

Hello, it's Sid Roth here. Welcome to my world where it's naturally supernatural. God told my guest she could operate in remote healing. Remote healing? This was a new concept for her. Wait till you hear what happened, next.

*I've thought for myself in every area of life, but one. I knew nothing until I discovered a realm where the truth isn't what it seems, a realm where the truth becomes reality. I've spent over 50 years investigating the world of the supernatural. Every moment has led up to the main event. Millions of Jewish people will be saved all over the world. God's heart is for all to believe, for none to perish. It's called the greater glory. Do you believe?*

*It's Supernatural!*

**Sid Roth:** The Holy Spirit is welcome Here. Go and flow. My guest Dr. Rebecca Murray was not born into a Christian family, yet she had such a God hunger. She walked to church herself at age four. Four. Tell us about your childhood.

**Rebecca Murray:** Well, we lived in this community where it was a dead-end street and there was a few houses and then there was a church. And I would see people going to the church and I would ask my parents, can we go to this church? And my parents didn't go to church at that time. They were not Christians, but I begged them to let me go. So they would get me dressed and here I would go and they let me walk by myself.

Now, it was a different day back then and I remember the very first time I walked in there, I walked in there all proud, like I was grown at four years old and I walked in, opened the door, and I went and I sat on one of the pews. But the thing that ministered so much to me was the way people loved the Lord in that church.

**Sid Roth:** But then at six, somewhat that intrigued me immensely, you started watching on TV?

**Rebecca Murray:** Yes. At six years old. We had moved to another house by then. And there was a lady that would come on TV. Her name was Katherine Kuhlman, and I was so mesmerized by her that I would sit in front of the TV and I'm telling you, my face was this close to the screen and I saw her as she prayed for people and they were healed, and I so desired to do what she was doing. But at that age I thought, "Well, that's only for the big people." Only people like her, people on TV. They're the only ones who do that. But there was something down on the inside of me that I just wanted to jump through that TV and be right where she was.

**Sid Roth:** Now a next turning point was at 10. I guess your mother took you to this new church, but there were some strange things going on there.

**Rebecca Murray:** At this time my mother decided that we were going to go to church. My father didn't go at the time, but my mother did. And she took us to this little country church. When we walked in, there was a wire that was hung across the platform and on this wire were braces from people who had been healed of polio. There were casts that had been cut off, there were eyeglasses, there were all these things. Sitting near the post of the church, there was pillars inside the church. Were wheelchairs. And I saw all of these things and I was like, "What is this? What are these things that are here?" And they no longer needed them. So they brought them and hung them as a testimony to what the Lord had

done. And it was in that church that my mother was healed. There was an evangelist that came by and he had a word of knowledge and he called my mother out and he told her that she had cancer.

She hadn't told any of us. She hadn't even told my father because she had just found out and she had this tumor on the inside of her stomach and it was bulging. It was big, but the clothes covered it up. So this evangelist called her out and he said, "God is going to heal you tonight." And this was her first experience with healing. I had been listening to it and hearing messages on healing, but this was her first time and he laid hands on her and prayed for her.

And Sid, I'm telling you what happened at that moment. It was a flash of lightning that went through that church. I mean, it was as if it came through the window of the church and lit up the whole church. And instantly my mother was healed. As soon as she got home, she checked for the tumor and it was completely gone. There was no cancer in her body any longer.

Here again, I'm seeing the healing power of God and I so desired this, but I felt like I was just this little girl. What can I do because I'm just a little girl.

**Sid Roth:** So as life goes on, you find yourself working with young people. Tell me briefly about that.

**Rebecca Murray:** Well, over the course of time, we have brought in 27 young people into our home to stay. And these were young people that have been on drugs, alcohol, they've been involved in gangs. And I would work with the courts and they would call me and say, "Can you take this teen? They're in trouble. They need help." So the court knew that Jesus was the answer and that's why they would call us. So as these young people would come to stay, their lives would get transformed. Some would come for a few weeks. The longest came for six years, and the Lord would do tremendous things with them.

**Sid Roth:** You had a couple of kids that were witches living in your house. Are you a little meshugana? That's crazy. Did you know they were witches?

**Rebecca Murray:** Well, I did not know. So what they did is they brought their little suitcase in their boxes in and they were like the ages of 13 and 15. I showed them to their room and I was letting them get unpacked while I went around the house and did some other things. I came back in and they had the table set up with all of these candles and all of these little witchcraft things that they did. And I saw that and I'm like, "Oh no, not here. In this house, we don't do something like that." And so I said, "Gather it all up. It has to go." Now they stayed. But we did make them get rid of all those things because, and we explained to them, "We don't do that here and let me tell you why." And then I was able to really minister the Gospel to them. And that's what was so important. So many of these young people were saved. They were baptized, they were filled with the Holy Ghost.

**Sid Roth:** And you actually started a Bible study that really grew.

**Rebecca Murray:** It grew. So these children, teens, were coming to the house and we started this Bible study with six kids. It would be three of our own and three of their friends. And it grew to 168 young people coming to our house, but lives were being changed and prayer requests were being answered. As we went down to the basement where we had it, there was drywall on the basement steps. They would write their prayer requests, and they would write everything and we would go. I even took pictures of it when we moved from the house because it meant so much to me that they would write their prayer

requests down, believing God was going to heal their grandmother, believing their mother was going to come out of addiction. And I would always tell them, "When the Lord answers this prayer, I want you to come back. I want you to circle that prayer request on that wall, and I want you to write the date that the Lord did it." And we had many circles on those walls of these young people seeing the power of God and how he answers prayer.

**Sid Roth:** Now I have observed the glory of God surrounds you, is in you. Can anyone access this glory of God?

**Rebecca Murray:** Absolutely. It is for everyone. When we think about this, we ask the Lord to come into our life. We say "We want you. We want you Lord." And when we receive him as our Savior, think about this. Whatever he has, all that he possesses, he comes into our life and we have his spirit in us. So we understand that we have the ability to have the glory of the Lord just come through us because our Messiah has made it available for all of us.

**Sid Roth:** When we return, Dr. Rebecca is going to teach you about remote healing and demonstrate. Be right back.

*Dr. Rebecca Murray, just a regular person, was transported by God into a new life filled with remarkable miracles. God can do this for you too. Don't wait. Call or go online to get her How to Walk in a Life of Miracles book and her Boundless Healing CD set.*

**Rebecca Murray:** *I challenge you to allow God to work in you and through you with his healing power. It's not just for a chosen few. I was just an ordinary woman who loved God and who was yielded to whatever he wanted. And see the miraculous things happen from money in a mattress to cancers being healed. When you yield yourself to him, anything can happen. As we release his healing power, we will see people's lives transformed.*

*Dr. Rebecca's passion is empowering you to live a life filled with constant miracles. And she says, this is for everyone.*

**Rebecca Murray:** *He told me that he was going to use me in remote healing and I said, "Lord, what is that?" I'd never heard of it. He said, "I am going to take you by my spirit into places that you physically will not be, places that an automobile or a plane or a train or a boat cannot take you." So he has taken me into rooms that I was not in physically, but by the spirit I was there, and miracles broke out all over the room. I prayed for a woman in California, I was in Virginia, and God healed her of cancer. It's like God is giving you this special infusion of his healing power and we have the privilege to be able to help change people's lives.*

*Call or go online at [sidroth.org/10063](http://sidroth.org/10063) with your donation of \$36 or more with free shipping for Dr. Rebecca Murray's book, How to Walk In a Life of Miracles. God can use any yielded vessel to bring his glory to the nations. You'll also receive her exclusive new two-CD set, Boundless Healing, God's power knows no distance. Plus get Dr. Rebecca's new DVD, Jesus in Every Moment, Steps to Worship and Know Him.*

**Sid Roth:** My guest is Dr. Rebecca Murray. And what are you playing with a stray cat? Tell me that story.

**Rebecca Murray:** Well, we were preparing to go to a church service and it was about an hour from our house. We had this little stray cat that showed up and I didn't want it. So we had a farmer that said, "Hey, can you bring the cat over to us?" "Sure, we'll do that." So I'm trying to catch this cat to put it in a little cage and it was like this big, it was small. When I picked it up, that little cat bit me and clawed my hand. And so I got it into the cage, took it over to the place, washed out my bite marks and just put a little bandage around my hand and went on to the church service.

So I'm in the church service. After the service they say, "We're going to have a meal for you. Come on over and everybody just join in and eat." And my daughter was with me and she said, "Mom, how's your hand doing where the cat bit you?" I said, "I don't know. I haven't even looked at it." Well, when I looked at it, I had blood poisoning. I had two red streaks going up my arm. There was a number of people that had come with me to this church service and my daughter's like, "Mom, you have to go to the hospital because you have blood poisoning and it is traveling towards your heart."

I go to the hospital, I get in the hospital and they look at me, the doctor looks at me and he said, "You have a very aggressive infection and we have to do surgery. And so we are calling the surgeon in." So by four o'clock in the morning, I'm still in the ER waiting for a bed. Now they're admitting me. Everybody had gone home. And I'm sitting there and I'm looking at my arm and I got mad and I said, "Why am I taking this? Why am I putting up with this? A cat bit me, but the Lord has healing power and I'm not taking it anymore. And so I spoke to my arm and I said, "You will go no further because in the name of Jesus I am healed."

And I let it go. They take me to the room. And about probably eight o'clock a surgeon comes in and then he says, "Let me see the arm" so he comes and he unwraps it and he said, "There's nothing here." He said, "I don't know." He said, "I don't know why they called me." I said, "I don't know why they called you either."

**Sid Roth:** Wait a second. Now you were believing for it. But at the moment he said, "There's nothing here," what was going on inside of you?

**Rebecca Murray:** But see, I believed that it happened when I said, "You will go no further, you're healed." That's when I believe it happened. And so he said, "I don't have to do anything. I can release you and you can go home." And that's exactly what happened.

**Sid Roth:** Tell me about Janice's nephew who has a coma. You don't know the young man?

**Rebecca Murray:** No, I didn't know him. I knew his aunt and he was in his forties. And this is where I got in trouble. We go to the hospital to pray for him. He's in ICU and he's in a coma. They said he had been paralyzed on his left side. He couldn't move anything. So I go into the ICU room and he's hooked up to all these machines. And Janice, who is his aunt, sweet, precious little lady that loved the Lord. And I said, "We're going to pray for him right now." I laid my hand on his stomach and I began to speak to his body. I began to say, "Body in the name of Jesus, I want you to respond to the healing power of God, to the word of God." So I'm praying for him. I'm telling you, if you could have been in that room, his arms and legs started... He was going like this. His arms and legs were going like this.

All of these alarms start going off on these machines. The doctors run in, the nurses run in and they look at me and they said, "What did you do to him?" And I said, "I just prayed." And they said, "Ma'am, you

have got to leave now. We are telling you, you cannot be in this room. You have to get out." So I got kicked out of the hospital. Well, the next morning I wanted to go see him again. So I go up and I'm thinking, are they going to let me in ICU? Probably not. But I was going to try. When I got to ICU, they said, "Oh no, we moved him to a room." I walked to his room, I stood in the doorway. He was sitting up, he was alert, he was talking and he yells at me. He's like, "Hey, hey teacher, look what I can do." And he lifted up the paralyzed and he said, "I can praise the Lord."

**Sid Roth:** This actually happened at a meeting you had in Africa. You're minding your own business, so to speak, doing the meeting, and in Central Africa and a woman shows up, I guess, was she on a blanket?

**Rebecca Murray:** She was on a mattress. Her daughters had carried her in on a mattress. She had been in bed for three years, could not walk, could not get up. So they carry her in. I'm up ministering. They carry this mattress and set it down right in front of me. I had been on the radio earlier in the day, and these people lived in a different nation. They lived in Equatorial Guinea and I was in Gabon, but they drove. They put their mother in the back of their car on this mattress because when I was on the radio, I said, "If you have anybody sick, I want you to bring them to this meeting."

So by faith they drove and they got her to this service, they lay her down. And I'm listening to the Lord always. I'm always listening to what the spirit of the Lord would say to me. And so the Lord told me, "Sit her up." So I go over, I kneel down by the mattress and I said, "Let's just sit her up." So we set her up on her mattress and then I said, "Get a chair. We're going to put her in a chair." They help lift her up. They get her to a chair. And I said, "God is going to heal her and she's going to walk."

And so of course everybody, when you talk about miracles, everybody's got their phone out because they want to see what God's... Is this really going to happen? And we got her up and we were holding her up a little bit and I just said, "Come on mama, we're going to walk." And so she just barely shuffled her feet. We were really helping her, helping hold her. She began to shuffle her feet a little bit, and the more she shuffled her feet, the more her steps got normal until we didn't have to hold her up. We just held her hand because she was walking, and the miracle of her getting from being bedridden for three years, she had liver cancer and many, many other diseases wrong with her. And she walked and she walked back. But the next night she walked in that church all by herself. Not one person helped her. Nothing.

**Sid Roth:** Hey, we have this on video. I want you to look at this.

You've been involved in a lot of supernatural miracles, but there is one miracle, you call it remote healing. What is that? And give me some examples in your life.

**Rebecca Murray:** Well, if you remember during the pandemic, we had remote work, remote school, remote doctors. Everything was remote because we couldn't get to certain places. And there was a woman who called me who said her mother had cancer. She got a diagnosis of cancer. So the Lord says to me, "I want you to do remote healing on her." And I'm like, "What is that?" Because we all pray for people, around the world, we pray.

**Sid Roth:** Right, but this is different.

**Rebecca Murray:** This was different. The Lord said, "I am going to take you there in the Spirit." And she lives in California. I'm in Virginia. So I go and kneel down. I said, "Okay." I got a couple other people. I said, "We're going to do remote healing." Never done it before, but this is something the Lord said he wanted to do. So we began to pray, and as we're praying, it is as if we accessed a realm of the spirit where we were literally in the room with her. Now we were still kneeling in Virginia, but we were in this room and I began to take my hand at her bedside and just began to move it like this up and down her body, just releasing the declaration of what he has already finished, what he's already done, and just prayed over her for it.

We were there for like 30 minutes just speaking over her so much that we saw the color of the bedspread that was covering her up. It was a white bedspread with blue flowers. A couple of weeks go by and I get a message from the daughter and she says, "I just have to tell you, she just came from the doctors and there is no cancer, nothing, nothing that's there."

**Sid Roth:** And this has happened to you a number of times. I would like you to pray a prayer for those that are viewing, pray that they be healed. Pray for an impartation of the gift of miracles as God directs right now.

**Rebecca Murray:** So right now, I am releasing to you such as I have, I'm giving to you that Father, they would have the revelation of the healer that is already in them. And Lord, that whatever is going on in their lives right now, no matter what the report is, because the report is just a report. But Jesus is truth, and we release the truth of the healer in your life right now, and may you know that you can do the same thing that I do. It's not for the big people, it's for the body of Christ. So we release it to you now, receive it. Be open and say, "yes, Lord, I believe it. I receive it right now in Jesus' name."

**Sid Roth:** Do you know there are many people watching us right now that are being healed because God is a good God, but you've never had the greatest healing by the greatest healer. The greatest healing is to have God, the creator of the universe living inside of you. And the greatest healer is Jesus. I pray right now that you would say with your mouth, do this right now out loud. Jesus, come and live inside of me. Repeat it.

Jesus, come and live inside of me.

**Sid Roth:** I make you my Lord and Savior.

I make you my Lord and Savior.

**Sid Roth:** And now that I'm clean.

And now that I'm clean.

**Sid Roth:** Because Jesus has died for every one of my mistakes.

Because Jesus has died for every one of my mistakes.

**Sid Roth:** I ask you, Jesus.

I ask you Jesus.

**Sid Roth:** To live big within me.

To live big within me.

**Sid Roth:** Let me heal the sick.

Let me heal the sick.

**Sid Roth:** Let me set the captives free.

Let me set the captives free.

**Sid Roth:** Let me tell everyone about your goodness.

Let me tell everyone about your goodness.

**Sid Roth:** Amen.

Amen.

**Sid Roth:** So be it.

*Dr. Rebecca Murray's book, CD set and DVD Resource Package, Walking in a Life of Miracles shows you how when you yield to God, anything can happen. You'll learn stepping out of your ordinary comfort zone and opening your mouth by faith brings dramatic healings of every kind into your life and the lives of others. How when you walk into any room, God's healing comes with you. How to be empowered to heal others remotely that transcends distance. That your life can overflow with the miraculous as Rebecca leads you into pure worship of God, not by theory, but by experiential practice, and so much more.*

**Rebecca Murray:** *It is really time for you to walk in miracles. You'll have prayers, declarations that you can say every day as you begin to walk in miracles. It's like God is giving you this special infusion of his healing power. As we release his healing power, we will see people's lives transformed.*

*Call or go online at [sidroth.org/10063](http://sidroth.org/10063) with your donation of \$36 or more with free shipping for Dr. Rebecca Murray's book, How to Walk In a Life of Miracles.
