

Hello, Sid Roth, here. Welcome to my world where Its Naturally Supernatural. My guest, a pastor at Joel Osteen's church says "God's healing words are like a hammer smashing all disease." He has conclusive medical and biblical proof, next.

I've thought for myself in every area of life, but one, I knew nothing until I discovered a realm where the truth isn't what it seems, a realm where the truth becomes reality. I've spent over 50 years investigating the world of the supernatural. Every moment has led up to the main event. Millions of Jewish people will be saved all over the world. God's heart is for all to believe, for none to perish. It's called the Greater Glory. Do you believe?

It's Supernatural!

Sid Roth: Welcome, Holy Spirit. Go and flow. My guest, Steve Austin, went from being a skeptical attorney to a totally persuaded believer in the healing power of God. As Associate Pastor for Pastor Joel Osteen's Lakewood Church, he and his teams go to specialty hospitals. These are hospitals where people are sent to die. Then suddenly, miracles, thousands have been healed. So it begs the question, why would a successful, logical, attorney get involved with the supernatural, Steve?

Steve Austin: That's a good question. So Sid, I grew up in churches that didn't teach anything about healing or the supernatural. And I became an attorney and I'm very logical, left-brained and supernatural things sounded woo to me and scary, and I just didn't know anything about healing or the supernatural. I'd never been taught anything about that.

And my future wife, at the time we were dating, she developed rheumatoid arthritis in her twenties and all her knuckles got red and inflamed. And at the time, she drove a sports car with a stick shift and she couldn't even switch gears. So she went to one of the top rheumatoid arthritis doctors in the world and he told her that she would be in a wheelchair by the time she was 30 years old and that she shouldn't have children because they would have birth defects.

And of course, that was devastating to people in their twenties thinking about marriage. And after we got over our initial devastation, we collected ourselves and something rose up in us, even though I didn't know anything about healing, something rose up and said, "No, this is not our lot." Anyway, she was invited to a church service that had a healing service and the power God touched her and she was supernaturally healed. And so that was my first eye-opening experience. Then I went on my first mission trip to India with a man who does healing crusades and I went on this trip as a doubting Thomas.

Sid Roth: You're still an attorney at this point.

Steve Austin: I'm still an attorney.

Sid Roth: A doubting attorney.

Steve Austin: Right. And I heard this man talk about his healing crusades and all the miracles that had taken place. And I said, "You know what? If this is true, I want to go and see it with my own eyes." I went on this first trip very much as a doubting Thomas. In fact, I was such a doubter I hired a videographer to follow us around and video any miracles that took place. And Sid, all I can tell you is that I saw people get healed of blindness, deafness, paralysis, right in front of my eyes.

Sid Roth: How do you know they weren't fake? You're the attorney, you should have been skeptical.

Steve Austin: Well, I was very skeptical and we had local doctors on hand to document everything, including people that got healed of things you can't see, like tumors vanished. And they did MRIs and tumors vanished. People got up. I administered to the sick for the very first time. I didn't know what I was doing. I pulled a lady out of her wheelchair. This lady was in her twenties, had never walked. And of course your muscles are all atrophied. I pulled her up out of her wheelchair and I said, "Walk in the name of Jesus." And she started walking.

I ministered to a paralyzed man who had a stroke and he was paralyzed on one side of his body and he lifted his arm about this high and began to praise God. And I said, "Just praise God, praise God even stronger for your healing." And he lifted his arm higher and he was totally healed. And so I saw things with my own eyes that shattered the little religious box that I had God in.

Sid Roth: Now you told me something that I suspected but I didn't know firsthand. And that is when we see the Joel Osteen Church service on a Sunday morning, we see one that's kind of for all people. It's not particularly charismatic, but I happen to have known Joel Osteen's mother and father, and they were off the charts, spirit-filled. I said, "What happened to Joel?" And then I found out what happened, when the TV goes off, the action starts. Amen. Okay, begs the question, what are you seeing at Lakewood Church? And you have a Zoom show with an interesting co-host, Dodie Osteen.

Steve Austin: We have a healing service once a month. It's on the second Tuesday of each month. Anybody can participate. You can go to LakewoodChurch.com and register. It's free, of course. It's a healing service. And we have thousands of people attend that healing service from around the world. And we have seen every kind of sickness and disease healed, including ALS.

We've seen people get delivered and set free from insomnia, depression, suicidal thoughts, fear, all kinds of things. Just we see miracle after miracle every single month.

Sid Roth: Tell me about your friend Austin.

Steve Austin: That's a great story. So Austin is a 42-year-old tech CEO from Atlanta. His wife made him get an annual physical every year. He went in for his annual physical and he didn't have any symptoms in his body, felt great. And the doctor came in and when he got the results and he said, "I'm sorry to tell you this Mr. Merritt, but you have stage four liver cancer."

Sid Roth: That is not something you get a good cure for.

Steve Austin: Right, exactly.

Sid Roth: You're history.

Steve Austin: And it had metastasized to his kidneys, his brain, and his lymph nodes. And so of course he was shocked and they started him on chemo and he did nine months of chemo. Well, when I got in contact with him, he was coming to MD Anderson Cancer Center in Houston to get scanned and get tested again. He was back and forth between Atlanta and MD Anderson.

And he told me that three weeks before I prayed over him that he got scans and it showed that the cancer was not no longer responding to chemo, that it was had gotten worse. And that was three weeks before I prayed for him. He comes to Houston, I lay hands on him and pray over him. He goes and gets two days of scans and blood work and all this stuff. And he texted me and he said, "Steve, I've seen the greatest miracle I've ever seen in my life. There is no cancer in my body."

Sid Roth: What about the double miracle of the young girl with inoperable brain tumors?

Steve Austin: So this is when I was doing my chaplaincy training at MD Anderson Cancer Center. I got paged to go pray for this 17-year-old girl who had a brain tumor. And when I got to the room, I didn't know anything about her story, but when I got to her room, the parents were there and they explained to me that the doctors had told them that there was no more they could do. They gave them a very dire... that she only had a few weeks to live.

But the girl, the 17-year-old girl and her parents still had faith. And so I stayed in there for about an hour with them. We praised the Lord, we worshiped, we prayed bold, faith-filled, fire prayers. I declared the word of God over her and the Glory of God filled that room so strong I could barely stand. It was so strong in there, the presence of God. And so I left and the mother told me, she said, "Pastor Steve, when you left the room, the presence of God just continued to linger there."

She got a new MRI three days later and the doctor held up the new MRI and the old MRI and he looked real perplexed that he was scratching his head. And he goes, "I've never seen anything like this. There's no medical explanation for it, but your tumor's gone." Amen. But wait, wait, the story gets better. The story gets better.

So she gets discharged and a little 3-year-old boy who has a brain tumor gets her same room and her same bed. And he had come from one of the top, probably the top children's hospital in the world, and they told MD Anderson, "We can't do anything more for him." So he got to MD Anderson and MD Anderson told his parents, "I'm sorry, but there's just not anything more we can do." Well, he got this 17-year-old girl's room and he got healed.

Sid Roth: Steve Austin, over the past 25 years has seen thousands of miraculous healings. Ready for your miracle? Be right back.

For over 25 years praying for healing in numerous settings, including the largest medical center in the world in Houston, Texas. Steve Austin, has seen miraculous healings from nearly every kind of serious sickness, including cancer. His passion is to mentor, empower, and activate ordinary believers to experience the supernatural healing power of God for themselves or when praying healing over others anywhere, anytime.

Steve Austin: *In my CD Anointed for Healing, I teach you how to walk in the power and the authority of Christ. In my book God Heals, I give you eight biblical keys to winning the battle for your health. These are keys that are not theories, they're not opinions, but they are biblical keys. And these are keys that I've seen work in countless people to receive their miracle healing. Also, in this book I give you anointed prayers, daily scripture, declarations, all the healing scriptures from the Bible, miracle testimonies to encourage your faith.*

Steve Austin reveals to you how simple prayers from a heart of faith move God the most. How God wants to heal not only your body, but also your soul. How to access the five secrets of healing and so much more.

Steve Austin: *God Heals gives you the meat and potatoes of healing, how to receive your healing. As a compliment to God Heals, I wrote a second book called Be Healed, a 40-day devotional to reclaim your health. Be Healed gives you daily nuggets, powerful truths to keep you encouraged as you read that 40-day devotional. And those two resources go great together to help you fight the battle and win the battle for your health.*

Begin fighting the battle for your health and the health of others today. Just call or go online at sidroth.org/10020 with your donation of \$39 or more shipping and handling included for Steve Austin's companion book set. God Heals eight keys to defeat sickness and receive divine healing. And his brand new Be Healed, a 40-day devotional to reclaim your health. Plus you'll also receive Steve's exclusive new CD Anointed for Healing.

Sid Roth: Where the rubber meets the ground. Some tough questions. Someone believes in healing but they've never been healed. They've probably given up really and truly in their heart. Someone that doesn't understand healing too well. "I prayed, I didn't get healed. I'm finished with that. It's not true. It's not for me, the Bible is true, but I'm just not getting healed." Speak to those people right now.

Steve Austin: Sid. I encounter that a lot. And one of the main things that I do when I go and minister to the sick is I stir up their faith. Because so many times people start out with strong faith, they get a diagnosis and they're like, "I'm going to believe God to heal me." But we need faith for the middle. When we don't see God moving and things aren't changing and it's taking weeks and months and even years and we don't see anything happening, that's where we really need faith.

Because faith is in the unseen realm. If we can see it, if we can figure it out, we don't need faith. So one the things I do, one of the main things I do when I minister to the sick is I stir their faith and I remind them that, "This is for you. You are a child of the most high God, Jesus Christ hung on that cross for you. And he not only took your sins upon himself, he took your sicknesses upon himself at the cross. And all you need to do is keep standing, keep believing, keep declaring the word of God out of your mouth and it will manifest. I don't know when it's going to manifest, but keep believing, keep declaring, keep praying bold prayers and your suddenly will come."

Sid Roth: Steve, I am convinced that people don't know the whole scripture. Through faith and patience, we inherit the promises. According to the American Hospital Association, over 33 million Americans are hospitalized every year. Therefore, hospitals are a huge evangelistic field. Steve's ministry is doing something no other ministry is doing, and his goal is to expand to reach 100,000 hospital patients by the end of 2024.

And you think that's something, and a million by 2030. Steve, you train people. I imagine it's a very long extensive training program that you turn loose in the hospitals. How many months or years is this program?

Steve Austin: Sid, one day.

Sid Roth: One day.

Steve Austin: One day. One whole day. And our volunteers do things that professional chaplains get to do. They go into people's hospital rooms, they minister to the sick. As Sid said, we're going to minister to at least 100,000 hospital patients this year alone. And I'm raising up an army and we're expanding. We're going to expand nationally and even internationally. And by the year 2020, I want to be ministering to at least a million patients a year.

Sid, it's only one day. And people, if you're a spirit-filled believer, just read the Bible, get in the Bible and see what it says about healing and how Jesus and the disciples ministered healing to people. And you got it. You got it. You got the Holy Spirit inside of you, the most powerful force in the universe. Everybody can do this. And that's my message, Sid. I don't want to sit up here and be like, "I did this and that" because it's not about me or it's not about one person. All of us are ministers. All of us have the Holy Spirit. Amen.

Sid Roth: Why someone in a hospital, are they being healed? Obviously they're sick, but do you find them much more receptive than most people when they're already in the hospital?

Steve Austin: Oh, sure. And that's why hospitals are one of the greatest mission fields on planet Earth. 33 million people in America, a year, that's one tenth of our population every year in the hospital. And I've been doing this 25 years and I can tell you that there's more sick people than ever. We need this ministry. And healing was a core part of Jesus's ministry.

And so yes, people in the hospital are more open. They're thinking about their mortality, they're thinking about their lives. And I'm telling you, when you're facing a life-threatening illness, your theology can change very dramatically. You can go in as an atheist, but when you're staring your mortality in the face and thinking about your life, you can change your mind.

Sid Roth: Are you realizing there are friends that are younger than you that are dying? Are you realizing that you don't know when your end will come? The truth is you don't know, as smart as you are, not even a doctor knows. No one knows except God himself. So the big issue is not when your end will come. The big issue is where are you going forever? And as the song goes forever is a long, long time. Repeat this prayer. Mean it to the best of your ability and a miracle will happen in your life. Repeat out loud, dear God.

Dear God.

Sid Roth: Forgive me for my sins.

Forgive me for my sins.

Sid Roth: I believe that your blood washes away all my sins.

I believe that your blood washes away all my sins.

Sid Roth: I'm clean.

I'm clean.

Sid Roth: It's so good to be clean.

It's so good to be clean.

Sid Roth: And now that I'm clean.

And now that I'm clean.

Sid Roth: Steve is going to pray for me.

Steve is going to pray for me.

Sid Roth: And anything wrong in my body or in my emotions is going to be healed in Jesus' name.

And anything wrong in my body or in my emotions is going to be healed in Jesus' name.

Sid Roth: Steve, pray.

Steve Austin: Hallelujah. Hallelujah. Father God, I thank you that every person watching this right now is your child, your beloved child. You love them with an everlasting love. You have them in the palm of your hand. You're not only their God, you're not only their Lord and Savior, you're their healer and their deliverer. Lord, you called yourself Jehovah Rapha, you said, "I am the God who heals you." So Lord, I ask you to touch every person from the top of their head to the bottom of their feet, wipe out every trace of sickness, disease, pain, symptoms, addictions, bondages.

Lord, you said whatever I loose on earth would be loosed in Heaven. So I loose the miracle-working power of God upon everybody watching this, in the name of Jesus. I loose the fire and the glory and the yoke-breaking anointing of Almighty God upon every person watching this, in the name of Jesus. And I speak healing, wholeness, restoration, freedom and victory over you in Jesus' mighty name. Receive it by faith with thanksgiving. It's yours. It's part of your inheritance. It belongs to you as a child of God. Receive it right now in Jesus' name. Amen. Amen. Hallelujah. Hallelujah.

Sid Roth: There are still people saying, "I can't do that. That's nice for someone else. It's nice for my pastor, it's nice for someone that has a miracle ministry, but I'm just an average person. I do believe in Jesus. Are you really saying I can do what I just heard Steve say is happening in his ministry?" Talk to that person.

Steve Austin: You know, Sid. I don't believe there are any average believers because we are all children of God created in his image and likeness. And if you're a believer in Jesus Christ, Romans 8:11 says, "The same spirit who raised Jesus from the dead dwells in you. The same spirit who empowered Jesus and his disciples to do the miracles they did dwells in you." We didn't get Holy Spirit Junior. We didn't get Holy Spirit Light. Amen. We didn't get a watered down version of the Holy Spirit. We got the same Holy Spirit. Amen. Amen. Amen.

Sid Roth: What you said just begs the question, do young children have the Holy Spirit or a Young Junior Holy Spirit?

Steve Austin: Yeah. There is no such thing as a Young Junior Holy Spirit. The Holy Spirit is the Holy Spirit. Amen. That's why Joel 2:28 says, "He'll pour out his spirit on all flesh and young people will prophesy." Amen. Out of the mouth of babes. Praise is perfected. The Holy Spirit is the Holy Spirit. And you as a believer have the same Holy Spirit. You just need to believe that you have it, that you can walk in signs, miracles, and wonders.

One more thing, Mark 16:17-18, when Jesus gave the great commission, he said, "These signs will follow those who believe." Not just pastors, not just evangelists, prophets, apostles, but those who believe, ordinary believers. And, Sid, I believe the hour is now when God is decentralizing things. And what I mean by that is for too long we have elevated certain people and we put them on a pedestal and "Oh, that's prophet so-and-so." And there's nothing wrong with that. I'm not putting that down. I'm just saying God is decentralizing this. And it's not just about a person that everybody's like, "Whoa, wow, that person. Wow." No, we all have the same Holy Spirit. Amen. And God-

Sid Roth: You have the same Holy Spirit, lay hands on the sick and see them healed.

Steve Austin: Amen. Amen. Amen.

Steve Austin believes too many people who get sick wait until it's too late to go to God for healing. His healing books and CD give you a blueprint for health and life.

Steve Austin: *I've been ministering to the sick for 25 years and I've seen that when people get sick, they get in this spin cycle of doctor's visits, and testing, and treatment and hospital stays. In my book, God Heals, I give you eight biblical keys to winning the battle for your health. My book Be Healed gives you daily nuggets, powerful truths to keep you inspired and encouraged and equip you to get the victory for your health. In my CD Anointed for Healing, I teach you how to walk in the power and the authority of Christ. And I've seen countless people receive their healing through these resources.*

God still heals. Call or go online at sidroth.org/10020 with your donation of \$39 or more. Shipping and handling included for Steve Austin's companion book set, God Heals, eight keys to defeat sickness and received divine healing. And is brand new Be Healed a 40-day devotional to reclaim your health. Plus you'll also get Steve's exclusive new audio, CD Anointed for Healing.

Sid Roth: *Have you or a loved one been battling sickness with no success, no hope in sight? My guests were exactly where you are until God dramatically healed them. Now they want to teach you what God showed them so you to be healed. Go to Sidroth.org/Healing to access our Its Supernatural episodes on healing. Today, do it. It's free. Don't miss out on your miracle appointment.*

Many viewers report testimonies of miracles, signs and wonders as a result of watching Its Supernatural. Share your testimony at sidroth.org/praise. Your gifts to this ministry will help Sid air It's Supernatural in Israel 28 times a week and distribute his evangelistic book to the Jewish people worldwide.
