

*Hello, Sid Roth here. Welcome to my world where it's naturally supernatural. My guest fights to set people free with a warrior Celtic power. Ready to be released to a new level?*

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

**SID:** You are going to love my guest. Emma Stark is a prophet. As a matter of fact, as a young child at six, you were in a home that didn't understand the supernatural. They loved God, but they didn't understand the supernatural. In fact, they thought it was finished, but at six, it's almost like your eyes started opening. What did you see?

**EMMA:** I'm fourth generation preacher, this godly legacy, but it was Father and Son and Holy Scriptures. We had no idea who the Holy Spirit was at all. I remember being in school and see like, in the canteen, a whole wall full of faces watching me, which I know were watcher angels and watcher demons. I remember writing to my mom and dad saying, what is this, what's going on? I grew up in Northern Ireland. It was the time of the troubles. There were bombs. There was the IRA. There was shooting. My father was a clergyman in the church at the time. I would say to him, dad, dad, I think there's going to be a bomb go off. Dad, dad, I think so and so is going to be shot. That phone call is going to be somebody telling you that this person in your church has been murdered.

**SID:** Now you got born again at about six.

**EMMA:** I was born again at six.

**SID:** However, at 18 something very dramatic happened.

**EMMA:** Yes, well that was when I got filled with the Spirit of God. I'd left home. I'd gone to study at university and I was just, oh, I was hungry. The Holy Spirit fell on me. I passed out on the floor. I went straight into this extreme, open vision. There were chariots and angels, coming out of the sky towards me. I was speaking in tongues. Couldn't move for hours and had to be carried back to my room. I thought, well, that happens to everybody. Doesn't happen to everybody? It—doesn't everybody know when the bomb's going to go off. Doesn't everybody know when there's going to be somebody shot dead? It wasn't until later that I realized that is not everybody's experience. However, it should be, it can be. I believe that God is calling people into that place where they can be wildly encountering their God.

**SID:** You said to me that every believer, whether they're six years of age or whether they're 96 years of age, if they have never operated in this supernatural or never operated in what is known as words of knowledge or prophesy, you're saying everyone can do this. Not only are you saying it, you will equip people to.

**EMMA:** Oh totally and I think we have got to get over our nonsense on our false humility and our low self esteem that we just continually disqualify ourselves. You know, we're children of the Most High God. And the word of God is clear. You can all prophesy. I believe that it's not just the...about, oh, can you hear wee sweet words and go there, there. You know, aren't you

lovely and God just thinks you're awesome. I actually believe it's more than just activating people to hear God, it's activating people to be weapons in the hand of God.

**SID:** You know what is so wonderful, is you not only operate this way. You not only have equipped thousands to operate this way, but what you raised your children when they were little to operate this way.

**EMMA:** They blow my mind and I think children are so easy to teach, and we've raised them in this supernatural environment. Let me tell you a story about my gorgeous daughter. So she's 17. Last year she said to me, mommy, I want to travel the world with you. I want to prophesy. I said, Jessica, you can travel the world as long as you can match me toe to toe on a microphone, on a platform. So you need to prove to me that your prophetic skill is at a higher level. And she's like, I'm going to show you mommy. You know? So she went onto the street. She found the most demonized looking person she could. She said, mommy, she was head to toe in black. She had demonic nail polish and demonic jewelry on. She had her friend with her. She said, I walked up to her and I said, I believe in Jesus and Jesus wants to talk to you. Well, the lady looked shocked and said, I am not interested in Jesus. I'm a witch. I'm part of a satanic covenant.

**SID:** When you heard that, were you fearful that your daughter had bit off more than she could chew?

**EMMA:** No, I think because it's not just that we've trained them to prophesy. We train them to heal the sick. We train them to cast out demons and actually I think that the younger they are sometimes the better at deliverance they are, because they're in such a purity of faith. So at that point I'm like, go get her girl. You know? So Jessica said to her, I believe that Jesus wants to speak to you and I'm going to try to persuade you out of your satanic covenant.

And so she was like, I'd like to see you try. Jessica said this to her. You've just been diagnosed with breast cancer, haven't you? The woman just looked stunned.

**SID:** And you're telling me any believer can do what Jessica did?

**EMMA:** This is a 17 year old and she's navigating the usual stuff of high school. And you know, all the nonsense that our children have to face. And she said to this lady, put your hand on that lump, that cancerous lump. You're going to feel it dissolve as you touch it as a sign of how much Jesus loves you. That woman got healed of breast cancer in the street by a teenage practicing and trying to prove to her mom that she could hear the voice of God. Don't you love it?

**SID:** I love it. I'm going to tell you something, anything that Jessica can do...

**EMMA:** Yes.

**SID:** ...Anything that you read about, or you see on my show, the guests do, you can do better. How would you like Emma to pray a prayer over you and your family to walk in that same power, that same boldness, the same authority that she and her family walk in. Next.

*We now return to **It's Supernatural**.*

**SID:** Emma, you have told me the most amazing stories that you go with your husband and family to new age fairs. You have dialogue with witches and warlocks. Tell me about this.

**EMMA:** Oh, I love it because we are so unimpressed with darkness. We have got to get that mindset. We are unimpressed with darkness, and I think when the word of God says the end of time, when we look at Satan and we go, is this it? I mean, is this the worm that tormented the world? We need to get that Holy Ghost swagger right now that goes, I am all-power filled full of authority, supernatural force of God.

The real deal, heavyweight warlocks, they would cut their taro card decks. They zoom past throwing their curses. We would say, well, all the best with that because I'm not deserving of a curse. So that's not going to land on me. We don't believe in the concept of demonic backlash, because if I have all power and I have all authority, it means the devil has none. I am not giving my authority away to Satan by believing he's got some kind of right over my life.

So we went to have people just flock to the stall and the head of the site—

**SID:** Is that new age fare?

**EMMA:** In the new age fair, so much fun. We had this gentlemen come and he was the head of the psychics or the mystic healing association of Scotland. He kind of sheepishly came and he said, I've tried every Reiki practitioner in the place. I'm in extreme pain. He said, I like your aura. And I'm like, my aura. That's the Holy Spirit. Well spotted. So I said, we're going to get your ankle well. We didn't even pray a word. It was just the atmosphere of God and the force of God that comes off his saints. And he's like, what are you doing? What are you doing? And he was completely healed before he even sat down.

Can I tell you a shoe shopping story for all the ladies out there?

**SID:** Oh, of course. They would be upset if I said no.

**EMMA:** If we don't have a shoe shopping story, because I really feel-

**SID:** We'd exclude all the women if there's no shoe shopping story.

**EMMA:** I really feel like there's, God loves shoe shopping. That's my personal belief.

**SID:** Just like the Irish accent.

**EMMA:** Yes, yes. So I was shoe shopping and the Lord just, look the point of this is we need to be hearing from God as an everyday occurrence, not just for the church platform, not just for those moments where we feel like I fasted enough, I've prayed enough. I've got Holy Spirit goosebumps. It's in the every day of shoe shopping, which for me should be everyday shoe shopping. And so, I've got the shoes in my hand and I hear the Lord say, go and prophesy over the wee lassie behind the till. And so I joined the queue.

**SID:** The wee lassie behind the till. You got that? Good. That's okay. Go ahead.

**EMMA:** That's okay. I joined the queue, line. You say line here in the States. And there's quite a long line. And there's lots of checkout operators open. And God orchestrates this moment where the line kind of disappears and all the checkouts shut. It's just me and this young girl, and God just orchestrates this moment. So I hand her my shoes and I say to her, hi, my name is Emma. I'm a prophet, I hear from God.

She gives me that kind of funny, Oh, I've got a weirdo alert here. But I say to her, the Spirit of the Lord says you're going to be a really good mom. She starts to sob. She says, I've just found out that I'm pregnant. I have told nobody, not even my boyfriend. She said, I got on my knees this morning for the first time ever. And I said to the Lord, tell me whether I should go through with this abortion or not this week. If you're real, God, give me an answer. And she says, if God says, I'm going to be a really good mom, she says, I'm going to ask for time away from work for five minutes. I'm going to go and I'm going to counsel my abortion right now. And do you know, that is exactly what that young lady did. And that was a word of the Lord shoe shopping.

**SID:** Emma, you have the most sensational keys that you teach to walk in the power and prophecy and words of knowledge. Tell me one or two of these keys.

**EMMA:** Some secrets. Yes. I think we pray in tongues a lot. And if you don't have the gift of speaking in tongues, you need to ask for it right now, as you listen to this, because tongues is like a motor, like a generator. The more you speak in tongues, the easier it is to bring a word to the Lord and revelation. But more than that, because Jude says, build yourself up in your most Holy faith. The more you pray by speaking in tongues, the more you pray in tongues, the more you get built up. It's a faith builder. We actually have evidence that when we get sick or unwell and we pray in tongues, the sickness just disappears like that because of the nature of how that gift starts to build up and establish you in strength.

So that's a massive top tip, but the key to this gift above everything else is practice. If you don't practice, you will always hit a glass ceiling. It does not matter how much you pray, how much you fast, unless you have got to the place where you put the English language or your language on the moving of the spirit, then you will always be capped. I worked in pharmaceuticals for years and I used to drive around in my car with my legal drugs in the back. And I would drive past people at rep speed, and I was never going to see them. I was never going to talk to them. I didn't know who they were, but I would allow God to highlight somebody out the window of the car. And I would start to put English words on what I felt the spirit of God would be saying to them. Should I ever have a conversation?

So I spent hours doing that, just practicing. What does it sound like if you were actually in front of me? So when I came to the point with somebody was skin on, I already had hours of practice tucked under my belt. Now I'm perpetually frustrated with my own prophetic level. I don't know a prophet who ever feels they've arrived. So I practice. I walk my dog in the park and I'm saying to the trees, trees, do you know what God is going to do in this area of Scotland? I fly in the airplane. I say, do you know what God is going to do over the nation I'm flying over. Why? Because I'm continually in this practice place. So that when it matters, when it's a queen, when it's a politician, when it's a UN ambassador, that I have practiced enough to know what God actually thinks in an instant.

**SID:** There are people watching us that say, I need what that woman's got. I need to know God. I need to experience a living God, not a God just that in a prayer, which may work or may not, not religious type stuff. I need this. And here's the good news. God wants you to know Him more than you want to know Him. And God wants me to tell you that if you will pray a prayer, he will supernaturally remove every bad thing you've ever done. It just, it won't exist in His books. And then he will fill you with Himself. And then he will give you a beautiful word, it's called grace, a gift in which you can walk free of many of the situations in your life that you wish you weren't involved in. And then you can finally have what we Jews call shalom. Peace.

Pray this prayer after me out loud, your home and studio audience, and mean it to the best of your ability. Dear God, I've made many mistakes in my life for which I'm so sorry. I believe the blood of Jesus washes all my sins away. And as of this moment, I have no past, I only have a wonderful future. And now that I am clean, Jesus come and live inside of me, be my Lord. I mean it, be my Lord. Fill me with your spirit. Give me that Shalom. I love you God, Amen. Pray for the release of power, authority and anything else.

**EMMA:** My pleasure. Let me just say to you, lovely people watching this. There is no difference between you and I. There is as much Jesus in you as there is in me. And the only difference that we have is that I've practiced the art of listening to God. And so I'm going to release two things. I'm going to release you into a lifestyle of practicing the presence and practicing hearing his voice. I'm going to loose such a surge of courage in you that people are going to go, what happened to you? You're so changed. So I want you to raise your hands, my family. I want you just to grab hold of this as I release it to you. Okay? So in the name of Jesus, who is King above all Kings, I loose you into the deep waters of a lifestyle of revelation, of what I know of practice, of what I know the day to day art of hearing his voice, but that to right now, you grab it and they become your reality.

But more than that, every bit of low self-esteem, every bit of intimidation, I break off you right now. I loose to you, this surge of supernatural boldness, this confidence in your King. And I say, warriors awake, warriors come alive. Warriors be established across the nations as those who know what it is to rescue the lost. Those who fight till the kingdom comes. Those who are pioneering and cutting edge. And I hear the spirit of the Lord say, I am giving the pioneers back their cutting edge. I am going and grabbing them even from the places where they've gone to sleep. The Lord says there is a supernatural alarm clock that is going off in the spirit realm. Can you hear it? And the Lord says, I am giving you back your wild undomesticated side again. And you will be those who were like a whirlwind go across nations.

And the Lord says, my power will sit on you like never before says the Lord. And so this is a whole commissioning. This is not just a prayer. This is a commissioning. And so I loose to sit on your shoulders, a re-commissioning to go again, impassionate wild, first love, a commissioning as a warrior, the Lord says, I'm picking you up from where you are and I'm putting you back in my army. See you have warrior angels to the left and the right of you. And I establish you fully in the squadrons and battalions of my army, says God. And I say advance. Amen.

**SID:** Advance.
