

*Hello, Sid Roth here. Welcome to my world where it's naturally supernatural. My guest has had so many visions of heaven and she has learned so many heavenly secrets. Now, she's been charged to share these secrets so that you can implement them on Earth. Your faith will soar. Next.*

**SID:** Recently, Laurie Ditto did was on our other show, which can be seen on our online network, ISN called *Something More*, where she answered some of the most amazing questions about heaven. Questions that you have. Take a look.

**LAURIE:** Heaven is so much fun. It's so wonderful. Everything that we do in heaven has a lot more life excitement than here. So one of the things you will be learning, is learning about God, learning about the Bible. So, that's a lot of fun. The things that we currently do, maybe you're a baker or a painter. There are shops in heaven and people go and pick up your things. There's a lot of family time. There's family events, picnics. We go to all kinds of fun with each other. Heaven will be the best time ever, Bob, we're going to love it. That room was so intense. It had for lack of a better understanding, say a million TV screens of people and what was happening in their life.

**Bob DuVall:** Wow. That's interesting to picture that. Yeah.

**LAURIE:** Yeah, yeah. It was. And Jesus was focused on very hurtful things. Children who were human trafficked or people who were being abused. So he was very focused, being and supporting these type of situations, which that was overwhelming. And suddenly there was a group of people who were praising God and you know the scripture, "He inhabits the praises of his people."

**Bob DuVall:** Sure. Yeah.

**LAURIE:** It drew him right away and he just kept being with the hurtful situations that were going on. I was there in just a glimpse. It was actually Bob, too much what God sees every day, what he deals with.

**Bob DuVall:** I can't imagine... Yeah.

**LAURIE:** So one second was overwhelming for me. I saw my little dog from when I was six, seven years old. Her name is Snowball. Now, for people's pets. Two requirements. If you love it and take care of it, God sees that as now His, because love is a very powerful thing. So those pets are all in heaven. Also, Bob, I saw pets in heaven, beautiful dogs, cats, they're in heaven, but their owner is not. Their owner never came to the saving knowledge of Jesus. So those people are eternally separated from God. I had always grown up believing once the pet dies, it dies.

**Bob DuVall:** Right.

**LAURIE:** So it was a shock for me seeing my own pet there, which brings me so much happiness.

**SID:** Laurie, tell me about a vision that saved your life.

**LAURIE:** Oh yes. So there was this one vision where I was underneath some circumstances when it starts and I could hear the Lord say, "Where is she?" And I thought, "Where am I?" And an angel answered and said, "She's under these circumstances." And he said, "Stand her up." And right away, the angel stood me up and we began walking. I could see Jesus. He said, "Come." I was like, "Oh my gracious, come." So he wanted me to come up to him. And there were all these other brides, Sid. They were walking. They were walking towards him. And I was going there too. But my angel gave me a pathway, a less traveled pathway. And I thought, "Why would we go that way?" But I noticed my dress had stains and things on it. But I followed the angel because I figured He heard the Lord tell me come. There were people along that pathway that they had said they needed food.

I realized, I was the bride of Christ. I could give them things on my bridal march. So I decided that I would pray for them. And the Lord was hearing my prayer, who wouldn't? Which groom wouldn't give you on your wedding march, what you're asking for? So then, I realized if I look at you in the eye, I want all the people that I've looked in the eye. I want them to be a part of the wedding march. So I've asked Jesus. I asked him then and I asked him now, "Lord, if I look somebody in the face, would you give that to me as a wedding gift? Write their name in the Lamb's Book of Life?"

**SID:** Would you look at them right now? Those feeling...?

**LAURIE:** Please pray this prayer with me. "Heavenly Father, you're the maker of heaven and Earth and me. Thank you Father for sending Jesus Christ for me, for us. Oh, thank you. Thank you, Jesus, for shedding all of your blood to purchase me out of all my many sins. Thank you, God. Forgive me, Jesus, for sinning against you. Forgive me. Save me, God, from hell, from all of the black fire that's in hell and put me on the path that I will go to heaven, when I die. Give me your Holy Spirit to be with me, to help me to guide me. Be the Lord of my life. All the days of my life God, I want to be on this wedding march with you all the days of my life. And right now, I commit you're my savior. Take my life. I pledge my allegiance to Jesus Christ. I love you Lord and I grab a hold of the truth that I am a child of God. Amen.

**SID:** Laurie, these visions that you've had. Yes, they're for Laurie. One of them saved her life, but they are for everyone that is listening.

**LAURIE:** Yes, Sid.

**SID:** That's what's so exciting. It's almost like she takes some of the oxygen from heaven and brings it to Earth for you. Tell me about the vision that cemented your identity. What did God show you in this vision?

**LAURIE:** Thank you. Sid, I arrived in heaven with these two angels in uniform. They were wearing their wings and they were bringing me to the Lord and I could see Him. He was down like a meadow and there were people all around Him. And one of his angels there spoke to Him and said, "She's here." And I knew they were talking about me. Oh, I felt so wonderful. She is me, she's here. And He looked up and He wanted me to come quickly. So He started to come in. My angels wanted me to hurry. But as I looked down, I saw my dress and this dress is not a dress you want to have in heaven. It was the wrong color. But it wasn't about the color. It was so immodest. Definitely not a dress I would wear as a saved woman.

And I just wanted to cover up. I didn't want the Lord to come by and as He came close. It's like, He couldn't see the dress. He went to put His hand on my face. And when the Lord touches your face, so wonderful, but I didn't want that. I said, "Don't touch me." And instantly He got serious. He said, "What are the charges?" And I started to tell Him, "I don't believe I am who you say I am. I don't believe I'm important. I don't think I'm special." And it kind of that wave left. And He said, "Continue." And I said, "I don't believe in you, in what you say, I don't think you're going to do everything you said you're going to do." And it just kept coming out. And He said, "Continue." And he wasn't put off.

I said, "I'm a prostitute." Which shocked me. I would never done that. But I have done that. What I mean by that is that I have done things for the pleasure of people. I've said things in such a way so that they would like me.

**SID:** Been a people pleaser.

**LAURIE:** Yeah. But the Lord saw that in heaven, as I was no better than a prostitute. But then Jesus, He looked in my eyes and he said, "Laurie, that's who you were before I saved you. That's not who you are now. You're mine." I know who I am. I'm his. He marked me. He said it. And I choose to believe it. And when he said it, all this unbelief left me because I'm his and I liked that. I liked being his and I hold on to that because the devil wants to take that away. It's my identity.

**SID:** And when you read the full vision, when you hear her teaching CDs, there's like a transfer of what happened to her because the devil is overcome by the blood of the lamb and the word of your testimony and in your life. When she shares this, you'll have the same revelation that she had. Now, one of my favorite subjects, because I hear so little about is another vision you had. One that's not spoken of much in society. The fear of the Lord, tell us about that.

**LAURIE:** So in this vision, I arrived and I was snuggled on a bench. I now know it was also the throne, but I was snuggled in the bench of God. And we were in the room where men come to make their petitions to God, their prayer requests to God. And there was this fog between God and where the people could stand. I could see through the fog and I knew that's the fear of the Lord. This fog was the fear of the Lord and people were coming up and they would try to come up and get tired and think they weren't going to come. But there were some people that came all the way up. And what was amazing about this room, Sid, was the floor would light up. It would tell you the condition of your own heart. And you wanted it to be very bright where your feet...

And they were talking to God, very disrespectfully, demanding, and declaring things that God, he had no intention of doing and yet, they couldn't see God because they didn't have the fear of the Lord. If they had had it, this fog would have moved and they could have seen God because the fear of the Lord should be with us. When we talk about God, when we talk to God, when we want to come close to God, we need the fear, Lord. Not only is it the beginning of wisdom, but it allows us to communicate, to see God clearly. And I realized that those people coming up didn't have it. But Sid, I think I didn't have it either. I was snuggled on the bench, but I realized if you want to come to heaven and talk to God, you want to come to heaven, you have to have the fear of the Lord. We need to welcome that and pray for that and invite that into our lives because there's strength and power in the fear of the Lord. Oh, it's a gift. It's a real gift.

**SID:** Are you ready for Laurie to impart visions of heaven? Many starts seeing visions after she teaches, challenges or prays for them. Be right back. I'll have her pray for you.

**SID:** Laurie, Tell me about the vision you had of the blood of Jesus.

**LAURIE:** Thank you. I was in the throne room. I was bent down low and the Lord had assigned me a task and he was ascending to me through the floor, authority, and capability, and it came in the form of lightning and it would come over and it would get me and it would charge me up and it would pop me up and this wind would swarm me around and put me back down because I was not fully equipped yet. And that happened a few times. And then I was equipped and the wind took me outside of this throne room in this white fog came. I was so excited. I was so filled with so much joy and understanding I can do this, I took off running. And the angel that was with me started chasing me. And I started giggling and the angel, I didn't realize it Sid, but I was in training.

He was teaching me how to run and become to the point where I was breathless because when I was breathless, that's when the next jolt of electricity, this power, this lightning was going to get me when I was... And I needed it. It was a continuation. You can get more from heaven if you become breathless. So the angel was teaching me how to run with the task and the excitement. So I kept running until I had been trained. And then I got on an elevator with my angel and we were coming down. I was talking to the angel and I said, "Do you think they're going to believe me?" And he said, "God, didn't say for you to get them to believe you. He just said to go and make sure that they know." And I said, "Well, can I practice on you?"

And he said, "Okay." I said, "Well, when you were first saved and the angel said, "I've always been saved." I said, "Yeah, but I'm practicing." He said, "Okay, okay." I said, "When you were first saved, you were given this and I showed him this little thimble cup. You were given one of these. And inside of it is a drop of blood. It's the Lord's holy blood and you put your finger into this thimble cup and you pull it out. It will look like water and then you put it on what you

needed on because the blood of Jesus Christ, nothing is more powerful than the blood of Jesus Christ. And you need to put your finger in this and put it on whatever is your problem. You need a healing, you need a breakthrough, you need a holiness. You need the blood of Jesus Christ.

And the angel said, "You got it perfectly correct." And then the door opened up the elevator. And I was supposed to go tell the church, to tell the teachers and the preachers that we don't use the blood of Jesus. We don't even think about it and things can not happen. The power cannot happen unless you use what's in your cup and you don't have to worry that," Well, I only had one drop." Because for that situation, you don't need more than a drop. But when you come back with the next situation, there will be another drop waiting because God is going to make sure it's there.

And I knew when I came out, it wasn't about if they believe me, take this message to as many people as you can. Run, become breathless. Tell everybody that I can, that what's needed in the situation is always first foremost, always the blood of Jesus Christ. Nothing good happens without the blood of Jesus Christ. And it's our victory, it's what we need. And in that training, I enjoy telling people the truth about the power of the blood of Jesus Christ. There's nothing that that blood can't accomplish because it already did. When he shed his blood, he said, "It is finished." And with that authority, everything that God wants to happen can happen. If we will only believe and use what is true, the power of the blood of Jesus Christ working today.

**SID:** God loves to teach people how to enter into their own visions with God. And if she could teach a child, she could teach you. You'll love to teach children how too. Tell me about it.

**LAURIE:** I do. I do. I do. I tell children, every night you go to sleep, God doesn't sleep and neither does your spirit. So I want you to practice and then you'll know that it's God. You'll know that you're not working something up. So when you go to sleep at night, and it will work for grownups, but when you go to sleep at night, ask Jesus, come get me, take me with you. I want to be with you. And it's been remarkable, Sid. Children have told me about how God has taken them and shown them different parts of heaven. He's shown them the galaxies, things they're interested in and they know God. And once you know God, you're not going to depart from him. What you saw was real. And when they come back and tell me these amazing things, I want it to. I want to see what they saw, but when you see God, when you have a vision, when you know God, you're rooted and grounded in his love, that's never changing.

**SID:** Laurie, I want you to pray for an impartation. I want to have visions and dreams so like you. You want to have visions and dreams like Laurie. Laurie, would you pray?

**LAURIE:** Thank you. I want you to check yourself. You tell unbelief to get out of you. And if the Holy Spirit is bringing any type of sin into your life, then you need to repent because you're getting ready to ask God, to bring me close to heaven and you want to be right and righteous. And so that's really important that we ask God for those things. So Lord, check me right now. God, I want your holiness. Forgive me of my sin. And then Jesus, you're not a respecter of people. We all want to come to heaven, God. You know exactly what we need to see in our life to put us running strong in our lane. I come asking you Jesus, for that for myself, for all of my

friends. Anyone who's watching God that today they'd be equipped or when they go to sleep tonight, Jesus, while they're sleeping come and get them. Ask him, come and get me. Agree.

And we will leave behind unbelief because you're our great king. You're the one who loves us. You want us in heaven with you eternally. Why not bring us today so that we can see it. We can hold on to it. We can be changed by it. God have mercy on us. Have mercy on us Lord and bring us even now in visions that will change our life. I pray this in the mighty name of Jesus Christ, our savior, the one who did everything he could to bring us with, to bring us to him, so we can be with him. This is the God whose blood saves. This is the God whose blood made a way for us to come to heaven. Thank you, Jesus. Amen.

**SID:** Next week on *It's Supernatural!*

**Isaiah Saldivar:** Hi, I'm Isaiah Saldivar. Within days I went from an atheist to a radical believer casting demons out of people in my living room. That was 10 years ago and I still walk in the supernatural on a daily basis. That should be normal for every believer. Join me on the next *It's Supernatural*, with Sid Roth, as I share how you too can walk in the supernatural every day.
