

Hello, Sid Roth here. Welcome to my world, where it's naturally supernatural. Many have missed the doorway into the supernatural and wonder why God's left them out. It's God's best kept secret that ends, now next.

*Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **Its Supernatural**.*

SID: Holy Spirit, this is your platform. Take over. You have total freedom here, Holy Spirit. The doorway into the supernatural is supernatural languages or tongues. Even most of those that have experienced tongues don't value it as demonstrated by their actions, or because they want to be seeker sensitive.

It's time to be God sensitive. This is the time to be God sensitive. I have studied the lives of the greatest men and women of God in history. I'll list just a few, only a few for you, but every one of them said they had to pray in tongues four to six to eight hours a day. Let me tell you a few of them. One, the one-eyed black man in a time when churches were not integrated, started the first integrated church in California and he would pray in tongues, hours and hours.

If the presence of God wasn't there, or he would do this every time, he'd show up with a box over his head and some people and would just sit there. People would know the miracles wouldn't start till he would take that wooden box off of his head. People got close to him and they could hear what he was doing in that box. He was praying in his supernatural language, tongues.

The second person that I read about recently actually, and I met him, Dr. Cho, who just happened to have the largest church in the world, a million people or something, and he said, "I could not accomplish what I have done, unless I had prayed in tongues four or five or six hours every day. It was mandatory." You say, "Well, I don't have the time to even pray an hour in tongues." You don't understand when you're praying in tongues, God's streamlined your life, not making it difficult. It's not cutting into your day, it's making your day.

Then, another gentleman I knew by the name of Dr. Kenneth Hagin, who is now in heaven, senior. Hagin, if you ever went to one of his meetings, you'd see them sitting on the platform, his hands folded in his lap and he'd be doing this. He was praying in tongues. In fact, his son shares the story that he and his dad were watching a football game once, right? They're enjoying and rooting and having the popcorn and whatever snacks they have and Ken Junior looks over at Ken Senior and says, "Dad, you're praying in tongues. Come on now, chill out." His father looked at him with [inaudible], paid no in attention at all.

How about, there was a famous Jewish rabbi that was known for tongues. Do you know his name was Saul of Tarsus, who became the great Paul. The great Paul, this is what he said about tongues. 1 Corinthians 14:5, this is Paul speaking to you, to you, "I desire that you all," say all.

Audience: All.

SID: Speak in tongues.

Audience: Speak in tongues.

SID: That's only the guy that wrote most of the New Testament. Then he said, in 1 Corinthians 14:18, "I thank God that I speak in tongues or supernatural languages more than," he was southern, "More than y'all." Seriously though, I mean, he was a busy guy. He wrote most the New Testament. He preached all over. He was persecuted and he still [inaudible]. I mean, he knew the secret of praying in supernatural languages.

Audience: Amen, amen.

SID: Then, Paul again says in 1 Thessalonians 5:17, it's kind of almost a commandment, and, "I defy you to do this except in supernatural languages." That's the only way you can do this. This is what he said, "Pray without ceasing." Do you know you can pray in tongues without moving your lips, without making your sound?

Audience: Yes, yeah.

SID: Can't you pray in English without moving your lips and making a sound? Of course you could pray in supernatural languages that way. The big question a lot of people ask is, "Has God changed with the gifts? Has God changed with the supernatural languages?" I'm glad you asked. If you take a look at the older covenant, Malachi 3:6, God says, "I am the Lord. I do not change." Oh, but we're under the new covenant. Well, you're just deceived, everything in the new comes from the old. You can find it there.

If you take a look at the [foreign language], which is the new covenant, Hebrews 13:8 says, "Yeshua, the Messiah is the same yesterday, today and forever." No, God hasn't changed. We humans, we believers, perhaps have done the changing. Here's the big problem most people run into with supernatural languages, with tongues. It's there's two big, big misunderstandings and that is, you can't follow the same rules for one sport for another. What do I mean by that?

You try playing football with baseball rules, it won't work. It'll only work with baseball and there's so many different types of supernatural languages in the Bible, that when it talks about the rules for one particular type of supernatural language, it's really not talking about all types of supernatural language. That's where a lot of people make mistakes, but there's actually a couple of statements that indicate tongues have ceased or not everyone speaks in tongues. It's a total misunderstanding of scripture.

I'll bring them up right now. 1 Corinthians chapter 12:30, Paul says, "Do all speak in tongues?" The implication there is no. Oh, so that gives me an escape hatch. No, it doesn't. Keep reading. In the same chapter, Paul goes on to say in 1 Corinthians 12:28, he's talking about the church. When you're in the church, not all speak in tongues with an interpretation, but in public or private, everyone has a private prayer language. That that's where people... It's not, "Well, he just didn't give me that gift." No, he may not have given you that gift in a public situation, but you've got that gift inside you. It's dormant, it's ready to erupt, it's going to erupt in a few seconds.

The other one where the indication is tongues have ceased, is 1 Corinthians 13:8,10 and 12, "If there are tongues, they shall cease and if there is knowledge, it shall vanish." Are your knowledge vanished? Let me keep reading. When will the knowledge and the tongues vanish? Keep reading. 1 Corinthians 13:10, "But when that which is perfect comes, then that which is imperfect, meaning tongues, shall pass away." That begs the question, what is the perfect and how will we know if the perfect has come? 1 Corinthians 13:12, "For now we see through a glass dimly, but then when the perfect comes, then face-to-face. Now I know in part, but then I shall know even as I also am known."

Some people think the perfect is the Bible. The Bible is perfect in a sense. However, it's not the Bible that he's talking about there. You don't see Jesus face-to-face, because of the face-to-face, when we will you see Jesus face to face? When he returns, that's when the perfect comes.

Audience: Yes.

SID: Not only will you see him face to face, you'll know in full. Any of you know in full? I'll let you take this seat right now. I don't. I'm struggling as a human on this earth. I know enough truth to fulfill my destiny, but when the perfect comes, when Jesus returns, we'll know as we are known. That's what God is saying there.

Now, I did mention there's many different types of tongues. There's the private prayer language that you do in private. Every morning I wake up and I pray in tongues and I have to tell you, I almost feel like I haven't prepared for the day, unless I spend time praying in tongues. Then there's the public prayer language, which you spoke about in the church, where someone speaks in tongues and someone else has interpretation. Not all have that particular gift, is what would that misunderstanding was over.

Then there's worship tongues. I love worship tongues. Then there's the interpretation of tongues, witnessing in foreign languages in tongues. Totally different rules for that. Different types of tongues. Many, many people are praying the same tongues they got 20 years ago, they've never moved into multiple tongues or diverse tongues. Then travail tongues. That is really neat. Romans 8:26 says you'll have groanings too deep for words. You won't even hear the words. You'll just be groaning like a woman in childbirth. There's many different types.

Now, why are tongues so important? 1 Corinthians 14:4 says, "He that speaks in an unknown tongue edifies," that means builds up, charges the battery themselves. It's like a car battery, when you're praying in tongues, your car battery has no power until you pray enough in tongues, because then your spirit is edified. It grows, it's charged. You need to lift weights in the spirit by praying in tongues. Many believers have never spoken in supernatural languages, tongues, and the biggest shock is others that speak in tongues use it very little. They've almost put their gift on a shelf. Both are about to change. Be right back.

*We'll be right back to **It's Supernatural**.*

*We now return to **It's Supernatural**.*

SID: That this is amazing. I read in a book, an article from the New York Times newspaper and it reported that scientific university studies that prove speaking in tongues changes the brain, boosts your immune system scientifically and aids in solving problems, making decisions, and makes you emotionally stable. You see, that is phenomenal. A secular newspaper had scientific studies proving this.

When you're praying in tongues, you're praying perfect prayers. Why is it perfect? Your brain doesn't have all information. Your spirit is God in your spirit and God has all information. When you pray a prayer, it's exactly what God wants at this moment in your life, I want you to realize that it's not only perfect prayers, but it's perfect faith. Why is there perfect faith? You don't understand what you're saying. You can't say, "Oh, I just prayed that I walk on water." I can't walk on water. You don't even know you prayed that. It's perfect prayers with perfect faith.

You know who the only one that doesn't want you praying that way, perfect prayers and perfect? I do. Okay, it gives you immediate, the minute you open your mouth and pray in tongues, you have immediate access to God. It opens the door to the supernatural gifts, it heals, and this, a lot of people don't know it. New York Times knew it, but a lot of believers don't know. The first thing you do when you're praying in tongues, you don't realize this, you're praying for healing your emotions.

Many times you won't even get to intercessory prayer in tongues for years, till your emotions are handled. It brings you wisdom and it brings deep repentance to the surface of things that you've buried. Have you ever read the quote in Romans 8:28, "All things work together for good"? You've never read the verse before. You know what it says? If you pray in tongues, all things work together for good. Big difference.

As a Jewish non-believer in Jesus, I was involved in the counterfeit supernatural. It's called the New Age or the occult. When I heard believers, real believers pray in tongues, I thought it was the most fascinating supernatural I had ever heard or seen. Then, when I spoke in supernatural languages as a believer in the Messiah, I actually spoke to someone in a language I didn't know. I led that man to the Lord. He was a professor of medical doctors at Howard University in Washington, DC. I remember his name, was many years ago, Dr. Caesar Santos.

I actually spoke in his dialect. If you read the book of Acts at Pentecost, it said they heard the people speaking really in the Greek, in that dialect, and I told him to believe in Jesus and he looked at his wife and he was angry. He said, "You taught him how to pray that way." Then he said, "Wait a second. You're from a different area in the Philippines. You don't speak my dialect. You couldn't have taught him that."

I went out on the streets of Georgetown with him in the Georgetown area of Washington, DC and we were... This is a professor of medical doctors and was passing out tracks to the students that were walking by. One of his students walked up and he said, "Dr. Santos, what are you doing here?" He said, "I'm in love with Jesus." His wife said, you think you want to applaud on that, listen to this. His wife said after he was born again with the supernatural sign of me

speaking to him and his own dialect in his own language, knowing I don't know his dialect, I don't know his language, and leading him to Jesus, his wife said he was the best husband I ever had, ever had after that experience.

Okay, if you do not pray in tongues yet or do not have the gift of diverse tongues or witnessing tongues or interpretation of tongues, or the fire of the Holy Spirit, keep watching on our extended show. Go immediately after this show to sidroth.org/fire, where we will pray in supernatural languages, in the glory for your family's and prodigal's salvation and your family relationships, your career, marriage, your finances, healing, miracles, and all generational blockages. This will be a life changer for you.

I have to tell you though, I interviewed a woman right on. Its supernatural this woman just was housewife, went to her own grocery store, got out, bought her groceries, went back to the car, got in the car, unloaded the groceries, sat down and there was a man in the backseat and had a gun at her head and said, "Drive." What she didn't know is he murdered and raped over 40 women that looked exactly like the woman he had the gun to her head that was driving him to the woods. She didn't know that.

She drives to the woods. He says, "Get out." He holds the gun to her head and she said, "I'm a woman of God. I pray in tongues [foreign language]," and she goes on and on and she said, "I don't know how this happened except only God. He started weeping this man. He goes back to prison, he gets killed. You understand that. He started weeping. He confessed Jesus as his Messiah and Lord." What he didn't know is she'd been praying in hours in tongues before he put the gun to her head. He allows her to call the police to come and pick him up. He goes to prison, he dies, executed the happiest executed man on the planet.

Audience: Wow.

SID: See you at the extended show. Be right back.

Audience: Wow. Woo.

SID: Next week, on *It's Supernatural*.

Bobby Connor: Hello, I'm Bobby Connor, Eagles View Ministry. The Lord showed me the pandemic and all the things that was going to happen with the coronavirus, et cetera and then he showed me about the Russia and the Ukraine conflict going on. See, the Lord will not do anything without first revealing what he's going to do to his servants, the prophets. I want you to really understand that God tells us through Jesus, we have a glorious future. I want you to join me on the next *It's Supernatural* with Sid Roth. You are going to hear what God has planned for his people. Now, we will not get this from the modern-day media. You'll get it from the word of God and God has good plans for us. God bless you.

The supernatural knows no bounds and now there are no limits to equipping you to receive your supernatural breakthrough any time, any place. ISN, the It's Supernatural online network offers live streaming of programs 24 hours a day, seven days a week, right on your mobile devices or smart TVs.
