they didn't know how to take that. Yeah, they said I was too saved is what they would call it.

SID: Tell me about the first time you were asked to speak at the church.

AMY: I was 17, I got filled with the Spirit. Within a month I was asked to speak at my church. I shared just what I knew, my testimony. Young people were coming forward to me weeping saying they had never felt God like that before. That's when I knew that God had a call on my life to preach the gospel.

SID: This is happening to her, and she's really pursuing God, and she finds out ... actually, it was a miracle of God you found out you had a rare type of cancer.

AMY: Yes. Absolutely. Within a year after I was filled with the Spirit, I got diagnosed with cancer. The doctors actually said it was a one in a million chance that they would even find the cancer the way that they did. Although I didn't know anything about divine healing, thank God for medical doctors because I believe God heals both ways. I actually became a cancer survivor, but I really felt that the enemy was attacking me in the very area that he had called me to, which was miracles.

SID: Not only did the devil try to take her out with cancer, she finds out her mother has terminal cancer, but she is a great woman of God, and her husband is a great man of God. It didn't turn out the way they expected. But because of what the devil tried to do to her, because of what the devil did to her mother, they have a passion to get you free of any terminal disease, but especially the one that begins with a C. Be right back.

SID: Jesse is on fire for God, Amy is on fire for God, and Amy has a dream about her future husband. Tell me about the dream.

AMY: Just shortly after I was filled with the Holy Spirit, just one night I had a dream and it was so vivid. In this dream I was older, and I was in ministry, and I was married, and I was in another country. We were doing missions and evangelism and church planting in this other nation. I saw exactly what my husband looked like in the dream.

SID: And then he shows up speaking at the church you're at and you realize he's the one.

JESSE: Lucky me.

SID: What did you do about it?

AMY: Actually, we didn't actually meet when I first saw, but I saw him and I knew instantly, I thought ... I was shocked to find that he looked just like the man in my dream. I actually called my mother that night and told her about Jesse. Later, when Jesse and I actually began dating, I called her and she said, "I remember you calling me and telling me he looked just like the man in your dream."

SID: Listen to this, they get engaged and they both hear the same thing. Jesse, what did you both hear?

JESSE: After I proposed to Amy, we went back to the place we were staying and we started to hear angels singing. We started to hear this beautiful music. We were trying to figure out where it was coming from, but there was no TV on, there was no radio. We both looked at each other and we knew that it was something supernatural.

SID: Six months after they get married, tragedy hits her mother. She has cancer. I imagine the first thought you had was, mom, we're going to defeat it.

AMY: Yeah, right. We had actually gotten married and started our ministry. We were traveling and ministering and preaching. We were laying hands on the sick and people were being healed. Six months later, my mother gets cancer. It was such a battle. I had to keep traveling and ministering. She passed away, unfortunately. But after that, Jesse and I really began to seek God. I felt like it was a holy anger that rose up within us.

SID: I can understand.

AMY: It was almost like revenge on the enemy. We actually came into agreement and I said, "We're going to seek God for the keys to seeing cancer healed."

SID: And then you had a dream.

AMY: Yes. As I was seeking God, fasting, and praying, one night the Lord answered me with a dream. In this dream I was actually, I saw this huge snake. It was just ... probably the head was this size. I was dragging this snake along by its tail. As I was dragging it, I found a sword. I picked up the sword and in the dream I cut the snake's head off. In the dream I knew that it was the spirit of cancer. Jesus actually says, "I give you the authority to tread upon serpents and scorpions." And then in Ephesians it talks about the Armor of God and the Sword of the Spirit, which is the word of God. As I began to pray into this dream, the Lord began to give Jesse and I the keys and the revelation to the authority that we have in the word of God over sickness and disease.

AMY: We've had so many people since then healed of cancer, of tumors. But one time we were ministering in Milwaukee and the pastors brought a woman to us. She said she has stage four cancer. She's been given six weeks to live. The doctors have told her to go home and get her affairs in order. It's a serious situation. Jesse and I look at each, and we just know, we're going to come into agreement by faith, and we're going to pray for her. As we laid hands on her and we prayed, we began to curse the tumors at the root. She had eight stage four tumors in her brain. We began to curse all eight of the tumors. Within a week and a half to two weeks, we actually got a testimony back that she had gone back to the doctors, and she was 100% healed. The tumors had disappeared. The doctors couldn't explain it and she was healed.

SID: Jesse, one of the things that you operate in is the compassion of Jesus. Just tell me about a minute, teach me for a minute about the compassion.

JESSE: Absolutely. I've always loved that scripture in the Bible where it says that when Jesus saw the multitudes, he was moved with compassion. When Jesus saw the multitudes, he saw the blind, he saw the afflicted, the oppressed, those that needed miracles. There was a compassion that rose up in him to see the multitudes healed. I really believe, Sid, if we can bring ourselves to that place where we can develop the same compassion, we'll see a greater release of God's power as a result.

SID: When we come back, I want you to teach on Miracles in the Glory and pray for impartation of the compassion of Jesus.

SID: You had this vision of the glory of God. Tell me about it.

JESSE: Yes. I was really seeking the Lord about the destiny for America. I was asking God, "What do you have for America?" I had a dream. In this dream I saw a stadium revival in America, stadiums filled with thousands of people. The glory of God filled these stadiums, Sid. It was just powerful. It wasn't even like a dream, it was like I was there. I looked upon the platform and I saw men and women on the platform and they were ministering out of the glory of God. They weren't just ministering out of the anointing or laying hands on people, but there was a corporate anointing, a corporate glory and miracles were easy.

SID: Tell me about one meeting, either a few, where there was this corporate glory where miracles were easy. Pick one.

JESSE: I'll share one. I was in Fargo, North Dakota, I was on my way to a meeting and I slipped into this vision. I saw the hand of the Lord. I knew that to be the hand of the Lord, the glory of God. Habakkuk talks about the hiding place of God's powers in the hand of God. The Lord spoke to me and he said, "Jesse, don't lay hands on anybody in the meeting, but just out of the glory they'll be healed." I got to the meeting and I just, I declared miracles. There was such an atmosphere of God's power. There was a woman that was healed from having a hernia on her side for 15 years that instantly vanished in the glory of God. That's awesome.

SID: I would like the two of you to pray for compassion and pray for a release of miracles in the glory. Would you do that?

JESSE: Yes.

AMY: Absolutely.

JESSE: Absolutely. Father, we just thank you right now for those watching. We pray that the glory of God would enter into their home. That you would touch them. That you would heal their bodies, Lord. We pray an impartation for compassion. Lord, the overwhelming fire of your love, Lord, that they would be stirred with compassion to pray for the sick and minister to the sick. In the mighty name of Jesus, we pray the healing glory of Jesus to enter into their homes right now. We bind sickness, we bind disease. Father, we thank you for your cloud touching them, your healing power healing them right now.

AMY: Hallelujah. Father, right now we just thank you for your glory, that your glory would overwhelm every viewer right now. In the name of Jesus, just allow your cloud to surround them, your love and your glory to surround them. Father, right now we just declare miracles, we just speak to their bodies right now out of the glory and we command their bodies to be healed right now. I even felt the heat in my right ear. Father, I thank you that you're healing ears, you're restoring deafness, you're opening deaf ears right now in Jesus name. I feel like there's a woman watching, and you're wearing a red shirt, and I heard the name Karen. I believe you're 36 years old and you have cancer. Father, I thank you for touching her body right now, touching Karen right now in the mighty name of Jesus. Healing cancer, healing tumors in Jesus name.

JESSE: Yes, Lord.

SID: I believe you two could agree for anyone with cancer right now. You pray as if you're praying for one person, and you command that, you called it and I agree, a spirit of cancer.

JESSE: Yes.

AMY: Right now we just come into agreement. Everyone watching that has cancer right now, we take authority over that spirit. We thank you for the life of God right now just flooding into their body. The light and the light and the glory of God right now to overwhelm them and touch their bodies. We command their body to be made whole in Jesus name.

JESSE: Yes, Lord. We curse every tumor right now in the might name of Jesus. Every brain tumor, every tumor right now in the name of Jesus, we command it to bow. We command it to bow to the name of Jesus. We loose the healing anointing right now.

JESSE: I really felt strongly, Sid, to take authority over deafness. Father, we thank you right now. Those that are battling deafness, we take authority right now over deafness. We command ears to open in the name of Jesus. We command eardrums to be restored. Father, even missing ear drums, we just speak new ear drums. In the name of Jesus, we command ears to open in Jesus mighty name.

AMY: Thank you, Jesus.

SID: In the glory you can have your own experience with God. If you will say this prayer, mean it to the best of your ability, I tell you, you are about ready to walk into your own experience with God. Repeat this after me out loud in your home, in the studio audience. Dear God—

Audience: Dear God—

SID: ... I'm a sinner.

Audience: ... I'm a sinner.

SID: Against you-

Audience: Against you-

SID: ... and you alone

Audience: ... and you alone—

SID: ... have I sinned.

Audience: ... have I sinned.

SID: And God, you're too good.

Audience: And God, you're too good.

SID: I'm so sorry.

Audience: I'm so sorry.

SID: I believe-

Audience: I believe-

SID: ... that Jesus came-

Audience: ... that Jesus came-

SID: ... and shed his blood-

Audience: ... and shed his blood-

SID: ... so that you can wash my sins away.

Audience: ... so that you can wash my sins away.

SID: And I have a new start in life.

Audience: And I have a new start in life.

SID: It's my new beginning.

Audience: It's my new beginning.

SID: And now that I'm clean-

Audience: And now that I'm clean-

SID: ... Jesus, come inside of me.

Audience: ... Jesus, come inside of me.

SID: I make you my Lord.

Audience: I make you my Lord.

SID: I want my own experience with you.

Audience: I want my own experience with you.

SID: I love you, Lord.

Audience: I love you, Lord.

SID: Amen.

Audience: Amen.
