

*Hello, Sid Roth here. Welcome to my world where it's naturally supernatural. My guest died of a heart attack. He knows what happens when you die, the whole process. Now he knows what heaven is like and he returned physically healed with an urgent message for us, for you. Next.*

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

**SID:** I've never had this happen before. A messianic Jewish rabbi, Rabbi Halpern. I'll tell you, Felix, I've never had anyone call me up and say, "Sid, I have an angel here right now." That wasn't a norm before that medical mistake occurred. Tell me about that.

**FELIX:** By no means. To be able to go through the process of dying from a medical mistake, consuming seven and a half months of medication in 29 days.

**SID:** That's quite a mistake.

**FELIX:** Thrust my body for one month into a toxic state, which doctors called an inner storm. And the final week things began to accelerate where my body was on fire, my chest was in pain, my back, every muscle was hurting and all had typical signs of a heart attack. But for some reason, I kept thinking that it would go away. Until one night was the worst night of the whole process where I couldn't take any more pain.

At 3:00 AM I go down to the living room and my heart stopped. It had too much. And in an instant, in an instant, actually in the twinkling of an eye, which is only a third of a second, like that my soul stepped out of my body. It began to rise in the spiritual realm. And at one point I could see my body on the couch, lifeless.

An angel came as I'm lying horizontally in the spiritual realm, and he's moving his hand on me. I could see his body, powerful with authority and in the right side of my vision, where I was lying down in the spiritual realm, again I stress, was a white light. A distant light through a tunnel, like a tube if you will, or a tunnel.

**SID:** In this process, were you fearful at all?

**FELIX:** When death took place, all the night's pain, all the month's, was gone, but there was an incredible peace and joy. And there was absolutely no fear, but then the journey continued. And the next thing I knew that I was before the throne of heaven.

**SID:** What did you see?

**FELIX:** A ring of fire.

**SID:** You're feeling emotion right now? Why?

**FELIX:** When I came before the throne, and I get emotional with that too, because you're before the throne. A ring of fire encircles the throne, ripples of fire and ripples of glory with depth. With

protecting the throne. And I immediately went down upon my face. I remember covering my eyes because I could not stand the glory, the brilliance, the fire.

I had to cover my eyes. To this day when I'm in the presence of God and I come into his glory and I'm worshiping, it's common for me to cover my eyes now, but I sat, I lie before the throne of God. I saw the throne.

I saw the feet of our Lord and the throne rested on a crystal sea, a crystal firmament that separated the third heaven from the lower heavens. And so, as I'm in heaven, I was by a river. The river flowed, it seemed, from the throne. And I don't know to where it went, but it was flowing.

What was remarkable was the waters of the river were so crystal clear, clearer than any water that I would imagine that if I can go to some highest mountain point on the earth and see water running down, the stream, it would not be as clear. The water seemed to be life-giving in its natural states. And under the river, the river bed, sparkling gemstones, minerals, semi-precious, precious stones that had a glow and a sparkle to them, diamonds and rubies and emeralds. Everything in its perfect state.

There's life in the air. There's life everywhere. Everything is life giving. Everything has a natural rhythm to it by the creator.

**SID:** How free did you feel?

**FELIX:** I felt like a bird that had just taken flight for the first time. I imagine a bird that leaves the house, the bird house, and it's the first time the bird feels the wind under its wings and takes flight. I felt what it feels like in the incorruptible state to have no resistance. To move through air, no earthly boundaries whatsoever.

**SID:** All right, let me take you now. When you were sent back, you went back to your body. Was there any pain in that process? Any fear in that process?

**FELIX:** No, but the moment it was time for God to breathe life back into me, a rush of wind came out of nowhere. Keep in mind, I'm in my family room, a rush of wind entered through my nostrils and mouth, went down into the deepest recesses of my lungs, threw my head back.

I took a gasp of breath like coming out of being underwater and you have your last breath, otherwise you'll drown. I broke and took a deep breath and my head was jolted backward. And when it happened, I shook my head like this. I said, "What in the world just happened?" And then I realized what happened. The Lord had brought me back to life.

**SID:** After you came back to life, you got your final doctor's report. What did they say about your health and your heart condition? Everything.

**FELIX:** The doctor said to me, I don't know what to make of your blood work, but at a 68-year old man, you have the blood work of a young stag.

**SID:** I don't know. What's the message? I can't wait until we get to heaven. But we have work to do here. I know you're more than ready for Rabbi Felix's urgent message he was sent back to give you. Be right back.

*We'll be right back to **It's Supernatural**.*

*We now return to **It's Supernatural**.*

**SID:** Three days, Rabbi Halpern. After you returned from dying, going to heaven, coming back into your body, being given a perfect body from a very imperfect body that went up to heaven, God revealed something that I'm more excited about this, than even his heaven experience. What did God tell you about the Psalms?

**FELIX:** My heart was trying to discover what my new life is going to be like. I knew my old life was gone. When Paul said, "I knew a man," I understand his words quite honestly, Sid. He knows a man, but he speaks in the past tense. With Paul, that person was gone. That man that I was before this happened is no more. I asked the Lord, "Is it possible that those here can experience, Lord, what you're showing me?"

I knew my life and death is not transferable, but the glory and the peace that came and that the Lord showed me, he said is transferable. It is for my people, my children, and the Lord said in the first three days, "You are going to eat from one book." One book in the entire Bible. I love God's word. I study God's word.

**SID:** Me too.

**FELIX:** I read all the books of the Bible.

**SID:** Me too.

**FELIX:** This is the first time in my life that I am to spend time in one book. And I will say that it's been since September of 2019, can I tell you that I'm still in the same book because the Lord is still showing me things, but the Lord said, I'm going to keep you in the book of Psalms. And as you go through what I'm going to show you, the Lord said, "I'm going to show you my glory Psalms, the words that I have recorded that give me glory, that give me honor and magnify me."

So essentially three days led to 30 days. 30 days led to 90 days and on and on. What God was having me do was starve my soul of the natural order of things, of worries, needs. Things that we normally are conditioned to constantly go to the Lord for prayer, which is important that we do.

We know that God, the word of God teaches importunity in prayer. We are to go and tug on the hem of his garment. We're to continually come before him. However, I realized immediately that my prayer culture before, my prayer models were modeled after what I have been taught, which is wrong.

75 to 80% of an average person, believer's life, 80% of their life is spent on need-based prayers. Transacting with God, asking God for things, for stuff, for healing, legitimate things. I'm not judging that. Legitimate things, but what it does, I realized, and the Lord showed me that it breeds, or nurtures, a needy spirit.

So we can never be free and move into the life of abundance. It comes against thankfulness because when we come into a transformational realm where we're no longer dictated by our needs, do you know what happens?

**SID:** No.

**FELIX:** Thankfulness, gratitude, pleasure, everything you see begins to take on a different look. And I tell people that 80% of their prayer life should be in the glory psalms or the glory of magnifying God and 20% should be in need-based prayer.

**SID:** So you take selected psalms having to do with the glory of God and worship of God and you just substitute your normal, whatever you did normally for prayer with this.

**FELIX:** The Lord said when I get up in the morning and I'm praying every time I began to fall back into the default model of asking, he had me stop. He said, "You are not to ask. You are now to glorify me."

**SID:** Give me an example. I want you to take a psalm right now and just, I'm putting you in your room, in your house, in your secret place. What are you doing? And do it. More than what are you doing, just do it.

**FELIX:** Oh Lord. The heavens are telling of the glory of God. The expanse of heaven cannot be measured, but it declares the work of your hands that are immeasurable, that are incomprehensible. You, Father are glorious and mighty. Day after day, you pour forth speech. Night after night, you reveal knowledge.

There is no speech, nor are there words from even the stars in the sky that you, oh Lord, have placed there by your sovereign will, by your sovereign design. Their voice cannot be heard. Yet, they give evidence that has gone throughout all the earth. I need to only look, Lord, to the night sky and see Father, your glory. For Father, you are the bridegroom that is coming and I am the bride that's waiting for you. Those are the types of meditations that began to form my morning time with the Lord.

**SID:** And I can tell you as a fact, I've started doing that. I believe that I'm going to have more of my prayers answered by worshiping God and glorifying God and living in the glory than if I spend all my time praying those prayers.

**FELIX:** Sid, that's what happened. My prayers have been being answered by the Lord as I continue to remain in exaltation and giving him glory. Because the truth of the matter is earth is difficult. Heaven is easy. Earth by its design, by its fallen nature, you would agree is a need based environment.

Will you and I or all those listening ever be without needs? No. If our prayers are answered today, it just makes room for new prayers tomorrow. Could be my children, my grandchildren, the ministry, life, the country. On and on and on. There's always prayers because by nature, we are needy because we're fallen.

We live in a corruptible state. So father, we are weak. The Lord says, "Who is man, that you are mindful of him?" We are as vulnerable as a little ant. I walk on the earth sometimes, I walk outside quite frankly, and I stop. And you know what? I feel like an ant on the globe under the majesty of God.

You said, you asked me what was the feeling of freedom? And I mentioned it felt like a bird that was set free for the first time, but my entire life has changed in the realm of freedom. I feel as I am an observer to visiting earth. I live detached, which is a level of freedom that I have never experienced. The words of Yeshua in the [inaudible] New Testament is it tells us clearly that we are in this world, but we are not of it, but now more than ever before, I no longer feel part of this on a level that I have never felt before.

That was difficult for some time. That was, I felt, almost a disadvantage for my family to adjust. They would watch me go out on a windy day and I need to feel the wind. There's something about the wind in the air, the freedom of it. I can feel it from when I was in that spiritual state, the freedom of the flow of it.

I go out on a rainy day and I let the rain fall on my head. I look meshuga, I look crazy, but I don't care because it's the Lord's that sends the rain, the refreshing rain.

**SID:** You know what it is? You've come to learn you really only have an audience of One.

**FELIX:** Yes.

**SID:** And that is [crosstalk]

**FELIX:** Yes, yes, yes.

**SID:** That's who you're pleasing.

**FELIX:** And the outside has become also an extension of my sanctuary. There have been times that I take a walk and it's around sunrise. I'm up at 3:00 AM every morning. I walk and the sun is beautiful and I bow down on the sidewalk and worship the Lord. Sid, I don't care. Someone asked me what I was doing, it turned out to be a Muslim girl.

I began to share about God. I began to witness to her one morning. Where did she come from? I have no idea, but I happened to be on the street on the sidewalk that morning worshipping the Lord. My perception of detail is magnified. I can look at trees from a distance and see the detail of the tiniest branches and leaves.

**SID:** This was not before you—

**FELIX:** No, no. I take my grandson for a walk and I say, "Hudson, we're going out to see the beauty of God's hands." And we stop and I said, "I want you to look."

And we picked up perfectly shaped, tiny little acorns. I know this may sound crazy to people and I pick up little flowers or a little this or we look at a little bug. I say, "God created that, Hudson. It from him." Everything and anything and everything of the natural creation I admire.

**SID:** You're glorifying God [crosstalk]

**FELIX:** And I study God, I don't worship nature. I worship the creator of it all. And so every day Sid is an adventure. My eyes are wide open. My ears hear. I don't speak as much as I used to. I listen more. I'm in the store or I meet someone. I listen to people. I observed them. The Lord's given the ability for me to see into the soul of an individual. And I can see the condition of the soul.

**SID:** You didn't see this before you—

**FELIX:** No. And I can see many times what happened to them as a child. I see them in their child-like state, falling through things that have happened in their life. And I begin to pray for them. I begin to pray for healing for them.

**SID:** Do you have more compassion for people now?

**FELIX:** Completely. 100%.

**SID:** [more] interested in people knowing the Messiah now than before?

**FELIX:** 100%. It's my life's call. It's the messaging of what God has given me. How can I not?

**SID:** [crosstalk] an even stronger word. You say there's an urgency for people.

**FELIX:** There is an urgency. No one knows when eternity calls. We think we have our life scripted out. We think we have all the plans. The Bible says measure your days. Our life is like the grass of the field. It can be gone today. The wind can blow it away tomorrow. My life ended like that. I didn't plan it.

In a twinkling of an eye my soul left and thank the Lord, my God that he brought me back. If the Lord didn't restore life, we wouldn't be here. We wouldn't be talking together. I would be gone. And that reminded me, or, it reminded me is too weak of a word. It was branded upon my mind, upon my heart that people need to get right with God.

People need to know that they know that they know that should they leave tomorrow, whether it's a car accident, whether it's a diagnosis, whatever it may be, you can't plan death. Where will they go? Because I realize the glory and the peace and the joy of when I rose is not going to be experienced by those who do not know the Lord. You either rise up to the glories of heaven or one descends to hell and hell is blacker than black.

That grips my soul. That grips my soul that I cannot rest until the message is constantly declared.

**SID:** We all intellectually know this, but there's a difference between intellectually knowing it and every cell in your body worshiping God. Look, Rabbi Felix did not think he was going to die, but he died. Oh yes. It was a medical mistake. But the truth is you could walk out in front of a car. You could be your drunk driving is so many people tell me and a car crashes into them there. You just don't know when your end is going to come.

But I do know this. I do know that God is so good that if you say this prayer out loud with me right now and mean it to the best of your ability, not because you deserve anything, but because God is so good, period. That's it. Say this prayer out loud.

Dear God.

Dear God.

**SID:** Out loud. Dear God.

Dear God.

**SID:** I'm a sinner.

I'm a sinner.

**SID:** Against you.

Against you.

**SID:** And you alone have I sinned.

And you alone have I sinned.

**SID:** And I'm so sorry.

And I'm so sorry.

**SID:** I believe.

I believe.

**SID:** The blood of Messiah.

The blood of Messiah.

**SID:** Washes away.

Washes away.

**SID:** All of my sins.

All of my sins.

**SID:** And you remember my sins no more.

And you remember my sins no more.

**SID:** And now that I am clean.

Now I'm clean.

**SID:** Jesus come and live inside of me.

Come inside of me.

**SID:** Be my savior.

My savior.

**SID:** I make you my Lord.

I make you my Lord.

**SID:** I want my own experiential knowledge of you.

I want my own experiential knowledge of you.

**SID:** Amen
