

Hello, Sid Roth here. Welcome to my world, where it's naturally supernatural. My guest had never moved in the realm of seeing into the invisible world, but when he received a shocking visitation, the invisible realm became visible instantly. Now he can impart this gift to others. Next.

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural!***

SID: Brian Guerin became a believer in Messiah while in college, but he knew there was more. He was desperate to actually have a defining experience with God, but nothing, nothing. Then suddenly it happened. Brian, you call it the falcon moment. What is it about us humans that need something that happens that just opens us up to the presence of God to become normal? And what do I mean by normal? Normal as defined by the Bible, not normal as defined by religion. Unfortunately, there's a difference.

BRIAN: Yeah. I began to actually see it in scripture. I saw where Moses was a mere shepherd of his father-in-law's sheep, and then he runs into this burning bush. Well, God speaks to him and radically transforms his life. I see Gideon the angel of the Lord come under the tree and impacts his life and Joshua the angel of the Lord of hosts. And so at that time in my life, I began to notice there was no real encounter so I began to really pursue God that led to what we're calling the falcon experience and it radically changed everything.

SID: Explain what it was.

BRIAN: Yes. I was actually attending a conference in Dallas, Texas. It's kind of funny because I thought there was going to be some great impartation in the meetings, which there are often, but God did it quite differently. There were incredible men and women of God laying hands on people. And I love to point out that all the bodies were falling under the power of God. And when they got to me, I was like a cactus in the wilderness, just sitting there, not a goose bump, nothing. And bodies kept falling and this happened like three or four nights in a row. But I learned something was still imparted by the laying of hands because soon after I was driving from Dallas, Texas to Houston, and I'm in a big white SUV driving about 75 miles an hour frustrated because I didn't get the big powerful impartation I thought in the meeting. And I began to look down for just a moment. And as I came up, this massive falcon hawk type bird swooped down right in front of my windshield, his body was-

SID: While your truck was moving?

BRIAN: Oh, yeah.

SID: That just sounds almost impossible. It sounds like you would hit it and that'd be the end of the bird.

BRIAN: That's what I thought was going to happen. Yeah. I wish it could have been like, this is a glorious moment, but I was in my head thinking it was going to come through the windshield.

It just happened so fast. And, as he swoops down, his body was probably two feet in height, wingspan almost six feet wide. It blocked the entire windshield.

SID: Wow.

BRIAN: Yeah, massive bird. I couldn't see anything. But what I will never forget, I can still see it to this day is, as it swooped down across my windshield, it pierced me, looked me straight in the eye with great intent and purpose. I would've thought, oh, these... As I found out later, the keen eyesight about these birds is maybe it was going for a mouse and saw my big SUV and was in retreat. It was very purposeful. Just swoon, when it stared me in the eyes. And I, again, I wish I was like, yes, this is from the Lord, but I was thinking it was going to come through the windshield. So I swerve past those bumps that wake you up if you fall asleep, the vibration bumps and swerve back on the highway, check all of my mirrors. I thought for sure I caught his wing. He'd be rolling in the highway. I never saw it again anywhere. I don't know what happened to this day. I couldn't see it anywhere behind me in the sky. And so I'm just jaw to the floor driving still down the interstate towards Houston.

SID: That had to be supernatural, though. That is not a normal phenomenon.

BRIAN: No, I've never had anything like it since. And it had that spiritual feeling to it. Sometimes you have coincidences in life and it's like, that was unique. This just had a sobering, like God was behind that. It just had this inner knowing, that was not accident. And so about a half hour, I finally got my thoughts back together because my jaw's on the floor, I'm just driving like, what just happened? I had nobody to tell and I just go to merely think the thought to God, what was that about? Remember, I'm praying for this big encounter. I came out of Bible college thinking some type of other way God was going to encounter me.

SID: You didn't expect him.

BRIAN: No.

SID: That bird coming and your windshield blocking your view.

BRIAN: No, I'm thinking something else. And so I go to think the thought to God on the interstate, what was that about? And before I even finish the thought, I'm passing an 18 wheeler with all of the mud flaps that cover their tires and it's eagles with wings spread just staring at me. And I'm like, "What is going on right now?" I couldn't even finish my question. And I was just baffled for the whole rest of the day. And then within literally a night or two, I start going into prophetic dreams that were really clear enforcing the future and prayer through visions. And it's really, really wild.

SID: Yeah. I said this earlier before we went on the air, the presence of God is just getting thicker and thicker and I want to invite the Ruach ha-Kodesh, that's Hebrew for the spirit of God to have total freedom. Come ruach. Come Ruach ha-Kodesh. You had none of this before. That's what is... It's a suddenly.

BRIAN: Totally.

SID: And here's what I have found when someone has had a genuine encounter with God, as they share it, it's as real and it can be released to you and you can get what he had. So you be open in your spirit as Brian speaks to us. In 2006, another defining moment.

BRIAN: Yeah. So, in 2006, there was actually a dream I got taken into, which obviously the falcon experience started to open these things up so I was more familiar with them. And I went into an actual dream where I saw a man of God that goes by the name of William Seymour. Many of them know as the founder of the Azusa Street revival.

SID: Yeah. The guy that had a box on his head until the Holy Spirit showed up.

BRIAN: Yeah. And he was an absolute hero of mine. I learned about him in Bible college. And what many people knew at the time was this was the hundred year anniversary of the Azusa Street revival in 2006. So I go into a dream and I'm seeing William Seymour in the prime of his day. He had gray in his beard and I had never said a word. I was just startled that I'm seeing and talking to William Seymour. And he was very distraught though. I gained a great revelation from this dream. He was very disturbed and dissatisfied and distraught, and he began to shake his head and look at me and saying two phrases.

BRIAN: He said, "Had I only known. I was just confused." And right when he said those two phrases, he turned to a slot machine where you pull the lever and the numbers and the fruit on the three wheels begin to spin. He pulled them and they began to spin. And as they slowed down, I knew, like I knew my name, they we're going to stop on all three sevens. And right before they stopped, I came out of the dream, except now his emotional state was superimposed upon me, that frustration, I'm not seeing it. And I began to ask the Holy Spirit, what is this at the hundred year anniversary of the Azusa Street revival? And the Holy Spirit spoke to me, he says, "What you were looking at..." Because often three is a representation prophetically of the Spirit, the number three. "And you're looking at a prophetic symbolism in this dream of the seven spirits of God. And that machine was their day. They were very close to seeing it coming to fruition, but not fully, but your generation will." And right when the Holy Spirit spoke that to me, this distraught feeling that was only lifted immediately, an exuberant joy came that I believe our generation's going to see the fullness of the seven spirits of God come upon all people just like Jesus walked in.

SID: Okay. We have heard of the Holy Spirit. What are the seven spirits of God?

BRIAN: Yeah. I believe the seven spirits of God are the fullness, obviously, of the Holy Spirit himself. You see them in Isaiah 11, chapter two, where it says, "The spirit of the Lord will rest upon Jesus." And there will be the spirit of wisdom and understanding, the spirit of knowledge and the fear of the Lord, the spirit of counsel and might. You also see them in the book of Revelation time and time again as Jesus who holds the seven spirits of God. And so I believe it's very vital. It's clear that Jesus walked in them and I'm really looking forward to this generation walking in the fullness of it.

SID: We're going to. We're going to. But so few understand these seven spirits of God. We'll get into that a little bit more. But another defining moment, Christmas Eve 2020.

BRIAN: Yeah. So this would be 14 years later. The almost like the second installment connected to the seven spirits of God. I actually had family over. This is Christmas Eve. I would've not thought this would've been the timing for some big prophetic encounter, but I was awakened abruptly at 3:24 in the morning. I actually saw in the spirit that-

SID: You really are a prophet because most normal people don't say it was 3:24 in the morning, but prophets look at stuff like that.

BRIAN: It's so true. I've learned to. I've learned to, yeah. So 3:24 in the morning, I saw literally the hand of the Lord, the spirit opened up to me and I could see the hand of the Lord knocking on a membrane, like a heavenly membrane, very abruptly, forceful as though to wake up. It was like a call for the church to wake up and it startled me. I was awakened and began to interpret this. And I believe the Lord spoke that it connected to Revelation chapter three verses two through four, but also this window from 2020 into 2024, this four-year window. And once again, though, Revelation chapter three versus two through four, he's talking to the church of Sardis. He says, "Wake up." And he says, "I am he who holds the seven spirits of God." And I believe there's an end time awakening to the church right now. The shaking that's going on in the earth, I believe the Lord is using it for the awakening of his church and his bride. And they'll come into alignment with the fullness of the seven spirits of God, just as Jesus walked this earth. And when we see that, I believe a habitation will hit this earth. It will never lift until his return.

BRIAN: We know of moves of God. I was even involved in the Brownsville revival and Toronto. And sometimes they come and go just like Azusa Street. But I believe the Lord's desire is that a visitation would turn into ultimately a habitation of his presence here and sustain unto his return.

SID: So you believe that 2020 was the beginning of the shaking for the end times?

BRIAN: Completely agree. Yeah.

SID: And you know what Brian said, God's shown that to me also that in the past we've had moves of God's spirit, many, but they've stopped. It'll be different this time.

BRIAN: Yeah.

SID: The spirit of God, the revival, isn't going to leave. The people that are offending God, they're going to leave.

BRIAN: That's so good.

SID: There's a big difference. When we return, Brian will pray and release the seer and prophetic gifts to you to function in the seven spirits of God. Be right back.

//////////

SID: We've mentioned the seven spirits of God. Just briefly mention them again, Brian.

BRIAN: Yeah. So you have the spirit of wisdom and understanding. And what I love to point out is the menorah, I believe is such a beautiful picture of the seven spirits of God, because it says in Isaiah 11, chapter two, "The spirit of the Lord," which we know is the main stem. I believe the fullness of the Holy Spirit himself that the branches stem out from. And then they're coupled together just like the menorah, these couples of wisdom and understanding, and then counsel and might. And then knowledge and the fear of the Lord. And so with all of them together, you have a fullness of seven, which is beautiful.

SID: What difference does it make whether we partner with the seven spirits or not?

BRIAN: I believe when we're not operating as Jesus did in the fullness of all seven, we start to get imbalanced in certain areas. And I even believe when the couples of say like wisdom and understanding, if you start to lack one, it counter imbalances the other. They cooperate together. You see this clear in scripture. You see in Proverbs chapter one verse seven, that the fear of the Lord is the beginning of knowledge, how they connect together. And I believe we start to enter into a place where deception becomes more easily if we don't have the spirit of understanding. Weakness, if we don't have the spirit of might. If we lack the spirit of counsel, the advice and counsel of God, we begin to walk outside of that and it can really be detrimental to our destiny.

SID: You say that the spirit of the fear of the Lord is emphasized. Now explain to me what you mean by that?

BRIAN: Yeah, I believe just as you mentioned, the fear of the Lord is probably one of the greatest needs to return back into the body of Christ.

SID: What do you mean by fear, by the way?

BRIAN: If you study it out in scripture, reverential awe of God. I did a word study on it once and it even means to... If you could see the picture of carrying a precious Persian vase, just with delicate focus. So it's not being scared of God. We know we can enter in boldly into the throne of grace in Hebrews four, but the reverential awe of God. When you see the fear of God return, I believe we're going to see a massive harvest. You see in Revelation, there's an angel in the end time that flies through the sky and his first proclamation is fear God. You even see in Acts chapter two and Acts chapter five when the fear of God came upon the believers, the miraculous increased. Signs and wonders really took off like a rocket when the fear of God was there. And so I believe when the fear of the Lord returns, it's going to be something like we've never seen.

SID: I just feel we don't treat God with the awe and respect that we should.

BRIAN: I completely agree. Yeah. And some people want to say that's religious, but it's the pure word of God. I even love Hebrews chapter five, verse seven. It says, "Jesus' prayers were heard

because of his reverence. He said, "He prayed with loud cries and tears, but his prayers were heard from the Father because of his reverence." And so I completely agree with you.

SID: You've had some dreams about the fear of the Lord. Tell me them.

BRIAN: Yeah, I actually saw one I think should be helpful almost from the reverse where it was quite supernatural. I saw the dark side, a monster blue demonic figure, open up a gate. I believe it was a prophetic for one of the gates of hell, and loose these blue snakes into the earth that we know speak of deception. And I believe the Holy Spirit revealed to me that was this hyper grace type teaching that counters the fear of the Lord. And I believe we really need to watch things like this that go against the fear of the Lord.

SID: And the hyper grace is exactly what we're talking about. It's sort of like, whatever goes is fine. That's not what my Bible said. I don't know where that even came from.

BRIAN: That's so good. And then other dreams where the fear from the enemy would try and come. But if the fear of the Lord is more present, you always succumb and submit to that which you fear most in reverential awe. And the fear of the Lord will keep us stable and true.

SID: You were hungry for a defining moment. How has that changed your life?

BRIAN: It's radically changed my life, and I've gone from encounter to encounter. I love earlier, you meant from glory to glory, that I believe is the way it should be. But I believe the Lord speaks of it. In Hebrews it says he's a rewarder of those who diligently seek him. And Jeremiah 29 chapter 13 says, "The day we seek the Lord with all of our heart, that's the day we'll find him." And that very thing happened and it opened up encounters and the reality of God and his word like never before.

SID: There are those that are watching right now, you've, like Brian, never had a defining moment with God. You never came to know Jesus experientially. In the day and age we're living in, I think someone can lose their faith easily.

BRIAN: Completely agree.

SID: However, I had such a defining moment when I became a believer in the Messiah. If that was all I had, you couldn't get me to move off of Jesus. You couldn't pay me, you couldn't give me anything. But there's something even better than, that is having your defining moment every day. Your walk with God every day, hearing his voice every day. I want you to pray a prayer and I'll repeat it after you, that we would be born from above, our sins would be forgiven and that we would move from glory to glory. Pray a prayer, and I'll follow it. And everyone at home, out loud. Go for it.

BRIAN: So we just pray right now, God. I thank you for your supernatural presence, God. We thank you for how real you are and alive your word is. And even now God, I pray for those listening that Lord Jesus we confess that you died and rose again.

SID: That Jesus died and rose again.

BRIAN: And we ask you now to come into our life.

SID: And I ask you now to come into my life.

BRIAN: Be my Lord and savior.

SID: Be my Lord and savior.

BRIAN: That I'd be born again from above.

SID: And That I'd be born again from above.

BRIAN: In your precious name-

SID: In your precious name-

BRIAN: ... Amen.

SID: ... Amen.

BRIAN: And even now God, I thank you for supernatural encounters right now. Just receive the Holy Spirit of God. I pray for an increase of dreams and visions to come upon each and every one. There'd be transformation, divine destiny encounters that would transform the trajectory of all that they walk in. In Jesus' name, amen.

SID: I would like you to pray for the impartation of this. This is what you're called for, the impartation of the seven spirits of God. Are you interested in the impartation? Are you interested in the impartation? I'm interested in the impartation. Look in the camera and pray.

BRIAN: Yeah. So God, we just thank you so much for the Holy Spirit of God. I thank you. That Joel chapter two says in the last days you will pour out your spirit upon all flesh. And so even now I pray for a fresh baptism of the Holy Spirit to come upon each and every one. Just receive right now his tangible, manifest presence. Come Holy Spirit, fill them afresh in a new. I pray for a baptism from their head to their toe. And I pray for a great increase of dreams and visions, prophetic pictures, eyes to see, even like the church of Laodicea, that they would anoint their eyes to see. In Jesus name, amen.

SID: And I also seal these prayers in Yeshua's name, amen.
