

**SID:** Hello, Sid Roth here. Welcome to my world where it's naturally supernatural. Is the brainwashing, which is occurring in America right now, equivalent to Hitler's Germany? Next...

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of, **It's Supernatural**.*

**SID:** Now my guest, Dr. Jennifer Clark is a scholar PhD and has authored a dozen books. Dr. Clark, the title of your book, and you say, *Satan is a Socialist*. Why do you say Satan is a socialist? Those are inflammatory words.

**JENNIFER:** Well, Jesus explained to us exactly what the enemy does and who he is. And Jesus said that he's a thief and he comes to steal, kill, and destroy. And he also, speaking to the Pharisees said, Satan was a murderer from the beginning. So socialism communism goes from looking like it's going to be a wonderful Utopia, but for the poor people who get caught up in the grind of it, they end up being murdered.

**SID:** Give me some graphic example.

**JENNIFER:** Okay. Back in between 1900 and 1999, communist mega murderers killed 161 million innocent men, women, and children around the world. Their bodies would circle the earth more than four times. The entire globe, there was so many they-

**SID:** Well, what causes... I know it's the devil, but what's the catalyst that would cause this supposed Utopian society to end up in murder?

**JENNIFER:** Well, for one thing, they planned it beforehand.

**SID:** Really?

**JENNIFER:** Because you have to come in with something violent that'll shake people to the core, to be able to implement socialism communism. Why do you think so many people tried to get out of Cuba after the communist revolution? Why do you think they have guards all around North Korea so that nobody can leave? It's because our human spirit is attracted to freedom. And so many come to America. They're looking for freedom. They're looking for a chance, but the horrific things that were done in the name of communism, it could only be called devilish to let you know what a murderous spirit is behind this. Now, after Mao Zedong died, Deng Xiaoping came into power and they were being crushed because can you imagine a bureaucracy, an inefficient bureaucracy coming in to run an economy?

**JENNIFER:** Just imagine what it would be like here in America if our grocery stores were run like the department of motor vehicles, the DMV. We'd have to wait in long lines to get in. We'd finally get in and they wouldn't have the product that we want. There'd be shortages. There might even be rationing, but Deng wanted to have a country that looked like it was prospering because he wanted a place in the world for China. And so they started adopting some capitalistic practices and sure enough, you see that China is now an economic power, but the murderous spirit has not left them.

**SID:** Now you see why the title of the book, Satan is a Socialist, but then I have a question for you. Since nice people come on TV that are politicians, at least they appear nice. Bernie Sanders and others and they advocate something called democratic socialism. Is it nice? Is it going to end up like that?

**JENNIFER:** Well, you have to look at the spirit behind it and the ultimate fruit that it will produce? That's what Hitler had, a democratic socialistic country.

**SID:** Is that what Bernie....

**JENNIFER:** Yeah, the democratic socialism. That means that the citizens have some rights like they can vote.

**SID:** Mm-hmm.

**JENNIFER:** And there's some private ownership of property. But what Bernie is talking about does not exist.

**SID:** Well, what about this fellow, Bill Ayers? Where does he fit in?

**JENNIFER:** Okay. Now, we have think back to the late sixties and early seventies, when there were all the demonstrations and riots and bombings of police precincts and all that. Burning the flag became common back then. Our soldiers were being spit on when they came back from Vietnam. Bill Ayers was involved in the Weather Underground. One of the most successful, radical Marxist organizations of that era. Now, all socialist and communist don't just go away. So what did he do? He went to graduate school and he is now a Professor at Columbia University where he is now teaching our college students to be good little Marxists. And he was also one of the advisors for Antifa, teaching them how to fight, how to riot. How to—

**SID:** He said something about how many people had to die in order to get their agenda? What was that quote?

**JENNIFER:** Right. Right. He said, he was talking to somebody, an FBI informant who had infiltrated, the only one who ever infiltrated the Weather Underground. And Bill Ayres would sit there. And he said that he estimated to bring America under control in the Marxist revolution that was coming, that it would take the killing of 25 million Americans.

**SID:** Jennifer, I hear a lot of terms floating around and I'm having, even myself, difficulty distinguishing Marxism, communism, socialism. Are they connected? What's the difference between these terms?

**JENNIFER:** The truth is they're connected and they're different terms for essentially the same thing. Now, Karl Marx himself said that socialism is a step on the way to communism. So communism and Marxism are exactly the same things.

**SID:** Now, why is it that it seems as though the leaders in socialism worldwide are the young people? The young people, they're idealistic. They see a utopia coming for the world, but what is going on with them? All of a sudden, if you've been to our education system, you're a socialist.

**JENNIFER:** Well, for one thing, it is deliberate brainwashing that's taking place in our schools. If you go look at the textbooks that the teachers are being trained with in teacher's colleges, they actually encourage what they call a social reconstructivist curriculum. So it's all planned out on how to go about the brainwashing and what they do with our children, is they teach them the Utopian, philosophical, beautiful dream that they see behind socialism communism. And I do socialism communism as one entity. They don't teach the concrete realities. They don't teach that it's never worked. They don't teach about the horrors that take place in Communist countries. It would give you chills if you know some of the things that have taken place in the 20th and 21st centuries.

**SID:** So you're saying that they have a lot of facts?

**JENNIFER:** Right.

**SID:** But they're facts from a prejudicial viewpoint without the facts of what is historically occurred. But yet some young people will say to me, Jennifer, it's working Sweden and Norway and this part of the world.

**JENNIFER:** Okay. We need to explain what is going on in the Nordic nations, the Scandinavian nations. It's a very unique flavor that the basis for the economy in these nations are mostly capitalistic, but they have very high taxes and a lot of entitlements. The bad thing about it is that it crushes the initiative out of people because there's no real way to get ahead to better yourself. We talk about the principle of upward mobility, which means that if you're come here as a poor immigrant, you can work hard. You can get educated and you can actually come up and be part of the middle-class. There are two ways that socialism has been introduced. Now, in the case of North Korea, they were fighting a war.

**JENNIFER:** The Soviets had North Korea, and then there was South Korea. The Americans were controlling that part of the war. And so suddenly North Korea was plunged right into communism. They had Kim Il-sung was the leader that they taught the people to worship because, see, socialism communism is not just an economic philosophy. It is a religion. This is why they had the statues of Marx and Lenin. They were worshiped. Kim Il-sung was worshiped. So they make themselves god. Now tell me that, that comes out of a godly philosophy. To make a person, a leader, a dictator, your god.

**SID:** Tell me some of the promises these young people are looking forward to and they're going to be devastated someday?

**JENNIFER:** Here is a system that they're being told is going to give them free health care. They're going to get their student debt wiped out. They're going to get all this stuff, but they're not told the horrors of it and the problems with it. And so there also the term social justice, they think there's going to be—

**SID:** It sounds good.

**JENNIFER:** It sounds good. But a couple of researchers, they're going around and talking and saying, "Well, what do you say to them? What interests them?" Why all these social issues at a conference on socialism, you're not talking much about economics. You're talking about climate change, free abortion rights and all this stuff. And they said that that is the gateway drug, these social issues. This is the gateway drug that they can pull them in while they indoctrinate even more and make them full socialist-communist.

**SID:** Well, many years ago I wrote a testimony book. It was called *Something for Nothing*. Well, I'm going to tell you something, there's a price to pay. Dr. Clark, you've talked about these wonderful utopian promises as socialism. What does it actually deliver?

**JENNIFER:** It actually delivers complete exploitation of the population like in China, government control of industry in Russia and China, lack of incentive for the people to work like in Spain and Greece, rationing of healthcare, just like in Canada.

**SID:** If Satan is a socialist, then was God the original author of the American dream? Be right back.

*We'll be right back to **It's Supernatural**.*

*[music]*

*We now return to **It's Supernatural**.*

**SID:** Jennifer, what is the American dream? And where did it come from?

**JENNIFER:** The American dream came from God, the architect of our freedom and what is contained in the Bible. Our founding fathers, Thomas Jefferson actually stated it beautifully in the Declaration of Independence, that God has given us the right to life, liberty and the pursuit of happiness. And the pursuit of happiness means that our personal dreams can be fulfilled within God's larger scheme of things, and they almost put property in there. So we have a right to what we produce from our labor.

**SID:** Now, does it include more than America in God's heart.

**JENNIFER:** It really does include more than America because it's really a human dream. Life prosperity, peace, freedom. He didn't create us to be slaves. He didn't create us to live cookie cutter lives, but he put a spark of divine creativity in our spirits.

**SID:** Dr. Clark, but let's go back to the early church. I'm reminded in the Book of Acts. It says that people that own big homes sold it and pulled it with the ones that didn't have anything. And so everything worked out fine. It sounds like socialism and communism to me?

**JENNIFER:** Well, let me explain to you what was really going on there. You see on the day of Pentecost, Jerusalem was filled with visitors, with foreigners, with people from other nations who had come for the feast. And remember the feast of Pentecost. These people had not left yet. And then Peter preached and 3000 people were added to the church. How many of those were foreigners? They had come for a brief visit. They didn't have jobs. They didn't have homes. They didn't have much money. They had just enough to get them by for a short while. And so they were in a unique situation that incidentally has never occurred since then. And we know that the church just kept multiplying and multiplying. And what happened was the Jewish believers in the Messiah would invite people to come stay in their homes and to get an entirely new start in life. So the church was only in Jerusalem for say about eight years and this was taking place.

**SID:** So that wasn't a forever thing. It was just short period of time?

**JENNIFER:** And they didn't give their money and possessions to the government. They laid it at the feet of the apostles. But as soon as the Gentiles started coming into the church and Paul and Barnabas became missionaries, then we were told, Paul said, "If you don't work, you don't eat." It's a different situation now.

**SID:** Okay. In your book, you have some brilliant tests from your book, like the comparison to capitalism and communism.

**JENNIFER:** It came from a supernatural download from God. But my burden was for the young children who are being deceived. The youth, the youth of America in particular that are being deceived in going Satan's way, instead of going God's way. And so those texts, God said, test it. It was an impulse in my prayer time, it was a download. He said, "I want you to test it by the history. I want you to test it by the source. Where did it come from? I want you to test it by the word of God and the words of Jesus himself. I want you to test it by the fruit it produces. And I want you to test it by life and death." And so the tests are comparisons between what does capitalism do? Where did capitalism come from? What does socialism communists do? And where did it come from?

**JENNIFER:** And it has changed so many young people. I do not know of a single young person who read this book without being brought over to God's side.

**SID:** Tell me about that waiter.

**JENNIFER:** Yes. A brilliant college student who wanted to argue with me about socialism. I had an early copy of the book that Dennis and I just found a place local to bind it. And I had one with me. I said, "I'll tell you what, I don't want to argue, but read this book and we'll come back to the restaurant and talk after you've read it." So before, he had been cocky and smug and full of himself. The next time we saw him, he said, "I cannot argue against this." And he was changed. He was humbled. He was a completely different person. And that was my test case from God.

**SID:** We've heard a lot, but you haven't heard anything yet till you read the history this woman has downloaded. Exactly what communism and socialism and all these "isms" are. But what's more important even than that is, you have to start hearing from God. And the first way is to

have your spirit touched with the love of God so that you don't know about him, but you have your own experiential knowledge with God, for yourself. Repeat this prayer out loud and mean it to the best of your ability and God will meet you. Out loud repeat after me. Dear God.

**JENNIFER:** Dear God.

**SID:** I'm a sinner.

**JENNIFER:** I'm a sinner.

**SID:** Against you-

**JENNIFER:** Against you-

**SID:** ... and You alone, have I sinned.

**JENNIFER:** ... and You alone, have I sinned.

**SID:** And I'm so sorry.

**JENNIFER:** And I'm so sorry.

**SID:** I believe...

**JENNIFER:** I believe...

**SID:** ... the blood of Jesus...

**JENNIFER:** ... the blood of Jesus...

**SID:** ... is my final day of atonement.

**JENNIFER:** ... is my final day of atonement.

**SID:** And I am clean.

**JENNIFER:** And I am clean.

**SID:** And now that I'm clean...

**JENNIFER:** And now that I'm clean...

**SID:** ... Jesus, come into my heart.

**JENNIFER:** ... Jesus, come into my heart.

**SID:** Take over my life.

**JENNIFER:** Take over my life.

**SID:** I make you Lord of my life.

**JENNIFER:** I make you Lord of my life.

**SID:** Amen.

**JENNIFER:** Amen.

**SID:** Jennifer, you said that there are people watching us that we'll be able to write that did not have the ability. I mean they could write, but they didn't have the ability as an author. There are people that are going to become speakers and communicate. They have difficulty putting two sentences together. You had something supernatural happen with you. You never thought in a million years you'd be a public speaker or writing a dozen or more books. I believe you can pray for people that want to be used as communicators even if they never have before. Pray right now.

**JENNIFER:** Yes, Lord, you want to reach the world. You want to reach this younger generation. I pray for these watching Lord, an impartation. I release an impartation of writing, speaking, communication in all forms, supernatural gift from God and Lord that you will give them divinely inspired notification of what they're to do. And Lord, I impart this gift now to hungry people. God's going to use you to write books. I'm seeing God placing... There's a woman with blonde hair, pretty young woman with blonde hair that's kind of curly and I see the Lord placing a pen like a quill pen in your hand. And it's a divine gift of writing. And I'm seeing a young man out there. You look maybe Indian, from India, but you live in America. And I see that God is going to use you in speaking, but he's also going to use you in producing films that are going to reach around the world.

**JENNIFER:** And many of you, the Lord is going to take you to school, to learn to be a better communicator. And the Lord is going to provide the funds. The Lord is going to reach the world. We're coming into an awakening and the Lord is going to use you. And there are those of you out there and you know that you're being touched right now and you are released. You're released. You're released. All that the Lord has downloaded into me, imparted into me. I release to you in Jesus name.

**SID:** Next week on *It's Supernatural!*

**Brenda Kunneman:** Hi, I'm Brenda Kunneman and God told me this is the decade of difference. The decade when God is setting his people up for blessing and celebration. It's time to position yourself for new levels of His blessing. This is your time. So join me on the next, *It's Supernatural!* with Sid Roth. Are you ready?

*[music]*
